Dear Friend,

They've called out the big guns!

And their intention is to crush me, the American Policy Center (APC) and our battle to stop the UN's Agenda 21.

For years they ignored us as we tried to sound the alarm that Agenda 21 was a plan to completely transform our American form of government.

More recently they have attempted to make light of our battle, ridicule us and call us radical fringe conspiracy theorists.

But that mild tactic isn't working.

Our successful and growing campaign against Agenda 21, that has caused more than 50 American communities to end their membership in the UN's ICLEI; legislation in several states in support of private property rights; and a growing army of activists opposing Agenda 21 in nearly every city in the country – **has scared them!**

So today, they intend to stop us now – forever And they are sparing no expense – they are using everything they have to crush us.

First, they are using their power in the main-stream media to label us as a bunch of nuts who could be violent.

Who am I talking about? All the forces on the Left who are pushing the UN's Agenda 21 into nearly every community in our nation.

These include, the International Council for Local Environmental Initiatives (ICLEI); the American Planning Association (APA); the Sierra Club; and the Southern Poverty Law Center (SPLC) to name a very few.

They have massive war chests, powerful government contacts, and an agenda to transform America's government structure.

And APC is in their way! So now they are using all of their influence, power and money to stop me.

It started last December as the *Washington Post* ran a story on Anti- Agenda 21 activists in Virginia that have organized to stop Sustainable Development programs (Agenda 21) in numerous cities. The *Post* article painted these activists as extremists, using terms like “ultra conservative.” They accused us of “shouting down” officials, and “delaying” public planning meetings.

In February, a front page article in the *New York Times* carried a headline “Activists Fight Green Projects, Seeing U.N. Plot.” Again, our cause was reported to the public as being just a bunch of nuts stopping the hard work of legitimate government.

Said one news article entitled “Anatomy of a conspiracy theory,” *“it’s a really good scare story. It’s big on fear, it’s big on fiction, and it’s short on fact.”*

Planners who are busy enforcing Agenda 21 in communities across the country, are portrayed in most of the news media as just honest professionals who are trying to do their job, but are being bothered and delayed from their work by these bothersome right wing fanatics.

There is no attempt to even consider our position. We are just nuts to be pushed aside and out of the way.

These are extreme tactics by an elite who do not want you to have a say in how your property or your life is going to be affected by these policies.

While attacking me, groups like the American Planning Association are feverishly working to cover their tracks and hide their true intent. In fact, the APA is now organizing “boot camps” to train their people to counter and attack our efforts against Agenda 21.

In each of these articles, and in many more that have been published across the country, I and APC have been singled out as the leader of the anti-Agenda 21 movement.

Certainly I and APC are leaders in an effort to oppose government policy – but never have we advocated violence or civil disobedience – but that is what we are being accused of.

They intend to stop at nothing to make sure our movement is crushed.

And here is why their attacks and charges against me and APC are so dangerous.

Most recently the Southern Poverty Law Center (SPLC) has singled me out in an article entitled "Antigovernment Conspiracy Theorists Rail Against UN's Agenda 21 Program."

In another article SPLC issued about APC's Freedom Action Conference last year, it reported "Patriot Rhetoric Becomes Increasingly Violent," and it said participants at our conference were "united by rage."

I am not "anti-government." I am against a government "policy" (Agenda 21/ Sustainable Development) that I believe is BAD for our country. My opposition to this policy is no different than any opposition to policy that has ever been debated in the halls of congress, in presidential debates, or in letters to the editor.

It's simply freedom of speech – the right to speak out against issues. It's honest, open debate. But those enforcing Agenda 21 do not want open debate. They work behind the scenes, in back rooms, hiding their efforts.

But, the reason the attack by the SPLC is so dangerous is that this far- left hate group has very close ties to the federal Department of Home land Security.

The SPLC runs government-sanctioned police training programs, in which they teach law enforcement officers that groups like APC are possible domestic terrorists that need to be watched.

In 2009 the SPLC helped the Department of Homeland Security (DHS) to produce a document entitled "Right-wing Extremism..." that labeled anyone who advocates Constitutional authority is a potential domestic terrorist.

A few weeks later, with the help of the Southern Poverty Law Center, DHS issued a second report entitled "Domestic Extremism Lexicon," in which DHS said those Americans who express concerns over the economy, loss of jobs, antagonism towards the Obama Administration, anti-abortion, anti-illegal immigration, and oppose global governance – **are extremists, bordering on terrorism.**

In 2010, The SPLC specifically targeted me and the American Policy Center and our "Freedom Action Conference" we held in Valley Forge, PA in a report entitled "Patriot Rhetoric Becomes Increasingly Violent." They said we were "united by rage."

