**Andy Gause, a monetary historian was interviewed by George Noory last night on Coast To Coast AM.**

**Mr. Gause gave a brilliant interview.**

**Here is the short list of what he said last night on 570AM talk radio.**

- **Coast To Coast runs 9PM to 2AM PDT here in the Washington area.**
- **Check this link for your local stations and times. (all in standard times I believe)**
- **<http://www.coasttocoastam.com/info/wheretolisten.html>**

**Andy Gause site is <http://www.andygause.com/index.php>**

**He has been on some 1000 TV & radio appearances, check out his biography and credentials on on his site.**

**Here are high points from my notes on the interview FYI.**

- 1. Goldman Sachs is the lead bank of the American Wall Street banks.**
- 2. As an aside here not in this interview -**
  - **The Past CEO of Goldman Sachs and**
  - **the past president and CEO of The Nature Conservancy was nominated**
  - **to be the Secretary of the Treasury**
  - **Thank you Roni of [www.goodneighborlaw.com](http://www.goodneighborlaw.com) for sending out this news in part**

**ARLINGTON, VA — May 30, 2006 — Steve McCormick, president and CEO of The Nature Conservancy highlighted the leadership**

**of the out-going Nature Conservancy Board Chairman Henry M. Paulson,**

who today was nominated by President Bush to be the next Secretary of the Treasury.

**“Hank has brought leadership and strength to this this organization through critical times,” said Steve McCormick, president and CEO of The Nature Conservancy. “Hank has an unmatched passion and commitment for conservation. A tireless advocate, he has been a voice for environmental issues at the highest levels of business and government. His mark on the Conservancy is indelible, and I know he will bring his visionary global perspective to the Department of the Treasury.”**

**In addition to serving as chairman and CEO of The Goldman Sachs Group, Paulson has served as Chairman of The Nature Conservancy’s Board of Directors since January of 2004. An ardent conservationist, Paulson joined the Conservancy’s Board of Directors in October of 2001. Paulson also was a driving force behind the Conservancy’s Asia Pacific Council, an advisory board comprised of public and private sector leaders created to help promote conservation and sustainable development across the Asia-Pacific region.**

**Under Paulson’s tenure, The Nature Conservancy made significant gains in global conservation and in strengthening governance and accountability. As Chairman, he played key roles helping define the organization’s global conservation vision, expand into new geographies and enhance the organization’s partnerships with the private and public sectors.**

**3. U.S. accumulated debt is somewhere between \$14 to 40 trillion**

**4. Mr. Gause is suggesting it is better to nationalize the "Federal Reserve"**

- **which would put the private cartel out of business**
- **put the money in circulation interest free**
- **eliminate the income tax which goes in large part to pay the bankers their interest on electronic debt**

**5. Top 16 Bank Holding Companies**

## **6. Who owns the Federal Reserve Banks?**

Wednesday, 01 October 2003

**The Federal Reserve Banks are a privately owned consortium controlled by the eight major stock-holding families:**

1. The Rothschilds of England and Germany,
2. Moses Seif of Italy,
3. Lazard Freres of France,
4. the Warburgs of Germany,
5. Kuhn-Loeb of Germany,

### **6. Goldman-Sachs of the United States,**

7. Lehman Brothers of the United States, and the
8. Rockefellers of the United States.

Only three of these families are American.

- This small group decides the fates of hundreds of millions of people by their financial policies and maneuvers.
- It was Baron Meyer Amschel Bauer Rothschild, (born in 1744 and died in 1812), who said,
- "Give me control over a nation's currency and I care not who makes it's laws

**Now we can see how global agendas are launched by a handful of super elites**

**Alex Jones of [www.infowars.com](http://www.infowars.com) and [www.prisonplanet.com](http://www.prisonplanet.com) was also on Coast To Coast AM**

- **Talking about the massive flooding of disinformation via U-Tube and Google.**
- **He is saying there are thousands of people involved in propagating disinformation distorting the truth to generate the fears they need to herd the masses into believing a lie**
- **the amount of disinformation coming out of the internet and media is so voluminous that that government is now shutting it down vs. investigating it first**
- **U-Tube and Google are working personally with Alex Jones in a rare attempt to stop the distortions coming out against him and his web sites regarding global dominance and the**

taking of our individual liberty.

- He says there are roughly 50 web sites a day being created to distort information.
- The 9-11-2001 World Trade Center strike has created so much misinformation and obstruction of the truth
  - that this site was set up to act as a forum for investigation, education, accountability and reform
  - <http://www.911truth.org/>

This global central banking cartel & their mission of one world government is very real, whether whether you believe it or not

- It has been well documented by Edward Griffin in his book "The Creature From Jekyll Island" and dozens of other independent authors
- Also in Aaron Russo's famous film documentary "America - Freedom to Fascism"
- My Grandfather saw this a hundred years ago and no one would believe him
- Few people can see this truth, fewer still are unable to comprehend it even when it is explained to them.

This illusion has been created by such global financial cartels who control governments around around the world as well as...

