

# Urgent Appeal

## To Speaker of the House Paul Ryan

Dear Speaker Ryan:

You must stop Barack Obama's efforts to include U.S. participation in the UN's Strong Cities Network.

This program constitutes little more than the creation of a powerful global-centered police force that will militarize local police which will be trained to violate individual free speech and assembly.

Attorney General Loretta Lynch has created a new position in the Justice Department specifically to investigate Conservatives in the U.S., calling those who disagree with Obama Administration policies to be 'Right-Wing Extremists.' Coincidentally, the UN organizers of the Strong Cities Network also target what they label to be "Right Wing Extremists. "

These so-called Right Wing Extremists are defined by the Southern Poverty law Center to be any American who opposes the Obama Administration, out of control government spending, and advocates the U.S. Constitution as the law of our land! Speaker Paul, I assume that means YOU will be included in their targets.

Now, through the Justice Department's participation in the Strong Cities Network, local communities are being encouraged to target Conservatives that fit these labels. This can lead to stopping their right to free assembly, speech and travel. It will lead to the destruction of American freedom and rule of Constitutional law.

That's why it is urgent that the U.S. Congress investigate and immediately put a stop to the Obama plan to enforce the Strong Cities Network in American communities. You have promised to fix our broken Congress and took a pledge to defend our Constitution. Now is the time and this is the issue for you to honor that pledge!

So, I, the undersigned American citizen, demand that you, as Speaker of the U.S. of House of Representatives, honor your pledge and lead the Congress in stopping the Justice Department's effort to enforce the Strong Cities Network in American communities.
