

The Legislature is now in session

Dear Tim, Jack and Mike:

bcc: Property Rights and Freedom Groups, Auburn City, Auburn Chamber of Commerce, Association of Washington Cities, Media, Washington House and Senate, U.S. Senators and Representative, Washington State Supreme Court

Good job for getting this news out to everyone.

---

I just passed your news onto my email list plus the House and Senate for what good that does. I also emailed the two red light manufacturers who are involved in this crime. Their sites seem to be quite slow and busy.

These crooks all work and live in the cities and orchestrate their illegitimate positive paradigm taxing and taking schemes upon private property owners to perpetuate themselves. The vendors making this equipment go against every fundamental law of the land including the constitutional law, common law, natural law and God's law by selling weapons that invade all of our unalienable rights, see attached. The city mayors & councils are so greedy, they can't tell the difference between a traffic problem and a planning problem, whereby they rat pack the cities along the mandate of the UN Agenda 21.

These urban governments are stealing our wages, homes, land, privacy and trespassing upon our vehicles and our rights all the time. Then they pretend its Constitutional. Then to further convince themselves they are not stealing private property, they create more legal fiction progressive regulations that can only apply to commercial legal fiction corporations .

They pretend these commercial legal fiction regulations also apply to the natural born sovereign and free state CITIZENS. There are no common or natural laws that authorize the regulation or taxation of the natural born free and sovereign state CITIZENS OR ANY OF THEIR PRIVATE PROPERTY. If there were laws such as they pretend, we would be slaves, would we not?

The urban governments are responsible for much of the unconstitutional tax system. Read the long tax list below that never existed a hundred years ago, but with the invention of legalized theft upon property owners by these urban government predators.

These crooks have no clue the entire tax system upon the natural born & sovereign state Citizens is unconstitutional. This urban tax taking scheme has been ruled unconstitutional by the high courts more than once. Property taxes cannot be applied unless they are apportioned evenly to every man, women and child and even then that goes against the "Laws of Nature and Nature God, i.e. the natural laws. Income taxes AND sales taxes are all indirect excise taxes that cannot be imposed on the natural born Citizens. They can only be applied upon legal fiction corporations including government employees.

Red lights, ticketing, coding, fining, permitting are only legitimate on municipal government corporations and legal fiction corporations.

I have been researching this cycle taking for the last 4 years after the local King County takings of our property rights.

The government multisided consortiums are profiting from this extortion, e.g. the teachers unions, government employees, political parties, and the corporate fiction groups like these red light companies. Whether it is central bankers, central government or centralized state teachers association they are complicit in illegitimately perpetuating forced takings upon our private property. Again there is no founding our organic laws that authorize this. All the common and natural laws and God's laws forbid stealing of private property. Stealing is when you are robbed by force to pay.

The only legitimate form of government revenue is a very limited indirect tax and the revenue of the sale and lease of state owned natural resources. I am being told the City of Enumclaw charges a 3% business tax. This is a Constitutional indirect tax. The City of Enumclaw is corrupt however and extorts the private property owners by taxing them based on a unconstitutional property tax in addition to forcing numerous private and business owners off their property using the misapplied "eminent domain".

The only reason "eminent domain" got into the Constitution was because of elite colonial land speculators and then it was applicable to the territories only. It was never meant to be applied to private property home and land owners in the several states. The cities, counties and state governments may only legitimately ask for an indirect tax on corporations and customs duties for those governments living on the coasts or borders and the sale and lease of any public lands within their existing limits.

There are many private property owners drug through the crooked court system, in prison and jail and even some who have committed suicide, many now have been foreclosed upon and have no homes, no jobs, no lives. All because of the urban criminal tax and taking paradigm to reward themselves and their buddies so they may continue to steal from the innocent property owners.

Urban political systems are built upon an intentional fraudulent scheme. Ignorance of the laws is no excuse. How many time have you heard that? What's good for the goose is good for the gander.

Urban government and those groups who abuse them, like the 40,000 some teachers in Washington State, purposely turn a blind eye on the fundamental laws while our homes, land and savings are foreclosed upon US. The central CONSORTIUMS which cause most of the takings of our private property create a paradigm whereby they refuse to support themselves and create a free market for their services. The city governments and the primary, secondary and academia have become delusional thinking they deserve to not compete and to be paid for only 9 months out of the year.

