To: Allyson Brooks

Allyson,

Sorry for the delay. It took some time to go through your questions along with everything else.

My response follows each question below.

In order to see the big picture and better understand the take down of America over some 233 years, please read the recent attached three reports, especially the one titled "Know The Score..".

Americans have been blinded into indentured slavery by private and public institutions which are profiting from the creation of a massive level of ignorance and apathy regarding the definition of true ownership of our private and public property.

It took me 5 years to connect enough dots of taking to see the big picture and that has been relatively intense. The learning curve to wake up is very slow, especially if you are just coming out of the "stall", deaf, dumb and blind as most of us are, especially if you are working and raising a family. There is little time left to understand or even be aware that all of your property has been stolen. You are in a squirrel cage of perpetual motion that will never run fast enough to allow you to be free.

The system has been designed so each generation is now taking down the next generation.

What you will gradually start to see, if you are persistent and piece enough of the puzzle together, is an orchestration of evil of "grand theft larceny" of everything you own, including your sovereignty, the sovereignty of your country and state, your community traditions and life itself.

**grand theft** - larceny of property having a value greater than some amount (the amount varies by locale)

Allyson

Ok I agree with you on some points but not others:

*The problem is NOT that the government has too little funds, it is:*

- *[because it has too much](#), - it depends on how they are used. Do you get Medicare and social security? I am sure you appreciate both of those.*

---

#### Jack's reply

All social systems are unconstitutional in a Constitutional Republic. I do not "appreciate" anything or anybody who forces me into limited or no choice systems of any kind especially while they go about advocating these are legitimate. I especially do not appreciate the taking of my hard earned wages and giving me no return on investment for it over my career of some 30+ years. The opportunity cost on these social systems are huge for the wage earners and tax payers.

- A Constitutional Republic limited government is NOT a charity organization nor a church nor a retirement fund.
- If you want health insurance join a private plan and pay for it.
- If you want a retirement plan, join a private plan and pay for it over your career.
- You cannot force free people into social systems to pay for others who cannot or will not take care of their own needs
- Governments are corporations and artificial legal fiction bodies set up to protect your freedoms and liberties
- Governments are NOT created to give you pensions, health or any other social needs
- NOR can a "majority" or special interest group conjure it up and force me into it in a Constitutional Republic
- You are confusing a Constitutional Republic for a democracy.

The state has become entangled in a web of social, monetary, financial, corporate, individual, healthcare that are only found in collectivist, Marxist, socialist, communist, fascist forms of tyrannical governments.

- Medicare, social security, drivers licenses, drivers plates, regulations, codes, permits, ordinances, acts, laws, corrupted forced direct and indirect taxes go against the founding laws of the land, the Laws of Nature and Nature's God.
- There simply no founding or fundamental basis for "helping your neighbor" or yourself other than voluntary private and church efforts.

These systems are NOT solutions nor are they entitlements you automatically have a right too.

- These systems are forced upon free and sovereign natural born state Citizens.
- The funds in the so called Social Security, while they are money contributed by the private sector

employed and their employer are NOT invested.

- The social security fund is only a pass thru or transfer pool that has been raided by the crooks in CONgress.
- Medicare and Social "Security" are at and near bankruptcy.

All levels of American government, the union of the states (fed), states, counties and cities are

- at or near or live on the edge of financial ruin because
- they derive their sources of revenue from largely unconstitutional and illegitimate and fraudulent sources.

When you put a gun to a persons head and say here take this "service" or drivers license or drivers plate or diluted title or usurious interest mortgage or some barbaric feudal fraudulent tax..

- THERE IS NO "IT DEPENDS" OR "I AM SURE YOU APPRECIATE..."

A free Constitutional Republic is based on free choice not on forced "services"

- created by forced takings created by fundamental contrived forced, contrived and predatory fundamentals,
- e.g. central banking fraud, monetary fraud, debasement of our currency to total debt, worthless, fiat paper
- that is not worth the paper it is printed on, the creation of needless wars for profit and power.

Allyson

*too much power, - it depends where its being used.*

Priority	Majority Rule Democracy	Constitutional Republic
1	Global Elite	Creator
2	Majority	Individual
3	Government	Constitution
4	Public Servants	Government
5	Case & Statute Law	Public Servants
6	Corporations	Statute Law
7	Individual	Corporations

Jack

The only power in a free society resides in the individual natural born state Citizen.

- I keep showing you this very simple chart, which answers all of your questions once you realize...
- that no one else but yourself stands before you to protect you and care for you,
- Only you and God can do this.
- No one else is responsible or obligated.
- Half of America has been brain washed that someone else is responsible for taking care of them.
- The government is NOT a church, NOT a charity, NOT your family, NOT your friend and NOT your neighbor.

Artificial organizations ...

- e.g. governments, BAR associations, courts, legislators, executives, corporations, associations,
- military industrial complex, foreign countries, etc.
- are NOT obligated to take care of you.
- They are not capable of love nor were they designed to be because they are NOT natural born.

Because they are NOT capable of expressing the most basic and powerful force in the world (love),

- it is an oxymoron to think a public institution or even a private one can be designed to take care of you
- It is easy to make a case these artificial groups have done nothing but destroy our freedoms, liberty,
  - peace and quiet and the sanctity of our private and public property as well as our traditional way of life.

General and President Eisenhower warned Americans of the excessive power of the military industrial complex.

Allyson

*too much taxes, - yes, but on the individual...personally, I think large business needs to pay their fair share. Ironically, you live in a state without income tax which you should appreciate. If you were in NYC you would pay federal, state AND local taxes + property taxes! My property taxes in Minnesota were double what they are here. Just try Connecticut. I lived in South Dakota where there is no income tax and property taxes are cheap. But its South Dakota. I quite like SoDak however. The individual is in pretty good shape in WA unless you are a small business. Boeing gets a great tax deal here. They get major major tax breaks that others do not get.*

Jack

"The few who understand the system, will either be so interested in its profits, or so dependent on its favors that there will be no opposition from that class, while on the other hand, the great body of people, mentally incapable of comprehending the tremendous advantages...will bear its burden without complaint, and perhaps without complaint, and perhaps without suspecting that the system is inimical ["Injurious or harmful in effect; adverse"] to their best interests." Rothchild Brothers

You and I and all of the free world have been taken big time. The current system is illegitimate, treasonous and completely unnecessary.

- There is ONLY one month difference in the tax freedom day
  - between the lowest taxed state of the union in Alabama
  - and the highest taxed state of Connecticut
- i.e. "you should appreciate" how bad you have been CONned out of all that rightfully belongs to you.
- It makes little difference what state you live in,
  - they are all controlled by higher forces who operate beneath the public's awareness
  - stealing all their private and public property and their traditional way of life.
- www.taxfoundation.org has all the data.
- All of these direct and indirect taxes laid upon the natural born state Citizens are illegitimate
- AND worse yet, they are all unnecessary

---

Allyson

- *too much confiscation's - including heritage takings - preserving American history could never be a bad thing!!*

Jack

*Remember the big picture of the puzzle on the box analogy. You are looking at everything from within your little government created box and NOT getting out of it to see the big picture.*

- *American government has intentionally lost our founding and natural law history and converted a Constitutional Republic into a Fascists/global*
- *The "preservation" of American "history" especially with illegitimate funding sources combined with downstream collateral impact on all of the abutting and near by property owners is wrong and unnecessary*
- *The hard truth is the American founding and fundamental laws of the land were taken down and lost 233 years ago.*
- *The high court decisions reaffirming the take down of our private property have been swept under the rug of history*
- *The endless and continuous takings of our traditions, public property, jobs, industry, debasement of our currency, illegitimate use of usury upon the natural born, abuse of eminent domain, the dilution of allodial rights to strong titles to our property, the extortion and debasement of a very limited tax system into a system which kills and intrusions good Americans and drives them from their homes, land, jobs and into the street is the history you need to preserve for the world to see*
- *The history you are trying to preserve is only the politically correct dumbed down Polly Anna feel good "history"*

*Allyson*

- *too much unaccountable funds. - like the billions that disappeared in Iraq?*

*Jack*

*Yes AND Like the 11 trillion dollar debt we are in that has bankrupted America long ago and has gone exponential. The globalist via the central bankers have pillaged everything of value in this country long ago.*

- *too many wars abroad - agreed*

*Allyson*

- *too many wars and takings against its own kind - agreed on the first, not sure what you mean by the second.*

*Jack*

*This is only a sample of the debauchery of wars, read "The Creature From Jekyll Island" which is a documentary on all the takings behind the scenes, e.g.*

- *The Civil War was unnecessary.*
- *It was an orchestration of taking by the Northern power centers over the South*
- *It had little to do with slavery which was only used as an excuse to invade (sound familiar)*
- *The Spanish American War was concocted by President McKinley*
- *WWI was concocted*
- *WWII was a continuation of WWII because Germany was allowed to rearm going against the Treaty of Versailles*
- *ad infinitum*

Allyson

Regarding The Boeing Company.