- create fears to manipulate our thinking, education and the way we live,
- create the wars we die in
- force us into rat packed high density human zoos
- force us to park out our own land for their eastern fetishes
- force us into unconstitutional licensing of our vehicles, businesses, etc.
- force free Citizens to pay unconstitutional sales taxes, property taxes, "income taxes".
- trespass and spy upon our lives
- make us believe they can tell us what and where we smoke, drink or otherwise decide how to live
- the way we die
- they create an illusion for us to believe we are not free
- we believe the fears they create for us
- If we do not believe them or obey them -
  - they make them real by throwing us into continual cycles of depression, wars using force & tyrannical takings of our private property
- They fan the flames of taking by creating more nonsense taking legislation, judication & administration
  - under the guise of national emergencies

- green extremism
- monetary extremism
- energy extremism
- social hysteria extremism
- medical extremism
- international terror extremism
- weather extremism
- judicial extremism
- con...gressional extremism
- executive order extremism
- political party extremism
- endless "isms"
- They fund both sides of the war and kill our families and take more of our private property property
- They drive our farms, homes and land into bankruptcy
- They diminish the value of our private property with wars, printing more worthless paper, rescuing themselves from their own fraud upon the people
- Thus America arms its enemies to justify expansion of the debt and more takings upon our our rights
- Then they monetize the takings upon the blood and private property of our families for all all our future generations
- Then surprise surprise
  - THEY COME BACK AND ASK FOR MORE TO DO IT AGAIN
  - Now we know who is doing this

**These lies, disinformation, distortion create more phobias and nonsense pandering political dysfunctional groups, e.g.**

1. "man caused global warming"
2. "endangered species"
3. "critical areas"
4. "wet lands"
5. "growth management"
6. "sustaining development"
7. "direct" taxes,
8. wars
9. "Federal Reserve"
10. "Social Security"
11. "Welfare"

12. "Medicare"
13. "emergency" services
14. "Homeland Security"
15. FBI, CIA,
16. FANNIE MAE
17. FREDDIE MAC
18. ad nausea

## You name the people's guilt, phobia, ignorance, apathy and...

- this elite banking group who owns the European Union
- and is working on the North America Union will line their pockets with your short comings comings
- they control the life lines to every man, women and child in the world more or less
- this super elite group targets free minds and free thinking people all over the world
- They do the unimaginable & unthinkable
  - create a private pseudo government service organization as a fraudulent collection agency for their own private extortions upon free Americans (IRS)
  - go around strict Constitutional limitations set up to prevent this sort of plutocracy

  - they corrupted the American Constituion during the constitutional conventions in the the year 1787 -1790

## These 8 groups of elites have created a dementia like plaque upon the minds minds of free people

- Government as we know it in America is in the final stage of death
- you can smell it
- sadly our government does not know this and lives in denial - this too is systematic
- these 8 cartels & families have long been more than well aware of it
- this is a sickness not unlike the dreaded dis..ease called Alzheimer's
- whereby a once intelligent independent and beautiful person
- progressively becomes less human
- and is slowly turned into a humiliating, defecating & unstable highly dependent sick human human

- whereby they go through endless repetitive restless patterns of nonsense tasks
- whereby the plaque eats up their independence, their common sense, their intelligence, their their ability to see themselves as they truly are
- whereby basic functions of life are impossible for them
- they do not know which way to turn, which way is up or down, what to do
- whereby you watch, what was once your beautiful country being consumed from the inside inside out and/or you own Father or Mother
- I should know, my Dad and now my Mother both suffered from dementia & Alzheimer's

**Arlington, VA**—January 20, 2004—The Nature Conservancy's Board of Governors today announced that Henry M. "Hank" Paulson Jr., chairman and CEO of The Goldman Sachs Group Inc., has been unanimously elected as the new chairman of the organization's national Board of Governors.

Paulson currently serves as a member of the Board and as co-chair of the Conservancy's Asia Pacific Council. In this role, he has helped the Conservancy work with a variety of partners, from national

governments to local village councils, to protect Asia's many natural wonders.

"Conserving the diversity of plant and animal life on Earth is a mission of vital importance, and something I care deeply about," said Paulson. "I was drawn to The Nature Conservancy both because of its mission and because of its pragmatic, inclusive approach. An approach that, in my opinion, has produced an impressive record of achievements."

Commenting on Mr. Paulson's appointment, Carol Dinkins, the retiring chair, said, "Hank's love for, and commitment to, conservation is well known. That, combined with his reputation as an advocate for reform and accountability in the business community, makes him particularly well suited to the lead the organization at this time."

Carol Dinkins is stepping down for health reasons.

Paulson assumes his role at a time when the Conservancy is undergoing a comprehensive review of its organizational governance and accountability. Recently, he was a leading advocate for the creation of an independent panel, led by governance expert Ira M. Millstein, to work with him and the Board of Governors in helping develop and implement a set of recommendations that should enable the organization to achieve the highest standards of governance in the not-for-profit sector.

"All charitable organizations, including The Nature Conservancy, have a special obligation to adhere to the highest standards of integrity and transparency," said Paulson. "The Conservancy has a heritage of which it is rightfully proud. My priority as Chairman is to continue to improve the way in which organization conducts its business, while ensuring that we carry on achieving meaningful results in the field of conservation."