Then they orchestrate a taking of private property that goes against all the laws of the land and the Laws of Nature and Nature's God by stealing private property, e.g. property taxes to extort home and land owners into a fascist system. Then when they get in trouble and the extortion does not pay them enough, they strike or demand more from the same groups who are stealing from the same poor private property owners.

CONgress who ignorantly allows the bailouts of these ill-gotten groups create continual rounds of inflation, devaluation and increase in unconstitutional taxes thereby perpetuating a boom bust cycle ad infinitum. This has been going on for 232 years, believe it or not.

This cycle of taking (e.g. taxing and regulating private property) is not unlike a rebound effect of continually dosing yourself with a drug. The more you take them more you want until you are an addicted drug user ultimately destroying yourself. Indirect taxes are an addiction. Direct taxes are a crime.

This illegitimate taxing and taking of private property is a death cycle to Americans and America and it is led by the city fathers & councils who have become so perverted they ignore all the fundamental laws of the land. This situation is the ultimate hypocritical double standard whereby the city government officials who are the financial cesspools of government, then turn on their masters and strangle them to death via uncountable legal fiction creations, e.g. eminent domain, zoning, ordinances, acts, codes, draining our rural lakes for their water supplies, locking up our own land, homes, roads, vehicles, livestock while buying up more private property and turning it into elite parks and stealing right of ways from private property owners so they can create a trail on a railway without compensating the property owner while creating an attractive nuisance for them and all the adjoining and nearby property owners.

This back stabbing process is perfected by the city, county and state cereal departments, e.g. park and code departments.

The Mayors of Auburn, Enumclaw and near every city and county and state agency in Puget Sound have been doing this for decades, even centuries while the private property owners are ruined. This is totally criminal. There is no original law to support this and it is all legal fiction creations of municipal corporations all the way up the D.C., including the UN and the three central banking families in America and the 5 in Europe. All roads lead to the Bank of England and the Bank of Rome.

The cities, counties and state government officials are responsible and accountable for all these travesties upon innocent home owners and wage earners. All private property owners, rural and urban, await the day of judgment for these crooks.

Urban governments at all levels are rotten to the core. They are criminal in their blindness and refusal to see and speak the truth because it would mean acknowledging they were thieves. They are totally blind to the fundamental laws of the land and even worse than that, they are ignorant of the common and natural laws that preceded this country. The Constitution, at least the Federalist version, is applicable to the central and state governments only. Even that piece of paper was NOT unanimously ratified by the then 13 states. Even then this piece of paper was not legislated upon nor approved by the colonists at the time. This piece of paper is only a "sand box" for the central government not the natural born, sovereign and free state CITIZENS.

Cities, counties and states have no authority or jurisdiction over the lives and private property owners including their homes, land, wages, vehicles, livestock and the buffer areas around their private land and homes. We are NOT EMPLOYEES OF THE CITIES, COUNTIES OR THE STATE. WE ARE SOVEREIGN AND FREE. We are ruled by God and the Common and Natural Laws as we so choose. We are accountable to no man or government.

This is an classic example of how our sacred boundaries of private property have been broken down. You cannot trespass upon a man's land, home, vehicles, wages, privacy or any of the some 60 certain enumerated unalienable rights. See list attached above. Just as you cannot grope, touch or take from anyone without their express permission, you cannot directly tax them or take any of their private family property. The courts nor congress, do not decide these laws, as much as they like to play with our private lives. These laws are already set in stone by God and millenniums of tried and tested preceding laws called the Common Law and the Natural Law. Government legislatures, courts and administration have no jurisdiction or authority to take any man's or women's or child's property.

The present tax system in America has broken the spirit of all Americans and has been ruled UNCONSTITUTIONAL by the high courts of this land. Yet the cities, counties and states and federal agencies, ignore these rulings and their own oath of office. This is a massive form of embezzlement.

With this perspective you can understand the clear illegitimate enslavement of American property owners including the wage earners.

Elected government people especially and unelected government and non government types, who are playing these games with our private property and OUR public property, are held to a much higher standard of conduct. They ignore that too.