- I worked for the The Boeing Commercial Airplane Company and Boeing Computer Services when they were separate during my 30 year career. - I note that you do not mention their government contracts. Boeing has been on contract with public tax dollars since before WW II. In fact, and you should know, they built many of the planes used by our Air Force. And satellites during the Cold War.

Jack

I did right here -

*I was not employed by any military or aerospace company of Boeing. There are at least a dozen subsidiaries of The Boeing Company many of whom do business with the government. They are certainly more profitable because of the corruption and the nature of the beast of government. If the company is funded by LEGITIMATE SOURCES OF REVENUE AS DEFINED ABOVE, and live within that budget, the nation will prosper. If they don't, the nation will collapse into wars and debt and revolution and this is exactly where we are heading.*

Allyson

- BCAC profit margin on the manufacturing and sale of commercial airplanes was a very marginal business. - exactly, which is why their defense contracts are so lucrative. That's where they gain their profit.

Jack

That is correct and the ends does not justify the means.

Allyson

Their profit margin was around 2%. - only for commercial. You are still neglecting all their contracts with public tax dollars...which is a major portion of the company.

Jack

I think you missed this paragraph or misread it, i.e I agree with you.

*I was not employed by any military or aerospace company of Boeing. There are at least a dozen subsidiaries of The Boeing Company many of whom do business with the government. They are certainly more profitable because of the corruption and the nature of the beast of government. If the company is funded by LEGITIMATE SOURCES OF REVENUE AS DEFINED ABOVE, and live within that budget, the nation will prosper. If they don't, the nation will collapse into wars and debt and revolution and this is exactly where we are heading.*

Allyson

- They were driven out of this collectivist state by the socialist who are still running it into the ground today. - I was told by the former Mayor of North Bend that the head of Boeing (who came from McDonnell Douglas...) moved the HQ to Chicago because that is where he was from and his girlfriend was there. Apparently the former Mayor of North Bend was told this by his ex-wife (since he left her for his girlfriend). I don't know if this is true but it doesn't surprise me at all. That one is an old story. The girlfriend wins. It

had nothing to do with the socialist state but everything to do with the oldest profession in history.

Jack

Consider your source. Mayors are an integral part of the inbred colluded government predatory system. The Boeing Company was being "raped" by the state of Washington NOT by the girl friend. The Boeing Company and its employees were impacted ultimately by the fascist state of Washington. What employer and in fact what sovereign state natural born wants to live in such an oppressive feudal state as Washington. The word I hear is ultimately Boeing will leave the Collective State of Washington in total, its just a matter of time. I'm getting out of here too.

Allyson

The Boeing Company has been outsourcing its business for decades - yeah, and look what happened. Their planes don't work. The wings don't fit on the body of the aircraft.

Jack

What you describe is Standard Operating Procedure for new models

- and this is why The Boeing Company has expert Industrial Engineers who make it their life to understand Learning Curve theory
- Minor modification airplane models have less problems because they are not making so many new changes.
- Government cannot relate to learning curves and change because
  - they have no motivation to do so. I
  - governments become a perpetual aggressive cancer

- and will ultimately leave Washington totally just like they did in 2001 when they relocated their headquarters. - yep. Where there are no unions.

Jack

**The corporate state created the need for unions because both the state and corporations are predatory in nature, i.e. like sharks and pools of sharks.**

- **The greed of the corporations**
- **combined with the illegitimacy of the government taxing system**
- **and the illegitimacy of the central banking usurious interest of essentially freely printed money**
- **and the diluted titles of the sons and daughters of America**
- **and the hidden taxes created by the unconstitutional and debased monetary system of debt**
- **and the million illegitimate taxes by the greedy and corrupt and ignorant CONgress and the several states**
- **Broke the backs of the working class**
- **forced families into the labor pool just to keep food on the table**
- **while they were illegitimately forced to pay all the above contrived and totally unnecessary burdens**

**Allyson**

- Boeing got sick of being raped too by the fascist "government and got smart. - or got a younger girlfriend....men never appreciate their wives and all the hard work we put into them. Men always seem to think younger is better.

**Jack**

- They bid their business out to Denver, Dallas and Chicago and got the best deal in Chicago - or got a girlfriend in a different city.....

Responded to above, Boeing left because of the State NOT a "girl friend". I was there during this time.

- Boeing employees working in the aerospace and military subsidiaries of The Boeing Company are not government employees. - no but they are PAID FOR by government (tax) dollars. Just because they aren't directly government employees doesn't mean they are not on the government dole.

**Jack**

**The Boeing Company and many others especially in the aerospace and electronics industry are contract by the government. Government funding is highly inefficient and in fact it is completely counter productive. You keep looking at government as good and necessary while in fact it is the antithesis of both. Economies thrive IF they are completely free with limited regulation. Governments do NOT add value they create enormous drag on a free society. Governments and tax funded industry do NOT add wealth to a free society because the source of the funding is from the most part fraudulent forced debased taxing, banking and monetary systems.**

- They are the equivalent of independent contractors - who are paid by TAX dollars.

**Jack**

**You have answered you own question using the above response.**

- **Tax dollar funding is highly inefficient, counter productive, unnecessary, unprofitable,**
- **It targets junk science and political science agenda projects that otherwise would and could not be funded.**
- **The so called "alternative energy field is a classic example.**
- **There is no such thing as alternative energy.**
- **This is another green semantic swindle create by the green government and their consorts to funnel tax dollars into their pockets.**
- **The ONLY viable and economical sources of energy are fossil fuel and nuclear.**
- **The "man caused" global warning hoax is another example of tax dollar agenda fraud**

- i.e. global warming is natural and cyclical and is caused in large part from the sun spot cycles.

They have rights and much more risks than government employees. -yea..but my taxes still pay their salary and retirement. They are fully funded by TAX dollars. Without taxes Boeing couldn't survive. You yourself made the point that their commercial enterprise has a narrow profit margin. They need defense (i.e. tax dollars) to make their corporation function.

**Jack**

Again you are making my point. Tax dollars are counter productive in a free society because they are taken from others illegitimately. If the American system of government was limited and used ONLY legitimate forms of revenue mentioned earlier then this would work. I think you are confusing my working at the commercial side of Boeing as a statement I support the non commercial side? Many engineers will not work in the military side because they want no part of that business.

- Government employee have only civil rights and privileges on the job, no other rights - what???? Last time I checked I was still an American citizen, with a birth certificate and a passport. I have the SAME rights as you.

Look at this table below. Off the job you are the same as I, but on the job you have a much higher standard since you are on the public tax dole.

You are obligated on the job to protect my natural and unalienable rights NOT take them away. What you do off the job is your own business but on the job your business is to protect the natural born. Check out the web page on Natural Law and Natural Rights and the page on Unalienable Rights on my site.

Here is one example applicable to federal employees. The source of this information "The Federal Zone" has come out the work of Paul Mitchell whose work has become legendary even in the high courts. His work and this chart apply to the federal government. There are at least two more like three layers of citizens and "governments".

	Citizen of the 'United States'	Alien
Resident	A resident federal citizen living in the Federal Zone - e.g. a federal employee living in D.C. or anyone of the U.S. territories or on a military base	Resident alien living in a Federal Zone - e.g. non federal state Citizen living on a military base, D.C. or anyone of the U.S. territories
Nonresident	A federal citizen living in a non Federal Zone - e.g. a federal employee living in a sovereign state	A natural born free & sovereign state Citizen living in one of the several sovereign states

<http://www.supremelaw.org/>

You still haven't answered the question of how a civilized society functions without taxes.

There are places I know that fit your description:

**Jack**

Allyson this is the second and maybe third time I have answered this question. You appear to be stuck and not understanding what I am trying to say. Also please study my site, especially the natural law and unalienable rights pages and the tax page. Taxes are NOT a sign of a civilized society, they are a sign the society is repressive and oppressive because government are like sharks and become predatory with any allowance of taxation.

Legitimate government taxes are more than enough.

**DIRECT TAXES ARE NOT NECESSARY** nor are they legitimate. The founding laws, the natural laws, God's laws give you birth rights as a natural born state Citizen. These unalienable rights CANNOT be taxed or taken by anyone and certainly not by a so called free Constitutional Republic government. The high court have reconfirmed this, as if it needs to be.

