Guy -

Regarding your question in your email below. Here's the deal.

Typically these "Ag" groups have been green front groups for King County wherein the political green brokers put in their choices of who they want to represent them in the green hobby "farm/Ag" community, usually more green than red or blue, if you get my drift. It works like a Laplace Transform Function we used to study whereby the Seattle/King County(well named by the way) green political brokers take more of our property and rights through a tapestry of feel good and sound good agendas that have NO basis in fundemenetal or founding laws or even facts. They create the colored laws and establish the green junk science to take whatever they want.

It is no different that what you experienced when you woke up to the takings in the King County court system with their bias toward giving the kids to the women automatically after divorce whether it made sense or not, back in the 1960's. How many knew about it, how many fought it, how many understood it until you got personally involved? Its all the same game. It's what the churches did to Jesus and to God. Jesus did NOT want his words written down because He well know how the dark side of man will corrupt anything for selfish gain. It's what the Bankers did to the colonies. It's what the hated British did with the Common Law. Its what the Bench and Bar have done to the original founding and fundamental laws of the land and the laws of Nature and God. It's what the Tax Exempt Foundations have done to separate the natural born and the states further from their sovereignty. Its what the UN is doing by creating massive fiction and myths whereby they stampede the ignorant into further illegitimate taxing, social engineering cleansing, oppression, tyranny all for the elite global power structure of the Four Brokers from

11/4/2010

Hell, Banks, Bench, Bar and Political Brokers.

One of the talk show shrinks, Dr Joy? was talking about pedophilia during the Catholic Church crisis with the sick priests. Dr. Joy(?) said she never met a pedophilic man who was NOT nice. This is the bait the use. This is NO different than reading government web sites and listening to mainstream media and subscribing to any of the public newspapers, magazines, listening to the radio, TV, being indoctrinated at your local state school system, etc. These are man made Venus Fly Traps.

I had one of the King County Council women reply to my email long ago with a simple statement that she and the council were very nice people in reply to a treatise I sent them on the takings of our rights. These people do not understand they are stealing private and public property. They take an Oath of Office but they do not understand the founding or fundamental laws. What they are taught and believe and are encouraged to do to property owners is no different than what a pedophilic person does to a child. We are a childlike in our ignorance just as a child does not understand what an adult is about to do to them. Government and non government types are at work 24 x 7 to rape property owners. They have been so successful in their propoganda that you read in part on their web sites they believe it themselves just as the pedophilic person believes he or she is justified in assaulting a child.

Just remember all of the green (monetary, environmental, energy, social, etc) takings are designed to sound good to the vast majority of the people. These are only cookies and ice cream and lollipops which they buy by stealing from you first to turn around and assault you later. 92% of the people do not have a clue they are being taken big time.

The cookie cutter process of taking throughout American history and beyond American adolescence of "civilization, is always the same with various levels of deception. The vast majority of people are lemmings and sheeple. The great depression of 1929 was orchestrated by the central banks to collapse the little banks and send the Joe Six Pack into ruin. This a rude and crude simplification to make a point. Farms, land, housing, equipment was all foreclosed when there was the least bit of debt delayed or unpaid. People do not understand the great depression was created by the oppression upon the property owners and the people of illegitimate taxes, usurious interest and the dilution of alloidal land rights or land patent title.

The King County Executive is a slave to his party and they are slaves to the

11/4/2010

green extreme and the Bar to name just a few. Ron SIMM's and his green lackeys have historically packed the commission with green extreme for another avenue for them to tell us all how to live and manage our own land and homes out in the rural areas.

The conservative party is no better and don't even get me started on that now. There is ONLY one man out of 535 US Senators and Representatives that has any sense of principle, founding and fundamental law and that is Texas Representative Dr. Ron Paul. I say this as an EX conservative hawk. Over the last 5 years since my "awakening" on the massive takings of our property and ALL our other rights I have been ramping up my research and uploading it to my site. It will take me years to upload just the key knowledge from others in the freedom movement that is pouring out.

This is all while the Dark Side is shutting down the rural areas, all the public and private land they can lay their sticky little green fingers on via unending semantic swindling names like Sustaining Development, Smart Growth, Critical Area Ordinance, wetlands, buffer areas, water tables, stream flows, endangered species act, dept of ecology, ad nauseum. These are all contrived government and non government fraud at the highest levels up through the UN and into the eastern big tax exempt foundation and central bankers, bench, bar, and the brokers of the government and ALL the political parties.