These type of people, don't feel responsible if they pretend to believe they don't know, i.e. ignorance is bliss.

1. We have ignorance of the knower,
2. ignorance of the process of knowing,
3. ignorance in the known and
4. ignorance of all the Laws of Nature.

**These four represent the full range of ignorance in man.** "The Yoga Sutras of Patanjali", Pada II. Sutra 5

All of the city, county and state governments located around Puget Sound Washington are guilty of abatement. Please read this prophetic wisdom from an Avatar (Holy man) in India. India has the same problem as does the world.

This Avatar's testimony applies to all our elected and unelected government employees as well as every state paid teacher.

Q: What should I do if I see a crime?...e.g. stealing private property, e.g. wages, homes, land, vehicles, livestock, personal items, etc.

**Sai Baba: "Today many are indulging in actions opposed to Dharma and Truth and, on the basis of their caste or community, are promoting strife and conflict in the country. Elders in the nation are remaining mere spectators of all the unrighteous and violent actions that are being done by the evil elements. Even the scholars and intellectuals are remaining silent. Persons holding high office are merely watching what goes on. No one, however, is making any effort to stop this menace. They are not resisting the evil elements. It appears as if all their knowledge, position and influence have been reduced to nothing. Such persons, though they may not be indulging in unrighteous acts, are giving encouragement to them.**

**When evil and injustice and violence are being perpetrated, if individuals look on unconcerned, they must be regarded as accomplices in the crimes. In the end they also suffer as much as the criminals. By their passive association, they provide encouragement to the evil-doers.**

**When the good are associated with the wicked and do not oppose them, they share responsibility for the deeds of the evil doers. The Divine destroys even those who either do not oppose or remain passive while injustice and wrong-doing are perpetrated. The Divine will not consider whether they are learned or ignorant, wise or unwise. If they are learned or wise, why did they not stand up for truth and justice? Why did they remain silent? It means they are tainted by the same guilt. The failure to resist evil is their offence. It is only**

**when we resist acts of unrighteousness and injustice and try to put down malpractice's in society that we can claim to be assisting in the task of restoring Dharma. ...**

**Whoever may commit an offence, whether a son, a relation or a close associate, one will be free from the taint of being accessory to the crime only if he opposes the wrong action and tries to correct the offender. If, on the contrary, he allows it or encourages it to be done, he will be guilty of abatement."**

Again, thank you Tim and Jack and Mike for standing up to these crooks. Another check will be in the mail.

Hear Ye Hear Ye The City Councils are in session. Someone turn on the RED LIGHTS so they can see more ways to steal more private property to fund more programs to steal more private and public property to raise more unconstitutional property taxes, sales taxes, illegitimate taxes on private property owners.

Hear Ye Hear Ye, The Corrupt Municipal, District and Superior Courts are now in Session to enforce more unconstitutional, uncommon and unnatural progressive perversions of the fundamental natural laws of the land. All rise.

Great job Tim Eyman and crew with this must pass initiative! The Association of Washington Cities, the National Association of Cities and the National Association of Counties are all a bunch of conniving thieves. They TAKE the time on our dollar to steal from us but they don't get arrested YET.

Here is the stereo typical green triangle except this time it's a red triangle, i.e. profiting little red light vendors, profiting & greedy little city mayors and councils, and profiting courts. All while telling you its for your own best good, safety and theirs. All the while, the state and national associations of cities and counties collude their next illegitimate criminal extortion on private property owners.

Stay out of Auburn and any town that has these illegitimate red lights and let the merchants know you are shopping elsewhere. Its called free choice. If these greedy little town council planners did not rat pack their "sustaining development" cities so tight and spread out, they wouldn't be having these ant colony and bee hive problems. Why can't they figure it out? Because that would not comply with the self masturbating green government chain of command going all the way to the UN and Central Bankers and all those crooks involved in this last bailout.

Americans are fast learning who are orchestrating these local, national and foreign "Red Lights" on the lives, private and public property and every generation since the rise of the Federalist central government and banking system stampeded over all those in the colonies who did not want this perversion.

Let these red light companies know you are going to shine a some light on their dark ways. Notice they are cowards with form email well knowing what they are doing is legalized theft.

