Extract from Wildlife Corridors Conservation Act HR 5101 above:

"This is an organization that talks a big game about saving the environment but in truth has never lifted a finger or raised a dollar to mitigate the environmental issues they claim to care so much about.

This is an organization that bills itself, according to its mission statement [1], as a group dedicated "to protect and restore western watersheds and wildlife through public education, public policy initiatives and litigation". That last word "litigation" is the key, because in truth they are nothing

more than a group of professional plaintiffs who have filed hundreds of lawsuits against the government and individuals to accomplish their goals.

Between 2000 and 2009 they have filed 91 lawsuits and 31 appeals in

Idaho alone and hundreds more throughout the West.

And this is an organization that has been funded in part with the hard-earned tax dollars of the American people to the tune of \$1.2 million in Idaho Federal District courts alone by the abuse of the Equal Access to Justice Act (EAJA), which others have written about [2] on these pages.

The Western Watersheds Project is headquartered in that playground of the rich and famous, Sun Valley, Idaho. The organization's neighbors include Teresa Heinz Kerry and her husband John Kerry as well as Arnold Schwarzenegger."

Please note a new web page up on site re. the tyranny of the Environmental non Protection Act and the non Endangered Species Act.

Fiction always works better than fact to take & control property, people and their family businesses, especially when government and non government profit from building these green Trojan horses and rolling them into your communities. All for "your own best good" using the best available AGENDA science more debt can corrupt.

Please note updates on most pages of web site below, especially embattled property owner stories (#22 main menu), e.g. incoming from Jefferson County Washington property and business owner horror stories.

A new web site documentary will be released soon regarding the corruption of the State of Washington constitutional conventions and the several states AND how they connect to the original corrupted constitutional conventions and the rise of the police states. These findings are about as close to "unbelievable" AND true as one can find.

What is also unbelievable is how ALL our freedoms, liberties and 70 plus unalienable rights have been taken from under our noses using political, legal, environmental, monetary and tax Trojan horses. The Salem Witch Trials and the Inquisition pale to current day art of stealing you blind while they convince you and your neighbor how much you will benefit therefrom.

"Power always thinks it has a great soul and vast views beyond the comprehension of the weak, and that it is doing God's service when it is violating all his laws."