Check this site and watch the entire video <https://www.takingliberty.us/>.

There is no founding or fundamental laws that give government at any level the jurisdiction or the authority to "help" anyone. "I am from the government and I am here to help you" is a renown cliché in the freedom movement. It is an oxymoron and worse than even that. "Help" to the government and all those non government groups driving them is to help themselves NOT THE NATURAL BORN, SOVEREIGN AND FREE STATE CITIZEN. The Forest Service is a classic example of a once great government group gone bad. I am totally ashamed as the "Son of the Lone Ranger (Dad)" to see the green extremism come into public service sector and turn public servants into predators. Dad must be outraged looking down on this shit going on.

What I am telling those who listen is the following. Do not believe anything you are told by or read from the government, mainstream media, green groups, tax exempt foundations, banks, bench, bar and political brokers. The media is owned now by only 5 corporations. None of these crooks are addressing the basic problems and solutions. They are propagating the taking by continuing the

11/4/2010

same OLE fraud against the natural born. They are all criminal who have blood on their hands, literally. They have an agenda to rat pack the cities and empty out the rural acres and connect up every wilderness, park, forest, trust land, conservation area, what have you into a untouchable zoo for the eastern green fanatics and the globalist who are dictating the terms to our demise, i.e. America is bankrupt and the dark side is foreclosing our every piece of property and unalienable right they can take.

If this is all unbelievable to you and shocking, I hope you can throw caution to the wind and trust an OLE friend and colleague and fellow Montanan. I have been studying this day and night increasingly for 5 years when I accidentally ran into a rural neighbor who owns 20 acres about 2 miles east of me. I was slow to wake too and am still in shock. My health suffers from the outrage I am still feeling for all of the rural and urban property owners who are being put on the rack and stretched into "compliance" by torture daily. This is no different than the Salem Witch Trials. You can read my report on that on my site. Nothing has changed Guy under the Sun YET.

One of the green people on this King County Ag council was trying to push a policy to limit home size on rural acreage. And it had some serious backing. I and others came to one of the meetings to testify against it. The word was that one or more of the Seattle green groups came up with the idea and pushed it into the King County Council who in turn used the King County Ag Council to run up a test taking attempt. It failed but they will bring it back in a New York minute when our backs our turned or they break our backs, whichever come first.

I hope you get the drift here and remember this is ONLY the tip of the iceberg of taking.

I also owe you a reply from your email see attached, sorry for the delay. Things are going from bad to worse here. My left eye cornea is trying to decide whether it will reject again or not. If it does then that will be the 4th corneal transplant in the last 20 years, two in the last year. Mom is now totally blind in her left eye two. She is bed bound with a catheter in her because she cannot eliminate her urine. Just talked to the nurse. Mom Medicare and Blue Cross Blue Shield skilled nursing home coverage will run out April 7. I will take her back home with in home assistance when necessary. She is in end stage dementia like I said

11/4/2010

but is amazingly alert. It is a very strange disease that just takes out certain areas of the brain gradually reducing you to a "dead person breathing".

Regarding your last email on Democracy vs. a Republic and voting and "we not have a monarchy". Just because you are voting does not mean you are choosing the candidates. The act of voting itself does not make you free. The candidates are all preselected by the political mobs to give you the illusion you have a choice.

To make my point her, pretend you are a Boeing stockholder and The Boeing Company sends out a ballot in the mail and says to vote for Board Members A or B or President A or B and or Treasurer, etc. You select the candidates you know or know of, that you think will do the "best" job. The company gathers the stock holders votes and selects the winning candidate. The hard truth is, they have already predetermine who the officers of the company and narrowed YOUR selection down to a very narrow choice that will not have any major impact on the company. All big companies work this way. They do not want outsiders on their board or in their corporate offices that have not been preauthorized by the controlling interests in the company and in the industry.

Whoever you vote for, does not really matter to the insiders, because they are presenting you with only limited choices which are NO Choice, once you understand the hard truth and how this game is played. When the company upper management and/or controlling interest of the company become so poisonous they are obviously destroying the profits and dividends of the business and the interests of the stockholders there are few remedies. These remedies are long and costly and few have the resources to change what the "mafia" Godfathers decide.

This is EXACTLY WHAT IS GOING ON AT ALL LEVELS OF AMERICAN GOVERNMENT.

I hope you read my attached email of my last email on the subject.

These are two key tables I put together from others hard work.