- You have a right to die and Death taxes are fraudulent, i.e. your death cannot be taxed
- You have a right to work and your wages cannot be taxed
- You have a right to be warm and dry and your home cannot be taxed
- You have a right to travel and your vehicles cannot be taxed
- You have a right to own private property and private property cannot be taxed even it is apportioned
- Christian based, free Constitutional Republic Governments cannot steal or take what God has forbidden
- Constitutional Republic governments are subordinated to God and God's people in America

Government's become tyrannical not because of too little tax revenue but because of too much. Government's in a free society are foreign bodies that only have legitimate authority and jurisdiction over the administration within their very limited boundaries. When governments trespass into the private property and lives of their own natural born state citizens, this is fascism, communism, Marxism, et al.

The natural born state Citizen in America is a free agent and a nonresident alien to the government, see chart above.

I did answer your question the first time. I will restate, also check this link, "Legitimate vs Illegitimate Sources of Government Revenue"

- <http://www.freedomforallseasons.org/Tax%20Freedom%20Email/Legitimate%20vs%20Illegitimate%20Sources%20of%20Government%20Revenue.htm>
- **The ONLY LEGITIMATE sources of government revenue which are more than sufficient are -**

1. uniform indirect taxes,
  2. customs/duties/imposts
  3. sale and lease of state natural resources
  4. the authority to print money
- All other forms of taxation go against the founding intentions and the "Laws of Nature and Natures God"
  - This is more than enough and in fact too dam much power for any corrupt artificial body
  - Taxes kill free people and free nations along with usurious interest and needless wars
  - In fact I would add one major restriction to the U.S. Constitution, Government cannot go into debt
    - Never for any reason
    - Never for any "temporary" period of time

These are all the taxes that are necessary in a free society. The natural born state Citizens are not obligated nor can they be legitimately forced to pay any taxes otherwise you the society is NOT a Constitutional Republic.

You are advocating a communist form of government, just check out the 10 planks of the Communist Manifesto. This is what we have in America now.

Allyson

- No taxes

**I did not say NO taxes I said Only legitimate sources of revenue. See above definition.**

- **Just the legitimate act of printing a VALUE BASED CURRENCY IS AN ENORMOUS SOURCE OF FUNDING that is enough in itself**
- **let alone the other uniform indirect taxes NOT till taxes**
- **as well as the sale and lease of the natural resources on state lands.**
- **This is enough revenue for any limited government**
- **When a government mismanages its funding ..**
- **It quickly goes into debt**
- **which leads to further illegitimate confiscation of private and public property**
- **which is the beginning of the end of a free society**

-No police (only neighborhood community watch groups ...and you pay fee for service)

**A free Militia is the only Constitutional form of defense. The current forms of government "enforcement" do not protect freedom or liberty. The disappearance of a voluntary militia has lead to a police state and standing armies which is unconstitutional. Government enforcement do not have a stake in protecting free people because they are under the command of a city, county, state or federal executive. IN fact the current police state and military state is what has taken all our freedom and liberties**

away.

- No public education

Again only legitimate sources of revenue can be used in a Constitutional Republic and there is no provision for a state funded public education system. A limited constitutional republic government is not a public charity nor a church nor a school. That is a private sector function. If there are adequate LEGITIMATE government funding sources that can be use that is permissible.

You cannot justify stealing private property or wages for any reason however tempting it is to you. Once you breach a natural born state Citizens natural rights, you are on a slippery slope to Fascism which is exactly where America is today.

- No road or infrastructure

The transportation system is funded by only legitimate forms of taxes, i.e. uniform indirect on fuel or from the above list of LEGITIMATE government sources of revenue.

- No emergency services

Again, emergency service are not a constitutional requirement nor can they be legitimately overlaid upon the natural born state Citizens. These service are optional and can only be funded by the legitimate sources of government revenue. This nation has long existed without "emergency services. You cannot force people to pay direct taxes for any services outside of the above legitimate funding sources. Direct taxes go against the intentions of the Founding Fathers and the Laws of Nature and Nature's God. Heritage areas, emergency services, police, sewer, water, cetera are all progressive & unnecessary takings upon the private property that this nation never had nor considered "emergency nor necessary not so long ago.

These "services" are inventions for the most part of urban elite's to justify their careers and empires once the constitutional and natural laws were perverted allowing government tyranny to flood over our private and public property destroying our traditions and independence.

-No corporations!!!! Just small trade....

I did not say no corporations, I said they are artificial legal fiction organizations with NO rights just as government has NO rights but only very limited enumerated privileges.

- No taxes ..only small payments to local officials.

Again I did not say NO Taxes, I said ONLY LEGITIMATE VOLUNTARY TAXES, see definition above

That place is called Afghanistan. There are former countries of the USSR that have a similar no tax/style of living structure. You could also try New Guinea.

**These countries are what we will become if you continue to think like you do. What do you think that the Boston Tea Party was all about? The British tea tax is an excellent background on why there are massive demonstrations in America about the illegitimacy of the tax systems.**

You are correct in that you will not change my mind. But I think our country is the BEST place in the world to live no matter how much you don't like it. You would never have the retirement or your ranch or your ability to send the kinds of e-mails that you do in any other nation in the world. That is what makes our country so wonderful. I am a patriot of our nation. You should consider all the amazing things that you have achieved because you are an American. You should uphold our values and our Democratic system. I have always thought that being born in the US is like winning the lottery. We are the luckiest people (regardless of taxation and unnecessary wars) in the world. Our standard of living is incomparable.

All my best

Allyson

**If you cannot imagine how oppressive it is in America, then ask yourself how much more free and prosperous we could all be without the tyranny of forced and totally unnecessary takings of forced taxes, usurious interest, over regulation of our private & public property, and the dilution of our titles to make us the equivalent of indentured servants.**

**All of these forced takings have happen because few people have not the imagination to understand what true freedom means while they fear setting themselves and others completely free. I "should" not be bound into or by any government or non government perpetrated contracts that I never personally agreed too. In a Constitutional Republic you cannot have any of your God given rights represented or misrepresented away by the CON.gress or CO..urts or Executives.**

**We DO NOT HAVE A "DEMOCRATIC SYSTEM" ALLYSON, WE HAVE A CONSTITUTIONAL REPUBLIC. There is a huge difference. A "democracy" takes away your rights with politically orchestrated "majorities" and special interests. A Constitutional Republic cannot do this. Study the table above AGAIN and see the stark difference between the two. A "democracy" controls its free people by elite power. A Constitutional Republic protects the independence of the several states and the sovereignty and freedom of its natural born citizens.**

**Your statements of relative prosperity and luck are NOT because of government but despite it. Everything is controlled and oppressed in America. If you cannot see this or believe it or find the time to research it yourself, this does not deny the facts. Apathy and ignorance reign in America because the system has intentionally bred out freedom and liberty and competition and our private property and the free use of our public property over the last 233++ years.**

Dear Allyson -

A fellow rural property owner friend frequently warns me it is useless to engage those who have made up their minds with this clever cliché

- "**A man (or mam) convinced against his will, is of the same opinion still**".

However, I am going to take the high road here. You are at least a open government employee willing to engage is a discussion which is rare.

Thank you for being curious and asking. I hope you don't mind that I send this out to my email list as all of us can hopefully gain some history which your questions prompted. I removed your contact information. We all learn more when good questions are asked.

I apologize up from for the length. The good news is you only have to spend 5 minutes to get the drift, I had to spend 5 years and counting and that was on the backs of others in the freedom movement who have spent a lifetime uncovering the ball of lies that have been created by the dark side.

*The problem is NOT that the government has too little funds, it is:*

- *because it has too much,*
- *too much power,*
- *too much taxes,*
- *too much confiscation's - including heritage takings*
- *too much unaccountable funds.*
- *too many wars abroad*
- *too many wars and takings against its own kind*

*Government does not have to pay the central bankers interest on freely printed money, no one has to pay usurious interest on free money including the government. Why do they drive us all into debt and bankrupt us out of our own homes and land and country? Its all because of the fraudulent banking, monetary, legal, legislative and executive model.*

**This could be changed over night and we all would be free**

- **America would return to being a leading model of freedom and liberty in the world.**

The US Constitution is the "official" "corporate bylaws" of the union of the several states and the individual states. The individual state constitutions are subordinate to it & must be in compliance. Lets just put aside that the fact that the US Constitution was NOT legitimately voted on by the some 3 million colonists nor their individual state legislatures for now.

- I linked you up below re. the Shenanigans of the Constitutional Conventions, read it please
- Also read the works of Lysander Spooner here <http://www.lysanderspooner.org/>
  - He was way ahead of this time back in 1793.

