Subject: King County is Rerouting Boise Creek near SR410

Jeanne & Steve -

I was hoping either one of you or both, could jerk up King County DOT until we know more.

Ed Storm, a rural neighbor of mine about 5 miles away, just told me King County DOT is rerouting Boise Creek with heavy equipment. This is a stream near SR 410 between Enumclaw, Washington and Buckley, near Ed's place. The work is going on off the Mud Mountain Rd, left before the old White River bridge as you are going toward Buckley on the King County side. Coincidentally it is near the Rails to Trails takings of his property and many others in King County.

This is another example of the criminal double standard King County exemplifies every day. They go around fining,

trespassing and spying on all the rural property owners while ignoring what they preach and doing their dirty work in secret. This destruction of Boise creek should be stopped until the adjoining property owners as well as those in the area are thoroughly involved.

King County has illegitimately shut everyone else down so we can't do anything with our property but they seem to think all their commercial codes do not apply to them. It's time to give them a taste of their own syrup of ipecac.

Here are some links to tools Stewards of the Range have developed to fight the federal government takings on the North American Union super highway.

<http://www.stewards.us/strategies/>

I will try to get over there Friday (7-17-09) to take pictures and send out to all, when Stephanie relieves me on 24 X 7 duty with Mother Venrick.

Ed Storm's contact is:

Storm, Ed (Stormy)

Personal Information:

Phone: 360-825-2035

Mobile: 253-653-3115

Thanks.
