**Subject:** *Death By Extremes - Another Perspective on Government & Environmental Extremism*

*To: All Americans Who Are Dying From Government Extremism:*

*677 people have died by the West Nile Virus between 1999-2004 according to this site below. You wonder how many millions the government has spent on this. More interesting however, is the scope of data provided on the following two sites regarding natural disasters.*

*I cannot attest to the accuracy of the data nor the sites. However this will give you a new relative perspective of world "natural" disasters. The accuracy of the numbers is not as important as the relative order of magnitude of the difference of the numbers.*

*Extremism has ruled the world since day 1. Ignorance is the cause of all man caused death and some of these so called "natural" deaths.*

*Similar group stats may be different because they came from two internet sites using multiples sources. I intentionally left them to cross check source data. These web sites are randomly picked by my search engine.*

## *Notes*

*A supervolcano that erupted at Lake Toba around 74,000 years ago is thought to have reduced the global human population to less than 10 thousand, which isn't much, as the global population was at most around a million at the time; see Toba catastrophe theory. This eruption is not listed because it occurred before recorded history. Also, the Thera eruption in the Aegean Sea between 1550 and 1650 B.C. may have caused a large number of deaths throughout the region, from Crete to Egypt.*

## *Conclusion*

*So what do you see here? I see the following and you will know doubt see more.*

1. *Leading cause of death is contagious disease taking 864 million over the last 100 years.*
  - *I see the cause as largely ignorance, dense population, poor to no sanitation, lack of availability of immunology if it was available, personal choices, poverty, etc. Who is to accountable? I would give this a 50/50% government and individual responsibility.*
2. *Contractible Diseases*

<b><i>Death Toll</i></b>	<b><i>Event</i></b>	<b><i>Location</i></b>	<b><i>Date</i></b>
300,000,000+	Smallpox		20th Century alone
300,000,000+	Bubonic Plague: Black Death		1300's-1720's;
	Plague of Justinian		540-590
	Third Pandemic (same disease)		1850's-1950's

10,000,000 - 100,000,000	deaths from diseases in Europe (millions) and the Americas (tens of millions) from diseases exchanged between continents after 1492

677	West Nile Virus outbreak	(North America	1999 - 2004
256	H5N1 strain of Bird Flu	(mainly in Asia, few in Africa and Middle East)	2003-present

3. 188 million deaths from war and man made famine. I attribute this primarily to government of all kinds.
  - o Note the above breakdown of 110 million deaths by communist oppression and
  - o 2 million by democratic democides.
4. 77,480,000 deaths from famine. Using these numbers, we have 71% government caused, 39% other causes.

- *Non-Democidal Famine (often including famines associated with war and communist mismanagement):*
  - *China (1900-87): 49,275,000*
  - *Russia: (1921-47): 5,833,000*
- 5. *71 million deaths from tobacco products. I see this as total individual choice of his form of enjoyment and death.*
  - *If you want to add the secondary health effects if smokers, see me at your local brewery for a personal experience story.*
- 6. *6,542,612 weather related deaths not counting famine, i.e. weather is not the relative "disaster" problem it is make out to be.*
  - *Near 2 million are from cyclones, hurricanes and typhoons. Most of this is in second & third world densely populated areas where there is poverty, lack of technology, low living standards, no free enterprise. I'll give this 50% government and 50% individual responsibility*
  - *4.5 million deaths are from floods and landslides. Most of these disasters were in China caused by dense populations, oppressive governments, lack of technology to control water, i.e. lack of freedom. 100% cause by oppressive government.*
  - *46,072 died from heat wave in first world countries, most in Europe. The reason, individual choice not being prepared, i.e. not acting to buy indoor air conditioning, lower insulation quality of buildings, densely populated cities, etc. The cause, socialism, poor coping skills, poor emergency training, poor personal choices, etc. I'll give this 50% socialistic government and 50% personal choice.*

*Adding up all the deaths that are government related we have the following.*

- *432 million killed by disease (864M x .5)*
- *188 million killed by war*
- *55 million killed by famine associated with war and mismanagement*
- *5.5 million killed by the weather*

*Q.E.D. (Which was to be shown)*

*Governments have killed 680.5 million people in the last 100 years by my calculations. This dwarfs any real or nonsense numbers on global warming, sustaining development, smart growth, welfare, Medicare, social security, you name your pet government program to save the people. Government does not save or help anybody. They kill people.*

*Government is not the solution to our problems, the poor, the handicapped, the mentality ill, the environment, labor, education, or any social, economic problem, you can dream up. All government is ultimately destructive. Even so called free world governments.*

*I challenge you to this bazaar thought. Why do we need any government, when they kill our freedoms one way or another. Governments of any form kill free people and freedom sooner or later. If this sounds insane to you, welcome to the first freeing thought you probably ever had about government.*

*Governments kill people, kill our freedoms, even if you have them. They kill and pervert the laws of the land. They take away so many of your natural and constitutional freedoms and liberties, you don't even know what your rights are anymore. Political parties are not the answer, they are the problem to free people and freedom.*

*Freedom is being hung while attempting to desert in America. The answer to freedom is no government. If you have to have it because it makes you feel good, then consider only a very limited government as the Founding Fathers intended. They knew how power corrupts absolutely. American government is their worse nightmare come true. A democratic republic has become oppressive tyrannical and socialistic in only 230 years because our freedoms have been traded to people who refuse to earn their freedoms.*

*Now we can better see how we have lost our property rights and all of our natural and constitutional rights.*

*Wake up America. Your freedom is in the noose on the gallows of government extremism. The trap door your feet stand on, are the doors to*

*the Executive Office, House & Senate & Judicial courts. Both parties are eager to open the door for you. They want your freedom more than you do.*

*Wake up America.*

*There is no evidence either from ethnographic accounts or archaeological excavations to suggest that rates of accidental trauma or interpersonal violence declined substantially with the adoption of more civilized forms of political organization. In fact, some evidence from archaeological sites and from historical sources suggests the opposite.*