"Photo Red companies top anti-985 donors" reads the jump on today's homepage of the Spokesman Review. Over 1/4 of the total money raised from I-985's opponents (\$160,000) has come from a red light camera company: Signal Electric \$40,000 so far. "Arizona-based American Traffic Solutions" has donated \$10,000 so far.

But their political contributions to the No campaign weren't business-related; they contributed for altruistic reasons.

RE: Photo Red companies top anti-985 donors, they deny profit motive

"Photo Red companies top anti-985 donors" reads the jump on today's homepage of the Spokesman Review. Over 1/4 of the total money raised from I-985's opponents (\$160,000) has come from a red light camera company: Signal Electric \$40,000 so far. "Arizona-based American Traffic Solutions" has donated \$10,000 so far.

But their political contributions to the No campaign weren't business-related; they contributed for altruistic reasons.

As the story notes: "Jerry Vosberg, vice president of Signal Electric, said the company's \$40,000 contribution was not motivated by the potential of lost profit."

The same selfless reason explains the other contribution: "Josh Weiss, spokesman for American Traffic Solutions, said the company contributed money in solidarity with communities it serves."

How admirable. Note the rhetoric from these companies matches what we hear from politicians: it's not about the money, it's all for the "greater good."

Just because these companies profit millions of dollars every year from these cameras, that's not why they're in business. Just because cities profit millions of dollars every year from these cameras, that's not why they're putting them up. Just because EVERY camera contract has a provision that allows the company to move the cameras to a different intersection if revenue isn't being maximized, no, no, you've got it all wrong, it's not about the money.

I-985 removes the profit motive for photo red light cameras and photo speeding cameras. As a result, we read comments like this from

Wenatchee's mayor: "(Mayor Dennis) Johnson said the city's incentive to install cameras is gone if I-985 passes." Oops, looks like the 'no' campaign hadn't distributed its talking points in time for that Wenatchee World story.

As today's Spokesman Review story notes: Money from red light cameras would be a small portion - likely less than 10 percent - of the money raised for the traffic decongestion fund under Eyman's proposal. He (Eyman) argues that Spokane's warning that the camera might have to be unplugged is another sign that red light programs have been created to generate revenue. "Under our initiative, they have no profit motive for red light cameras," Eyman said. "Now they will truly analyze which intersections truly does it help and which ones does it maybe hurt, and only put up the cameras at those intersections where it will actually make things better."

Well said.

As reported by the Washington Post: The District's red-light cameras have generated more than 500,000 violations and \$32 million in fines over the past six years. City officials credit them with making busy roads safer. But a Washington Post analysis of crash statistics shows that the number of accidents has gone up at intersections with the cameras. The increase is the same or worse than at traffic signals without the devices. <http://www.washingtonpost.com/wp-dyn/content/article/2005/10/03/AR2005100301844.html>

Politicians will never let facts get in the way of maintaining such a lucrative cash cow profit center.

As a citizen wrote at the Kitsap Sun blog: "If the red light cameras worked as designed people would stop running them and there would be NO revenue anyway. (Mayor) Bozeman, if you are planning your budget by counting on people breaking the law you have failed miserably. I for one have a strong issue with government spying on citizens with cameras and this initiative takes away the incentive for greedy cities to install them in the first place. That alone deserves a YES vote on I 985. There is a reason this initiative has very little opposition and no big money campaigns fighting it. Because it has many benefits and no drawbacks (unless you are a failed mayor). There is a reason our capitol newspaper

The Olympian endorses this initiative. Vote YES!"

I-985 is a well-thought-out, professional, comprehensive transportation reform proposal; it offers immediate, cost-effective solutions with built-in accountability and oversight by Washington's most trusted elected official. And rather than raising taxes, I-985 instead funds its common sense policies with transportation-related taxes and charges that we, the citizens, are already paying.

Jack, Mike, and I are extremely grateful for the folks who have contributed to our compensation fund. We ask that you continue that support. If you like and appreciate our past, current, and future efforts on behalf of taxpayers, please send us a donation for \$10, \$25, \$50, \$100, \$250, \$500, \$1,000 or more (there are no limits on how much can be given). Please consider a monthly pledge from now through December for our fund. We ask you to please help us help taxpayers.