The majority of the Commonwealths and Republics despised taxes because they had been suffering from it and revolted from the tyranny of the British taxes and King George, et al. It makes no sense that the Americans once they freed themselves from these oppressive forms of taxes would turn around and lay out a charter to legitimize again the tax takings they revolted from. But the Federalists did exactly that.

The Articles of Confederation and the Declaration of Independence are really the only two legitimate standing government charters of the land. That is aside from the Laws of Nature and Nature's God.

- Check out the heritage of the U.S. Constitution here since you are into heritage
- <http://www.freedomforallseasons.org/ConstitutionThatNeverWas.dwt.asp>

There is nothing in the US Constitution that requires the natural born state Citizens to support

an infrastructure such as "education, roads, emergency rooms, fire, police, bus service." See Attached Congress Has Power To.

These services MAY BE funded from only the legitimate sources of revenue for government

- see above "Congress Has Power to
- and/or by private funding
- There is more than enough in the legitimate sources to do this.
- The hard truth is that the crooks in CON..gress, teachers unions, central bankers, bench, Bar have bankrupted the country long ago
- Along with half the country who think it is the government job to redistribute the private wealth
- All while bankrupting a once solvent nation

*"A government on the principles on which constitutional governments arising out of society are established, cannot have the right of altering itself. If it had, it would be arbitrary. It might make itself what it pleased; and wherever such a right is set up, it shows there is no constitution.." Rights of Man, Thomas Paine, pg. 73.*

The founding intent was to amend the Articles of Confederation to control Commerce ONLY with a 5% tax on imports/customs.

**Complete anarchy is not a viable alternative for anyone..certainly not our children. Ironically, it is taxes that pay for government contracts with Boeing...that helped pay your salary for 30 years and now pays for your retirement. Boeing is heavily dependent on government contracts (i.e. our tax dollars) for at least half of their business lines. As you must know, they receive at least half their business from the Dept. of Defense, who gets all their money from us. So the retirement that you are receiving while on your ranch is from public tax dollars.**

### Jack's Reply

We are in anarchy already, we have no legitimate Constitutional Republic form of government. The current fascist system is only held together by a police state gone insane

- We are a nation enslaved and indentured by an unnecessary fraudulent tax system,
- an unconstitutional and worthless debased monetary system which imposes a hidden tax on all Americans called "inflation,
- a nation that wars on anything that does not comply with its definition of "freedom" while it enslaves itself and its people
- a monetary system of debt that is treasonous
- a banking system that thinks usury and interest are synonymous
- a media that is owned by only 5 corporations who are in turned manipulated by the national and global elite power centers
- an entertainment "industry" that does more to destroy the people than entertain them
- an education system that has become a state propaganda training camp
- an illegitimate and unnecessary diluted property titles

- whereby we can be easily convicted, evicted, trespassed upon
- and have all our unalienable God given birthrights taken in a New York minute.
- It happens every hour of the day.
- Please go here and read all the horror stories of property owners who have been raped by the system.
  - <http://www.freedomforallseasons.org/EmbattledPropertyOwnerStoriesNew.dwt.asp>

Regarding The Boeing Company.

- I worked for the The Boeing Commercial Airplane Company and Boeing Computer Services when they were separate during my 30 year career.
- BCAC profit margin on the manufacturing and sale of commercial airplanes was a very marginal business.
- Their profit margin was around 2%.
- They were driven out of this collectivist state by the socialist who are still running it into the ground today.
- The Boeing Company has been outsourcing its business for decades
- and will ultimately leave Washington totally just like they did in 2001 when they relocated their headquarters.
- Boeing got sick of being raped too by the fascist "government and got smart.
- They bid their business out to Denver, Dallas and Chicago and got the best deal in Chicago
- [http://www.boeing.com/news/releases/2001/q2/news\\_release\\_010510a.html](http://www.boeing.com/news/releases/2001/q2/news_release_010510a.html)
- Boeing employees working in the aerospace and military subsidiaries of The Boeing Company are not government employees.
- They are the equivalent of independent contractors
- They have rights and much more risks than government employees.
- Government employee have only civil rights and privileges on the job, no other rights

My pension comes from my contributions plus The Boeing Commercial Airplane Company private sector contributions to the retirement plan over 30 years. I was not employed by any military or aerospace company of Boeing. There are at least a dozen subsidiaries of The Boeing Company many of whom do business with the government. They are certainly more profitable because of the corruption and the nature of the beast of government. If the company is funded by LEGITIMATE SOURCES OF REVENUE AS DEFINED ABOVE, and live within that budget, the nation will prosper. If they don't, the nation will collapse into wars and debt and revolution and this is exactly where we are heading.

Jack's Reply

"We are a Constitutional Republic madam, if you can keep it, is the answer Ben Franklin gave to a women asking "what do we have.." when he hobbled out of the Philadelphia "Constitutional Convention".

- America has become a global elite fascist system by this corruption
- Sovereign states and sovereign and free state Citizens are the last thing any controlling "isms" want
- I am upset because I am an indentured slave to these greedy treasonous crooks who refuse to support themselves by legitimate enterprises vs. sucking the life force out of free and independent nations, states and free people.
- The dark side hates freedom and breaks independence by creating debt and dependency
- There is NO reason why Americans could NOT be completely free of all direct taxes, usurious interest and diluted titles and ALL the legal fiction acts, ordinances, licenses, permits, fees, regulations, ad nausea to answer your question - "**Why get upset about it?**"

This is a very simple table below but most do not get it.

- YOU are now in column 1 and at the bottom.
- ***You are suppose to be in column 2 at the top***
- i.e. you and God are one and number one.
- Got it.
- There is a huge difference, like life and death
- The globalist's wants you to believe you are number 7
- All while you are number 1 by your very birthrights in American as a natural born.
- When you are born here, the government charters and the political brokers all took an oath they would honor to protect these God given unalienable birthrights.
- BUT THEY NEVER DID
- FUTHERMORE THEY HAVE BEEN SYSTEMATICALLY TAKING DOWN OUR SOVEREIGNTY EVER SINCE

**Your birthrights were NOT given to you by any artificial entity.**

**Artificial bodies have no legitimate power over the natural born.**

**NOR CAN THEY LEGITIMATELY CREATE ADHESION CONTRACTS TO BIND YOU TO THEIR WEB OF LIES.**

- No artificial governing body HAVE POWER OVER THE NATURAL BORN
- No artificial corporation HAVE POWER OVER THE NATURAL BORN
- No artificial legal fiction associations HAVE POWER OVER THE NATURAL BORN
- No church's or synagogs HAVE POWER OVER THE NATURAL BORN
- No illegal alien HAVE POWER OVER THE NATURAL BORN
- No foreign nation HAVE POWER OVER THE NATURAL BORN
- No corrupt CO..urt HAVE POWER OVER THE NATURAL BORN
- NO corrupt CON..gress HAVE POWER OVER THE NATURAL BORN
- NO corrupt Executives HAVE POWER OVER THE NATURAL BORN

All of these groups above are artificial and have NO power over you as a natural born state Citizen

- This is what a true Constitutional Republic is all about.
- The founding intentions MAY have been well placed
  - but they were immediately entangled, as in before the ink was on the paper by foreign & domestic special interests
- This was an experiment and it failed miserably
- In fact we are more enslaved than ever
- We are rich slaves chained to every imaginable legal fiction the crooks can cook up
- We have a higher standard of living despite the crooks in office, the central bankers, et al.
- **Can you imagine how free and independent and wealthy we all would be without the takings**

**Shareholders and most employees of private corporations are not directly responsible for the acts of the company as the whole.**

- The corporate veil has been increasingly breached over recent history to hold the board liable.
- Though the artificial corporate paper structure was specifically invented to protect the board, this has increasingly failed
- An American natural born is NOT a shareholder or an employee of the government municipal corporations.
- *The natural born non government state Citizen is the epitome of sovereignty and a free agent.*
- Just as a bankrupted corporation cannot hold its shareholders and employees libel...
- An artificial national, state, county or city government body cannot hold its citizens libel to any of the debt or costs
- Those board members, executives and politicians who take an oath of office are totally responsible and liable for the action of the whole

Hopefully this example above further clarifies the divine position the natural born are in shown below.

