'Obama to make illegals eligible for health care' **BREAKING!**
[Upcoming immigration bill seen as 'backdoor' to bring millions into plan](#)
--WND

"The Obama administration intends to "backdoor" illegal immigrants into its proposed health-care plan by passing an immigration reform bill that would give legal status to as many as 12 million illegal immigrants currently in the U.S., charged Radio America talk-radio host Rodger Hedgecock today in Washington, D.C.

"Calling comprehensive immigration reform the Obama administration's "second act," Hedgecock said illegal immigrants initially would be excluded from the [health care plan](#) but would have access to it once comprehensive immigration reform is passed by Congress. "