Now, the SPLC has specifically targeted my efforts against Agenda 21.

I take the SPLC involvement in the growing attacks on our anti-Agenda 21 efforts as a dire threat against me, APC and all the patriots now opposing Agenda 21 in communities across the nation.

It could lead to government-monitored tea party meetings; charges of conspiracy against the government and even arrest and jail for those of us who are speaking out in opposition to Agenda 21.

I will not stop. I will not surrender to their threats.

I'm a big boy. I can take their personal attacks. But I need to do more than be their punching bag and the brunt of their jokes. I need to punch back. I need to counter their lies to bring more Americans into our camp against Agenda 21.

I've had tremendous success wherever I can get a voice where people can hear my message. Hundreds of anti-Agenda 21 groups have sprung from my efforts. Debates against this very dangerous policy are being waged in city halls nationwide. More elected officials are now listening to us and legislation is starting to be introduced in state legislatures against Agenda 21 policy.

But now that our opponents are stepping up their efforts to stop us, now that the news media is being used to label us as dangerous extremists, all of our success could be wiped out. Worse, legal action could be taken against me, APC and others who have bravely stood up to stop Agenda 21.

I've brought a lot of people into this fight and now I have to provide them with the means to fight back. I have to counter their control of the news media. I have to reach more elected officials on the federal, state and local level to counter the influence of the SPLC.

And for that I need your help.

I have been busy creating new tools to teach activists how to fight back. I wrote to you a few weeks ago about my new "Stop Agenda 21 Action Kit." That's just a start.

I am now working with another activist to create a training seminar that will be aired over the Internet. We will teach activists across the country how to counter the lies and the attacks of the American Planning Association and ICLEI.

As I'm sure you know, I am busy speaking across the nation. Last year I was in 12 states delivering 38 talks on Agenda 21. This year, so far, I have been in 10 states delivering 17 talks, with many more to come.

In between trips I am writing articles and being interviewed on the radio and television. Already this year I have been on Fox News, Janet Parshall's radio show and on the Francis Swaggart television show, to name just a few.

And that busy, successful effort to reach the public about Agenda 21 has made me the number one target of the Agenda 21 forces.

These people we are fighting have massive war chests of money (mostly taken from your tax dollars). They have control of the news media. And they have strong ties to powerful politicians.

But you and I have the truth.

I need your help to get that truth out.

I need your financial support – now more than I ever have before.

The only thing that keeps me and APC in this battle is your generous financial support of my activities. ~~You are the reason we have achieved so much. Without you I could have done none of it.~~

There would be no articles, no interviews and no travel without you. There would be no American Policy Center and no DeWeese Report. Your donations make it possible.

Will you help me now – as I am under the most severe and dangerous attacks of my life?

Will you, today, send a contribution of at least \$25 ? It will keep me on the road. It will give me the time needed to produce more writings, attend vital meetings, and organize with leaders across the country.

In short, your financial support buys me time! So, if you can see your way clear to send as much as \$35, \$50, \$100 or even \$1,000 I will use it effectively. What ever amount, please send it today – as the attacks and the urgency to fight back is growing with each passing day.

In fact, the very best way you can help me stay in this fight is to pledge a monthly contribution of \$10, \$15 or even \$25 per month. That regular income that I can count on every single month takes much of the worry away and allows me to plan more effectively. I can't tell you how many times those monthly donations have "saved our bacon" over the past year. So to make monthly donation pledge just fill out the section on the enclosed reply form.

The American Policy Center has fought to stop Agenda 21 for nearly 20 years. I have been beating a drum beat of warning. I have sounded the alarm that Agenda 21 will destroy America's Constitutional Republic and replace it with a top-down control of government in which you have no vote on what government does.

Surely today you feel that is happening at every level of government – surely you can see that government will not listen. This is what I have been warning you about. This is what I am fighting to stop. – a government out of control - a government of tyranny.

Finally, Americans are starting to listen and to fight back. The forces of tyranny are running scared, desperate to stop me and APC. Now is the time for you and me to step up our efforts and stop THEM!

Through this long fight for American liberty, you have been a loyal supporter of APC. Please step up now to keep APC in this fight against these massive and dangerous attacks.

Together you and I can defeat them - and they know it.

For Liberty,

A handwritten signature in black ink that reads "Tom DeWeese". The signature is written in a cursive, slightly slanted style.

Tom DeWeese
President

P.S. The Left is doing everything possible to crush APC's fight against Agenda 21. But we are gaining ground as thousands of activists in hundreds of communities are taking up the fight. I desperately need your support right now to continue to lead this fight on to victory. Please help me.