- We the natural born non government people are truly kings and queens under God, one nation indivisible
- The natural born and their independent states are foreign bodies to the union of the states
- The natural born state Citizens are free agents who only report to God, if they freely choose to do so
- The governments, unions of the government and all those who are using the government have enslaved your God given power

Priority	Majority Rule Democracy	Constitutional Republic
1	Global Elite	Creator
2	Majority	Individual
3	Government	Constitution
4	Public Servants	Government
5	Case & Statute Law	Public Servants

Same answer above applies here -

- There is NO reason why Americans could NOT be completely free of all direct taxes, usurious interest and diluted titles
- There is NO reason why we must not be free of ALL legal fiction acts, ordinances, licenses, permits, fees, regulations, codes
- Free people in a free society are NOT obligated by others desires, fears and representations of keeping us safe from ourselves
  - You cannot be forced into or represented into or coercion into, a binding adhesion contract
  - When you are forced into taxes of any kind, there is no free choice, THIS IS FRAUD
  - And certainly no free person is obligated by the crooks in government or nongovernment who have bankrupted the country
  - Free people are not employees or share holders to these municipal corporations
    - EXCEPT FOR THE GOVERNMENT EMPLOYEES THEMSELVES
  - The several states are foreign bodies to the union
  - It is alleged that the independence of the several states have been bound up be the federal contracts
  - However all the states have to do is refuse the funding(i.e. debt) to break these contracts and throw off the union of the states
  - The states cannot be bound by their own organization,
    - i.e. the states are "sovereign, independent and foreign to the union
  - The natural born state Citizens cannot be bound by force by the union or the states
  - If they could, like we currently are, we would NOT be free by definition
- One small example of how commercial law is overlaid upon the natural born, e.g. re. "freedom from what"
  - Drivers licenses and plates are only legitimate for commercial drivers and vehicles.
  - One of our many rights is the right to travel unrestricted.
  - Speed limits are only legitimate for commercial vehicle travel

- You cannot restrict travel or create crime codes before a real crime happens
- This is the same nonsense the urban globalist are playing with all our other rights
- Once again the corporate state has cast its sticky web over the natural born that can only be applied to commerce
- There is absolutely no founding laws of the land that require any restriction on our God given birthrights
- The crooked corporate state does it to generate revenue and power for themselves
- They do this under the same Ole cookie cutter taking tool of semantic swindling codes, e.g. "safety", "security"
- They create the crimes in the codes before the crime, charge you for it and restrict you freedom so you don't hurt yourself or anyone
- They do this on some 60++ unalienable rights including marriage
- THIS IS ALL CRIMINAL AND FRAUDULENT AND GOES AGAINST THE FOUNDING AND NATURAL LAWS
- Direct taxes, force indirect till taxes and forced excise taxes like the Washington home sales excise taxes are unconstitutional.
  - Indirect taxes have to be eaten by the corporations and passed through in competitive prices where we freely choose what to buy
  - There are NO constitutional direct taxes in America because none of them are apportioned
  - Nor could there ever be even then because the several states were against the direct tax
  - And they numerous restrictions on the direct tax which never got into the current US Constitution of course
  - The Constitution is an agreement among the several states NOT the natural born
- Even the over controlling English Common Law never went as far as the insanity of American judicial bar associations legal fiction
  - and its debased CONgress, CO..urts and Executioners.
- Freedom for usury is another answer to your "freedom from what"
- Freedom to allodial rights ownership of our homes and land where we have the true rights of the kings and queens we are, i.e. no crooked banker, government PA or treasury or lien will take our homestead and throw us into the street.
- Once you open your eyes (third eye) to the hard truth of what has happen in America and the world,
  - you will see the predatory nature of the system
  - which has stalked us purposely, ruthlessly and needlessly from womb to tomb and beyond generation after generation.
- The cities, counties, state and union of the states and the UN are puppets to the grand master puppeteers

Jack's Reply

Taxes are NOT a basis of "civilized society", in fact it is the other way around.

- Advanced societies and enlighten people do NOT have any government.
- Government & taxes are prehistoric, debased, feudal, barbaric & regressive forms of takings
  - perpetrated by the brokers living off the sufferings of others.
- It is much more profitable for these Brokers to create artificial corporate, government and legal fiction
  - whereby they entrain the masses to believe they will have anarchy without their chains

The dark side are able to bend the minds and consciousness of the weak minds (mine included 5 years ago)

- and convince them there will be anarchy unless they submit to the takings.
- The takings are staged by stampeding the people into fear using anything that works, e.g.
  - war, disease, enabling dependency upon the system, creating legal fictions that are treated as a actual committed crime before it happens, orchestrating nation wide climate myths, alternative energy myths, pandemic myths, on and on.
  - This is all done for profit and power.
  - The people are sheeple and lemmings
  - Some of us figure the number may be as high as 92%,
- Even if all of these myths were true -
  - More people suffer by these orchestrations of the corporate state perpetuation than otherwise
  - The big money does not care about your freedom, if they did you would be free
  - The super rich own and control the world
  - That's the way it is and it will not change until we free ourselves from them
  - First the TRUTH, then the SPIRIT, then the Body
  - The 2nd American Revolution started very roughly in 1987
  - Few people understand until "their ox has been gored"
  - That's when I started to wake up

Finally my retirement comes from my work and investments and what I created in my life.

- Retirement does not come from the government.
- NOR does any other right God gave you
- Whether YOU choose to Live or Die is your free choice NOT the government, despite what they like you to believe
- Their is no mandate to provide for your care from the government
- In fact, the history of government proves they are more in the business of killing you and I than otherwise

### Jack's Reply

I defer to Scott Shock and Tom DeWeese's warnings. Just the fact that these people are engaging government is a red flag. The down stream collateral impact on these "heritage" area designations are destructive beyond imagination. It is the nose of the camel under the tent. Before too long you will see the head of the camel in the tent, then the neck, then the torso, then the body. Wilderness designations, parks, government legal semantic swindling labels of any kind are not to be trusted. These are just silent takings that grow into a cancer. This is how complete freedom and liberty in America have been taken down one generation after another.

The Boeing Company has one foot in the public pig trough, that is true, and the other is in the commercial business.

Government AND those who take from the government, have a much higher standard of accountability and transparency.

The government and its puppeteers have gone to far, taken too much and need to be put to sleep before the public and private land owners do it for them and/or are systemically euthanized for the good of the whole and the heritage of this nation.

A tyrannical government of any kind has no standing in a totally free society. The first experiment and immediate failure of a "free" "Constitutional Republic" proves this. Government is upside down and backwards on everything they touch.

Allyson -

The problem is NOT that the government has too little funds it is because it has too much, i.e. too much power, too much taxes, too much confiscation's, too much unaccountable funds. Government does not have to pay the central bankers interest on freely printed money, no one has to pay usurious interest on free money, all property titles should be allodial not fee simple, ad nauseam.

The tax system in America on the natural born goes against all the laws of the land and "The Laws of Nature and Nature God". I have been researching this for 5 years and you can find my work and others here <http://www.freedomforallseasons.org/FreedomFromTaxesNew.dwt.asp>

"Income taxes are unconstitutional and the 16th Amendment was never fully ratified by the then 48 states but the illegitimately rammed it through and then it was only suppose to be for profit and gain NOT wages. Wages are private property and cannot be taxed as they are a right. Property taxes have been declared unconstitutional by at least 3 high state courts because they are not apportioned by every man, woman and child as the US Constitution declares. The state and the teachers union ignore the law. The sales tax is an excise tax and cannot be placed directly upon the natural born via a till tax. The home sales tax in Washington is an excise tax and cannot be placed upon the natural born, only on corporations.

There are no apportioned direct taxes in America as the constitution defines, i.e. no direct taxes upon the natural born are apportioned. And even then they were to only be applied during extraordinary crisis for short periods of time and not to exceed 2% and to be voluntary.

The current system is a massive embezzlement of our rights and has NO relation to a Constitutional Republic. The cities, counties, states and federal governments are municipal corporations who are cross boarded with large national and international corporations and run by elite global groups such as the Council of Foreign Relations, Bilderbergers and Trilateral's. They select the significant candidates and the people think they have a choice on who they are voting for.

Obama and McCain are not natural born and do not qualify to run. The One World Government people did not care who "won" because they selected them both. This is typical how all the races are run. The parties are only the puppets.

I just slammed together so don't look for spelling and grammar, it's 1:18 and past bed time here on the ranch. Maybe forward this to your husband or print it off. I have been working on this research for years and have tons of data.

The existing tax system is fraudulent and is only a wealth transfer system to the central banks. Most of the taxes go to pay for interest which are totally unnecessary.

I will be releasing another web page on the central banks soon and will send it to you. It is a Ponzi scheme. Jackson tried to stop it and was successful for a short time but ultimately the central bankers perverted the monetary system and the liewyers perverted the judicial system and the globalist have perverted the executive branch. America is bankrupted several times back in 1930's and we are being collateralized for the debt.

I have turned of ALL mainstream media and the radio long ago and do my own reading and research. Coast To Coast AM (570AM) Mon thru Sat 9PM to 2AM are doing a great job covering a lot of the freedom movement news and interviews as well as their paranormal material.

