Subject: Its Nine Bells And All Is Illegitimate In America

To: All those in the illegitimate "global village" of America

If you don't get the picture yet, after reading the attached articles, print the 24 pages out at this site and read it until you do - <http://www.taroscopes.com/miscellaneous-pages/weapons.html>. This is the best high level summary I have seen in 4 years of research on the subject of the world wide exponential rise of taking of individual and national sovereignty.

What we don't know, what we don't care to know and what we don't believe is killing US. Wake up Americans and fight back before they take away your private property, your weapons, your jury nullification powers, your unalienable rights, your wages, your vehicles, your livestock, your homes, your land, your families, your public lands, your natural resources, your elections, your health remedies, your wealth, your privacy, your traditional way of life, your sovereignty, your citizenship, your God. Oh, I forgot, they already have. Nevermind, go back to sleep.

Its nine bells (PDT) and all is illegitimate in America.
