Common Law is the law of the people to defend themselves and their rights against tyrants. Statutory law is the law of the tyrant to take rights from the people. - <http://www.svpvriil.com/OACL.html>

Jack Venrick
 Enumclaw, Washington

In England, William Pitt summarized the concept of private property under [Common Law](#), as follows:

'The poorest man may, in his cottage, bid defiance to all the forces of the Crown. It may be frail; its roof may shake; the wind may blow through it; the storms may enter; the rain may enter; but the King of England cannot enter; all his forces dare not cross the threshold of the ruined tenement. Washington

This landmark initiative by the

State Statute for Restoring Constitutional Rights and Status

people of Washington State: 1) Restores Constitutional Citizen and Property Rights; 2) Keeps Unconstitutional Federal Laws out of Washington State; 3) Requires that State legislation stay within the limits of the State Constitution. This initiative should be enacted in every state of the Union and most likely will be. 8.5" x 11" Pages: 21 P0011095 \$

Why Zoning Will Not Work - so Instead of Zoning...

"Where rights secured by the Constitution are involved, there can be no rule making or legislation which would abrogate them." *Miranda v. Arizona*, 384 U.S. 436, 491. Also see *Marbury v. Madison*, 1801. "A county may not impose a charge for the enjoyment of a right granted by the Federal Constitution." *McGoldrick v. Bewind-White Co.*, 309 U.S. 33, 56-58. Zoning is unconstitutional and therefore null and void. This little paper fully makes this point and gives some very good beginnings on how our communities can exist without chaos, fascism, socialism and the current taking of private property which includes your right to your own property without interference. 8.5" X 11" Pages: 10 P0001796 \$2

You are concerned because

County Patriot

government has gotten out of hand, but you can't fight city hall, much less Congress and the state/federal terrocrats? Here is the plan -- how Americans can restore the constitutional republic and government accountability. There is help waiting to be called to reassume your COUNTY GOVERNMENT from foreign UN control. 8.5" X 11" Pages: 11 P0001295 \$1.5

Larimer County "Bill of Rights" Ordinance

Full text of an ordinance model being introduced around the country. Introducing this ordinance to your county commissioners will once and for all bring their county back to a lawful and Constitutional basis in operation. This startling document:

1. Enacts the first ten articles (our Bill of Rights) as the foundation ordinance of the county.
2. It enacts Title 18 of the United States Code which defines violation of a person's rights as a crime.
3. It enacts Title 42 of the United States Code which defines the penalties for violations against a person's rights referred to in #1 above.
4. It further states that all disputes or violations of this ordinance will be resolved in an article 3 Common Law court. The implications of this ordinance will be staggering and will fundamentally change the way the county and People associate. This document is the

place to start to get one passed in your county. This ordinance is being introduced into other Colorado counties as well as a number of cities. This ordinance is being proposed in counties in New York, Pennsylvania, North Carolina, Florida, Kentucky, Texas, Oklahoma, Nevada and California. 8.5" X 11" Pages: 9 P0002495 \$2

Lawful & Legal Basis of Ordinances

"Since a municipality, city, or town has no sovereignty it cannot create laws pertaining to one who does not come within its purview. It can only enforce the laws of its master (LAWS OF THE STATE). However, the city can regulate those artificial beings it creates or natural persons it employs." Brief yet well researched paper on the nature of ordinances and regulations which may be issued by a county or city (corporate) government. If you are dealing with your county government you will need this information to make your points stick and be valid in court if necessary. 8.5" X 11" Pages: 5 P0004495 \$1

Let's Fix it with Common

A brief description of what is going on in the country and the world with details of how many different organizations are approaching the fix. Names and addresses of groups active in the

**Open
Letter to
the
Sheriffs**

"Origin of Office: The office of sheriff is an ancient one, dating back to at least the time of Alfred, King of England, and the holder thereof has always been the chief executive officer and conservator of the peace in his shire or county. He is a county officer representing the executive or administrative power of the state within his county. In this country, the office is generally an elective one, and anciently in England, sheriffs were elected by freeholders of the county, although gradually, it became the custom for the Crown to appoint the Sheriff. " The Common Law is the basis for all lawful law in this country. The police and sheriffs are being used illegally as 'bag men' for the evil and vicious and unlawful Equity or Admiralty law. This pamphlet reveals what this is, how it is, who is doing it and most importantly what our real and true roles in all this was, is and should be. Every law enforcement person in this country needs to read this material. 8.5" X 11" Pages: 10 P0001395 \$3