Jack - Hope you are having a nice Sunday. Your e-mails created some interesting discussion in my house since my husband is a blue collar worker who feels unfairly taxed. However, my point back is that somehow we have to pay for basic services such as roads, education, fire, police, etc. We can't live in anarchy.

But...I do agree with you that large corporations and large money have affected the original concept of representative government. I think our founding fathers would be appalled by PACS, opinion centered news (such as FOX) and the obscene amounts of money poured into campaigns. We were supposed to be represented by the smartest people in our communities, not the ones who could afford the most TV commercials.

But, the non-profits who came to the state with the heritage area idea are not "tax exempt" corporations that you speak of. They are groups like the Center for Wooden Boats, Gig Harbor historical society, Tacoma's working waterfront museum. Small organizations that consist of 20-30 people, many of whom are retirees like yourself. They are working desperately to protect their local historic sites in a world that doesn't care and doesn't seem to want to help them very much. Perhaps if we in America spent more time learning our history and protecting our past, we wouldn't be in the situation we are today. Everyone would remember why we are a representative democracy and the symbols of our past history would be properly protected.

Thanks for starting an interesting debate at home. Hope the additional information is helpful.

All the best

Tax exempt corporations are the drivers and power that have corrupted government into the fascist system it is today. This is how the central bankers and the money is hidden and launder to direct the national and world affairs to their bidding. Everything they do is for a reason to herd profit and power into their corner. All private and public property in America is being confiscated by the globalist and this has been going on since and before 1776.

Jack - You are correct. I did misspell grammar and I shouldn't have counted on my spell check to pick it up. My error and I apologize.

The good news for you is that Enumclaw is outside the boundaries of the proposed heritage area. The proposed heritage area only extends 1/4 mile in from the saltwater shoreline. The concept is not being put forward by government, but by local historical societies, organizations and museums. It was these local maritime groups that requested that the state legislature and the National Park Service develop a feasibility study. The concept did not come from government but from non-profit organizations that were hoping to increase heritage tourism by promoting our wonderful maritime heritage. We have an amazing maritime heritage in WA state and this was one mechanism different groups were hoping to use to raise the visibility of our heritage.

Thank-you for the offer to reprogram my mind. I shall respectfully decline the offer.

And I am not offended by your e-mails. With all your degrees in engineering you are obviously an intelligent person. I am proud enough of my nation to live by the premise that everyone is entitled to their opinion whether or not I agree with it.

Also, I want to be clear that I do not consider myself "the boss" at all even though I work for government. I am very respectful that I work for the taxpayers. Most people would have read your e-mails and not bothered to answer, particularly on a week-end, but I am taking the time because at minimum you should know someone is listening whether or not we are in agreement.

And when I say have a nice week-end I mean it. I am not being sarcastic.

Have a nice Sunday tomorrow.

All the best

Subject: The History of Taking Down America & How

## Letters Opposing National Heritage Area are Screened

Allyson -

Sorry, I must have forgotten you work for the government, it was late when I replied. I threw out too many pieces of the puzzle of taking in America without giving you the box with the picture on top, so to speak. Once you see the big picture, you assume everyone knows where the pieces go. Let me start over. All is NOT what it appears to be or is represented or taught .

Please read the attached email's which are just a sampling of the incoming today on the state of the nation especially one positive reply. I used to be dumb as a rock about our history. It took me 5 years and I can say I have only scratched the surface of the orchestrated takings by our so called "government". Without this new perspective of American history one is completely lost, i.e. they would think you are the boss and I am the servant.

The reason my last email is "incoherent" to you is because you do not have a clue of how America has been brought down, with all due respect. You have been brainwashed and "dumbed" down by academia, your employer, the media, and the green extreme movement, just like I was 5 years ago. You live in a world of make believe and arrogance created by an illegitimate unconstitutional government including their state sponsored academia and the non government elite's that are pulling the strings. Please don't feel alone or defensive. The first step is to reprogram yourself. Try it, you may become enlighten?

Scott is a very smooth fellow and is telling you what you want to hear so you will wake up to what he and Tom DeWeese and millions of others in America are saying, i.e. American "government" and its non government sponsors have long left their 10 square miles boundary in Washington D.C. Inc. and their territories, military bases and ammo dumps. Make sure and read those other attachments by Tom DeWeese, he a Master exposing all of these illegitimate takings.

I am NOT going to tell you what you want to hear so you will submit what I am exposing. The fact you will not submit what I say the first time, makes my case, i.e. I am telling you exactly what you don't want to hear. 92% of Americans do not want to hear the hard truth, so you have lots of company. You have spent a lifetime justifying yourself, your state sponsored education and your position. This type of thinking amounts to 11 trillion dollars of debt that USA INC has got us into, i.e. needless government takings. I spent a lifetime justifying all my education and work for The Boeing Company too, but I did it on my own dime not tax extortion. I was dumb as a rock then about history. In fact I can make a strong case the rocks were much smarter than all of us and still are! At least the rocks are surviving, while watching us and freedom die.

It has taken me 5 years to connect all the dots of taking of our private and public property in America so I can understand

why you wouldn't understand in one email. Give yourself and everyone else a break. Whether I tell you what you want to hear or what you can't stand to hear, in an "incoherent" or "more coherent" fashion has little to do with the hard truth of the situation.

What I told you is clear to anyone in the property rights and freedom movement. However, it would not make any "sense" to most government types, green types and all those who live on or use the government for their own gain. The dots of taking over the last 233++ years are a very large puzzle and the few pieces I gave you are too far apart for you to connect, unless you see the big picture on the box. Again don't be offended, it is just the nature of the beast.

What I have learned over these last 5 years is posted on my site. I have had to repeat this story so many times I uploaded much of the incoming and outgoing material from many others in the freedom movement who are way ahead of the curve of taking. They are continually uncovering all of this treachery faster now than it can be buried by the crooks in and out of the fascist system we have today, you call it "government". I call it a syndicated banking racket.

And I strongly urge you to spend sometime learning our history and not be so self righteous that you think you know it all and can control what people submit whether you like the way they say it or not. I challenge you to drop all your limiting belief systems. I had too just to comprehend how much had been taken. I could not believe what I was learning nor could others. Consider this exercise, everything you know or have been taught is NOT true and everything someone tells you especially outside of the government IS true.

If you are only submitting what you want to hear on this feasibly study, one wonders, what else have you have deliberately tampered with in your career.

Let me give you the bottom line to what I have substantiated beyond any reasonable doubt. We have no legitimate government in America. It has long been bankrupted several times. It is no longer a Constitutional Republic and not even a "democracy", its more of a fascist system. The tax system is totally unconstitutional and fraudulent. Most if not all of the wars were orchestrated for profit and power. And I am an EX conservative hawk saying this. Because of what I learned, I changed my party status to a "free agent". The "government" for the most part has been incorporated into layers of cross boarded municipal corporations and multinational corporations and do not represent anybody but their own directors, central bankers, the bench, Bar, and other special interests. The fascist system is only held together by increasing tyranny, Draconian regulations, and insane debt.

It is even far worse than this brief "poorly written" letter can say. The so called "Constitutional Conventions" and the resultant "Constitution" were never approved by the people nor their Republics and Commonwealth legislatures. The Articles of Confederation which were the standing law of the land were unanimously approved by the

thirteen colonies. However, the word was sent out before the "Constitutional Conventions" that they were only going to amend the Articles NOT rewrite them. The Federalist controlled the urban centers and orchestrated enough pressure (13,000) to replace the Articles of Confederation with an all powerful central government. This was a complete surprise and went 180 degrees against those who hated big government, i.e. the majority of the colonists were faked out. A strong central government was the last thing free people wanted, after living 100 plus years under the tyranny of British, and other European monarchies, kingdoms, et al.

Thus the last article in the Constitution stating the nine states approving would be "enough", i.e. not quite enough for a majority but "enough". In other words, they could NOT initially get an unanimous approval of their plans to centralize a strong government over the very independent states but they did it anyway. The remaining states were strong armed later. Also the Bill of Rights was left out initially, the "liewyers" and others did not want the people to have any rights. It is said there were some 200 rights offered up initially, I have gathered up 60 some that you can find on my site. The Bill of Rights should have included all these in Articles, NOT just 10 amendments.

Are you getting the picture yet or is my sentence structure not quite correct for you?

In the book "The Constitution That Never Was" Ralph Boryzewski, a 92 year old Rochester New York retired policeman makes a great case, that the then American lawyers, many British trained, orchestrated the break down of the "separation of powers". They did this by infiltrating every branch and creating a centralized all powerful judiciary and ultimately progressive legal positivism that was not wanted by any self respecting colonist or free man or women. Ralph fought the New York state political corrupt machinery for 50 years in his career before he retired.