11/4/2010

Priority	Majority Rule Democracy	Constitutional Republic
1	Global Elite	Creator
2	Majority	Individual
3	Government	Constitution
4	Public Servants	Government
5	Case & Statute Law	Public Servants
6	Corporations	Statute Law
7	Individual	Corporations

The table above shows the pecking order of a constitutional republic which we were given via the constitution. The Constitutional Conventions in the late 1780's were also rigged. The majority of the people only wanted to remain a Confederation of republics and commonwealths. At the most they only want to amend the Articles of Confederation to add a trade only function for the central limited government and to fund this limited central government with a 5% duty on imports. This is NOT what happen. You can read my piece on the Corruption of the Constitutional Convention on my site.

	Citizen of the 'United States'	Alien
Resident	A resident federal citizen living in the Federal Zone - e.g. a federal employee living in D.C. or anyone of the U.S. territories or on a military base	Resident alien living in a Federal Zone - e.g. non federal state Citizen living on a military base, D.C. or anyone of the U.S. territories
Nonresident	A federal citizen living in a non Federal Zone - e.g. a federal employee living in a sovereign state	A natural born free & sovereign state Citizen living in one of the several sovereign states

Jack

It is not totally clear to me what problem you have with this organization, the King Conservation District. I am not saying you don't or shouldn't have a problem, I just don't understand it.

If you read through their guidelines, services and past funded projects

11/4/2010

they appear to provide environmental related help to those who ASK FOR IT. This does not appear to be an organization that is trying to ram anything down anyone's throat, but rather an organization that will help you with improving the "environment" on your property if you request such help. Am I wrong? Is this some kind of regulatory agency in disguise?

This organization appears to be what I would like to see the government be, i.e. someone who will provide help to you at no cost if you WANT TO DO something that will help people in general have a better life or whatever. Now you can argue whether the 2.3 million dollars, of what I assume is the taxpayers money, is well spent on this program is well spent, this will remain a matter of opinion.

I suppose I am dreaming if I think an organization like this actually exists. I see they have openings for a executive director and staff. Somehow I doubt the pay is high. But if you really wanted to have direct everyday knowledge and control over what they are doing you could apply for the executive director job (just kidding!). What is the problem here?

> King Conservation District announces results of public election for board of supervisor position

>
>

> RENTON-Preston Drew of Carnation has been elected to a three-year term as a member of the King Conservation District (King CD) board of supervisors following a final canvassing of votes cast in the district-wide election held March 19, 2009.

>
>

11/4/2010

- > The unofficial election results will be certified by the Washington Conservation Commission at its May 21, 2009 business meeting. Once certified, Drew will be eligible to sit at the King CD board of supervisors meeting on June 8, 2009.
- >
- > The final vote tallies for elected board position #3 included Preston Drew (1,357 votes); David Mauk of Carnation (175 votes); and write-in candidate Mark Sollitto of Seattle (1,199 votes).
- >
- > The total voter turnout marked more than doubled the highest turnout numbers in the last five years of King CD elections, according the Executive Director Jeffrey Possinger.
- >
- > "These elections have been held since 1949 and the unprecedented turn-out this year is a reflection of the increased number of voting centers as well as the higher profile we have taken in recent years because of our voluntary conservation and stewardship efforts with private landowners," said Possinger.
- >
- > King CD, working with Bellevue-based election administrator Election Trust, provided 13 polling locations across the district (which includes most of King County). The election is held in accordance with Washington Revised Code RCW 89.08.
- >
- > The all-volunteer, five-member board includes three elected members and two who are appointed by the Washington State Conservation Commission. All supervisors serve three-year terms. As public officials, their responsibility is to ensure that the King CD meets its legal and public trust obligations. The board of supervisors conducts regular public meetings to oversee the district's budget and provide guidance and oversight to district staff.
- >
- > Supervisors are expected to help identify critical resource conservation needs in their district, communicate with the public and seek feedback about conservation programs from district residents.
- >
- > The King CD provides information and technical assistance programs that are available to all landowners within the district's boundaries on a voluntary, non-regulatory basis. Its hands-on, site specific, action and results oriented; and it initiates community outreach activities that include workshops, education programs, site visits, farm plans, and consultation on land, water, and wildlife management.
- >
- > As one of 47 conservation districts in the state, the King CD is a natural resources assistance agency authorized by the State of Washington and guided by the Washington State Conservation Commission. For more information on the King Conservation District, visit www.kingcd.org