And then the central banking families from Europe took care of the rest of the spoils quickly. I'm sure you see the big picture by now.

One can say that the several million colonists at the time only traded one form of slavery and for another. The debtors prison and religious persecution which they sailed away from, were only transmuted from a very visible, cold and crude form of oppression in England AND Europe to a maniacal divisive and deceptive central union "government" of the states. And that "union" was never an unanimous union but if the hard truth were known, it was coupe by an elite few who happen to be the creditor class. I am a white middle class type, you can check out my background at the bottom of my Home page.

The so called anti Federalist, those against the orchestrated "Constitutional Conventions were right on and prophetic looking back, without question. All this is on my site.

Jackson and Hamilton fought over the central banks. However, ultimately the central bankers took over. The truth be known, the European Bankers never left. General Washington won the battle by divine intervention but we immediately lost the war. The monetary system and our base of gold and silver was quickly taken down in large part because of the orchestrated wars then of course the social engineering of the New Deal took down all of the country. Please go to my page on "Must Read..Must See" and get all this material and study it.

Back to your "celebration" of your heritage.

\* Trying to discuss the concept of a second American revolution when I am simply trying to CELEBRATE our wonderful country is baffling and has no relation to the issue at hand.

If you want to gather up some funding and friends on a strictly voluntary basis, on your own time and invite some of the tribes down to the beach and have a "celebration" and dance to our heritage, go for it. Maybe I will come down and bring my drum.

However, if you want to orchestrate some sort of national/international CONgressional state taking, i.e. "heritage areas" using more unconstitutional debt and illegitimate taxes placed on the backs of the several state natural born, that is a very bad idea. In fact, it is also a very bad idea to "stimulate" CONgress at all and they do NOT read the bills NOR do they honor their oath. They are crooks and they dishonor everyone while at the same time they authorize more debt for the very acts of treason they commit. They do all this while they collude with multinational corporations, central banks and foreign nations to take more of our private and public property with some semantic swindling name assigned to it for camouflage.

Don't you get it? The brokers always win every transaction and the natural born sovereign and free state Citizens loose loose their property, jobs, homes, vehicles, and life to the orchestration of legal fiction semantic swindling Bankers, Bench, Bar and political Brokers.

Now they won't call it that because it would be too obvious. They will call it "sustaining development", I call in sustaining death. Or they may call it, "Critical Areas" or "man caused global warming" or "alternative energy" or "heritage areas" or whatever. All of this junk "science". Most of all they are semantic swindling labels to gain funding and power over the poor wage earner or property owners. Oh and by the way they will also destroy the person and their family and their life. You don't believe me do you? Check out the facts on my site on embattled property owners page.

Glance at the attached email titled "Natl. Collective Consciousness Call ..." from We The People group that says it all.

The rising tide of resentment and discontent in America, i.e. the Second American Revolution, is as foreign to you and YOUR

"government" as it was to King George and the British during the some 100 years after they came after our freedoms again. Early Americans ran from this oppression in 1620 and they are rebelling again.

Freedom was successful when we had little "government" and we were left alone. In the following 55 years after 1620, we were becoming the envy of the power hungry European monarchies. They were always looking for more revenue, more slaves, more treasure, to war on the rest of the world. The Kings men started to arrive again in force in 1675 to tax, occupy and oppress. They and other European countries long thought the new frontier in America would be a great "heritage" area for their coffers too.

You have a title "Director of State Historic Preservation" but you cannot connect the dots of taking that your own office is involved in. You want to celebrate an event that ultimately has a history of taking private property and making more public property off-limits. This "feasibility study" has no standing and must be delayed and stopped.

\* Trying to discuss the concept of a second American revolution when I am simply trying to CELEBRATE our wonderful country is baffling and has no relation to the issue at hand. -  
 America cannot celebrate taking anyone's private or public property  
 \* The state legislature directed this agency to complete the feasibility study for the Maritime Heritage Area - JUST SAY NO

It is not what you want to "celebrate" that is the issue here, it is how the government is going about it and the complete lack of the downstream collateral impact of what is being imposed on property owners and the tax payers of the nation. All the takings are connected and are amplified downstream not unlike a small quiet slipping of snow grows into an avalanche.

Jack - Please read Scott's e-mail to below, opposing the heritage area, as part of this string of e-mails. Scott's e-mail to me was written in a coherent fashion, using clear English grammar, and relating the importance of maritime history to the possibility of a heritage area. Scott clearly stated that he valued our maritime history but was against the concept of a heritage area.

Your e-mail to me, however, is incoherent. You are rambling about government issues that do not relate to our maritime heritage and celebrating the history of our state. I appreciate the fact that you oppose the concept of a heritage area but please oppose it using clear English grammar, clear concepts, and relate your opposition to the project at hand. Scott's e-mail should be used by you as an example of how to write in a clear, concise manner that makes the point. Trying to discuss the concept of a second American revolution when I am simply trying to CELEBRATE our wonderful country is baffling and has no relation to the issue at hand.

I will include Scott's e-mail in our study but not yours as it does not relate to the concept of a heritage area but discusses other unrelated issues. Since I appreciate all different viewpoints, which is what makes our nation so great, I strongly urge you to work with Scott to write me again with your opposition that shows a command of English grammar, along with an understanding of the concepts at hand. If you write me intelligently with your opposition I will include your thoughts and concerns in the feasibility study.

By the way, I had many family members killed in death camps in Germany or shot out right by Nazis in Greece. I have family members who survived. I can tell you that death camps have nothing to do with celebrating our maritime history. You may want to review WWII history so you have an understanding of the issue you are referring to.

Please rewrite your e-mail (and ask Scott for

assistance). Again, if you send me an intelligently thought out, grammatically correct opinion in an e-mail I will certainly include your opposing views in our study.

Have a nice week-end.

Sincerely,

Also check this out <http://www.newswithviews.com/DeWeese/tom137.htm>.

Please understand that the union of the several  
states and the UN do not have authority or jurisdiction in the sovereign  
states. Just because a Congressional delegation and a global elite make  
a deal to transfer state public land and water into an international  
domain does not the Constitutional law make in America, as much as you  
and they like to think.

U.S. Congress and the Washington State House and  
Senate are more often in violation of the founding laws of the land.  
Their is no government in America as it was originally intended.  
America has long ago, been collateralized by the national and global  
central bankers.

The U.S. National Park Service , the UN and the  
US Congress is replete with examples of abutting private property owner  
tyranny.

Transferring public or private land of the several states and the union of the several states to elite national or international bodies is an act of arrogance and treason that exemplify the out of touch world, government types live in today. You are "preserving" nothing but increasing global control of our own land.

Government arrogance has long ago exceeded its authority and jurisdiction, the laws of the land and the laws of Nature and Nature's God. The NPS, UN, as well as Congress were never given authority to transfer our land, our water, our sovereignty and our recreation into the hands of elite green international globalist and their agenda. The several states, the union of the several states live in a municipal incorporated land of OZ that is NOT part of America that We the Natural Born, sovereign and free state Citizens live in.

You live in the Federal Zone and have NO rights nor have the Natural Born given you or its CON..gress the privilage to tie up their own land with green agendas. I hope you and our CON..gress soon learn to play in your own sandbox and stay out of ours. A Second American Revolution is stirring over this escalating invasion of our private and public land.

The idea that green government and its controlling non government tax exempt foundations think they can tie up all our public and private land in America and turn it into a zoo, while they herd the rest of us into urban sustaining death camps is an "Obamination". It is no wonder we have an illegal alien in the White House.

FYI, we'll have to work on our

you can submit your comments as part of the Feasibility Study here:

Dear Scott,

Thank you for taking the time to write  
me with your opinion and for contributing your thoughts in a  
professional and respectful manner (that doesn't always seem to be the  
case these days....). I will ensure that your e-mail is included in the  
study as an additional opinion on the feasibility of becoming a heritage  
area.

. Therefore, I am required by law to  
complete the study. However, the study is supposed to generate comments  
and concerns such as yours, not just supporters. Therefore, we will  
include your concerns with those of others who either support or don't  
support the concept. The feasibility study will ultimately be forwarded  
to the National Park Service who will be making the decision as to  
whether its feasible. or not, for WA to have a National Maritime  
Heritage Area. Ultimately, NPS will be looking to see whether we have  
the resources, and more importantly, whether there is local support for

the designation.

Should the NPS determine that it is feasible to be a heritage area, it will then be up to WA's Congressional delegation to pass a bill designating WA as a National Maritime Heritage Area. You should also ensure that the Congressional delegation is aware of your views.

Thank you again for contacting me. I appreciate hearing your concerns and opinions.

All the best

Dr. Allyson Brooks and Colleagues,

I can appreciate that the feasibility study <<http://www.maritimeheritage.net/resources/mha.asp>> you are leading on establishing a National Maritime Heritage Area is a well-intentioned effort to showcase our maritime heritage throughout the

state. In the recent Kitsap Sun article ([http://www.kitsapsun.com/news/2009/aug/19/national-recognition-state-gig-harbor/?story\\_detail\\_gig-harbor=1#ixzz0OkVLFcNs](http://www.kitsapsun.com/news/2009/aug/19/national-recognition-state-gig-harbor/?story_detail_gig-harbor=1#ixzz0OkVLFcNs)), you were quoted as saying that "the designation would have no imposition on private property rights" and that it "doesn't affect local control over land use". However, there will inevitably be an impact on property rights and land use, as local governments and NGOs will inevitably modify their land use decisions and actions were an NMHA present. This will certainly have a cumulative impact on property rights and the health and viability of communities over time (reference <http://www.newswithviews.com/DeWeese/tom102.htm> ). The suggestion that we will gain more tourism as a result of the NMHA is appealing, but unlikely to be significant enough to offset the impacts to property owners and communities of land use decisions that will inevitably be taken by local governments and NGOs if an NMHA were present.

As one who was raised on an antique wooden schooner for six years of my childhood, I greatly appreciate and treasure our maritime heritage. However, I strongly urge you to give up the pursuit of the NMHA. The federal designation is not necessary to achieve the tourism goals. Volunteer collaborative efforts from local preservation organizations could link together different parts of our maritime heritage by creating web-based resources, pamphlets, etc for interested tourists. That would be a much more wholesome, spirited, and cost-effective way to treasure our heritage without more federal government over-reach impacting our communities. In fact, since it appears that your agency has already facilitated a web-based network of maritime heritage resources (Maritime Heritage Network <http://www.maritimeheritage.net/> ), why do we need a national designation? Let's leave the bloated federal government out of our maritime heritage and our communities. We can have a better, happier future without it.

Best regards,

NATIONAL HERITAGE AREAS: ASSAULT ON  
PRIVATE PROPERTY

By Tom DeWeese  
January 23, 2008  
NewsWithViews.com

One of the dangerous pieces of legislation lying in wait as Congress reopens for business is the "Celebrating America's Heritage Act." The bill has already passed the House (H.R.1483) by a vote of 291-122 and now awaits action in the Senate. Why is it so dangerous?

If passed, it would create six new national Heritage Areas and increase federal funding for nine existing heritage areas by 50 percent. The bill would send over \$135 million of federal pork to special interests to be used to influence local zoning laws and help lock away private land in the name of historic preservation.

The six Heritage Areas to be created by the legislation include The Journey Through Hallowed Ground National HA, covering parts of Virginia, Maryland and Pennsylvania and West Virginia; Niagara Falls National HA in New York; Muscle Shoals National HA in Alabama; Freedom's Way National HA in Massachusetts and New Hampshire; Abraham Lincoln National HA in Illinois; and the Santa Cruz National HA in Arizona.

To understand the massive size and impact of these designations, consider the controversial "Journey Through Hallowed Ground National Heritage Area" (JTHG). JTHG is designed to cover a 175-mile corridor from Thomas Jefferson's "Monticello" in Charlottesville, Virginia to the battlefield in Gettysburg, Pennsylvania.

Sold as a way to "honor" and promote tourism to the many historic sites in the area where much of the Civil War was fought, the Heritage Area really serves as a stealth land grab. Heritage Areas are federal land use mandates with specific boundaries foisted on local communities. Those boundaries have consequences for property owners caught inside.

It must be understood the Heritage Area affects all the land in the designated area, not just recognized historic sights. The federal designation, made from congressional legislation, like H.R.1483, creating federal regulations and oversight through the National Park Service, require a form of contract between state and local governmental entities and the Secretary of the Interior. That contract is to manage the land-use of the region for preservation. That means federal control and zoning, either directly, under the terms of the "management pact" or indirectly.

Such "indirect" control is the real danger. In spite of the specific language in the bill which states property rights will be protected, the true damage to homeowners may well come from private groups, non-governmental organizations (NGOs) and

preservation agencies which receive public funds through the Park Service to implement the policies of the Heritage Area.

The funds flowing from the Park Service provide a seductive pork barrel system for private advocacy groups to enforce their vision of development of the Heritage Area. The experience with more than twenty-four such Heritage Areas now in existence nationwide clearly shows such groups will convert this money into political activism to encourage local community and county governments to pass and enforce strict zoning laws. While the tactic makes it appear that home rule is fully in force, removing blame from the federal designation, the impact is fully the fault of the Heritage Areas designation. The result being private property owner's rights are diminished and much of the local land use brought to a standstill.

Zoning and land use policies are and should be local decisions to be made by locally elected officials who are directly accountable to the citizens they represent. However, National Heritage Areas corrupt this inherently local procedure by adding federal dollars, federal oversight, and federal mandates to the mix.

Specifically, when an area is designated a National Heritage Area, the Park Service partners with environmental or historic preservation special interest groups to "restore, preserve, and manage" anything and everything that is naturally, culturally, historically, and recreationally significant to the Heritage Area. That is exactly what legislation for HR. 1143 says. This sweeping mandate ensures that every square inch of land, whether private or public is a prime target for regulation or acquisition.

But what of the promised tourism that is supposed to help local communities? Many members of Congress admit they support the concept of Heritage Areas for that very reason: jobs created by people visiting their little part of the world to see why it's so special. Is it true?

As has been stated, those boundaries have consequences - strict control over the use of the land. Certain industries may prove to be too "dirty" to satisfy environmental special interests. Eventually such existing industrial operations will find themselves regulated or taxed to a point of forcing them to leave or go out of business. Property that is locked away for preservation is no longer productive and no longer provides the community with tax dollars. Roads most assuredly will be closed (to protect the integrity of the historic area). That means land is locked away from private development, diminishing growth for the community. It also means hunting and recreational use of the land will most certainly be curtailed.

Eventually, such restrictions will take away the community's economic base. Communities with sagging economies become run-down and uninviting. Preservation zoning and lack of jobs force ordinary people to move away. Experience has shown tourism rarely materializes as promised. And it's never enough to save an area

economically.

These are the reasons why the specific language in the Heritage Area legislation designed to protect private property rights is basically meaningless to the actual outcome. While the land is not specifically locked away in the name of the federal designation, its very existence creates the pressure on local government to act. The result is the same.

It is interesting to note that proponents of Heritage Areas refuse to even consider a program to officially notify landowners of pending Heritage Area designations. When specifically asked to include such notification in their plans, they shuffle their feet, say there is no way to do it and then drop the subject. Of course the ability is there. The mailman delivers to each and every one of the homes in the designated area every day. No matter how noble a project may sound, alarm bells should go off when proponents want to enforce their vision in secret.

The fact is the Heritage Area designations are completely unnecessary. Most of the historic sites are already under the control of the National Park Service, including Thomas Jefferson's home, Manassas Battle field (Bull Run - to you Yankees) and Gettysburg Battlefield. Several other birthplaces and significant historic sights are also well preserved.

The boundaries of Gettysburg, for example, were specifically laid out by the men who fought there. Most of the land was private and donated to the park by the owners more than 125 years ago. While protecting private property and the farms across which the battle raged, they preserved the most significant parts into what today is a comprehensive memorial.

This old system of voluntary contributions and non-coerced purchases of the land is far superior to a process that uses the massive power of the federal government to rip out the roots of property owners who are simply unlucky enough to live near something that should be special and precious. Given their way, many preservationist special interest groups would set out to turn the entire nation into a museum.

In contrast, it is significant to note that today, as a coercive preservation policy is imposed in Gettysburg, the community has seen the near destruction of its once vital downtown where private businesses are being forced out. Many parts of downtown now seem rundown and void of significant businesses like clothing shops or hardware stores. Most businesses in the downtown area today are restaurants and tee shirt shops designed for the tourist industry. That's not the way for a town to build a future.

Every step of land had something from the past occur on it. But let us remember, those who fought on these fields of "hallowed ground" did so to protect our liberty, including ownership of private property. One must ask how they would react to huge

government restrictions over the land now, simply because they fought there. One can envision them again taking up arms to free it from government clutches.

Proponents of Heritage Areas are using our great love of history as an emotional sledgehammer to impose a massive federal pork barrel scheme that enriches the pockets of private advocacy groups by helping to impose draconian controls over the dreams of average American homeowners.
