King County Council in Session - All Property Owners Will Submit To The Following Illegitimate Semantic Swindling & Takings "Eminent Domains", "Rails to Trails", "Critical Areas", "Wetlands", "Buffers", "Endangered Species", "Growth Management", "Sustaining Development", "Smart Growth", "Zoning", "Recycling", rural park trafficking of OUR private property, taxes and other green socialized junk all clear crimes trashing our fundamental unalienable rights, natural law, common law, constitutional law, God's law.

Thanks Mark for sending this a article below. Please allow me to expand on this.

This is a classic example why we don't need county governments certainly in their present form.

The hard truth is we do not need forced direct taxes at all

- upon the natural born, sovereign state CITIZENS,
- and they are unconstitutionally applied
- and never legitimate in the first place.

The idea and act of extorting sovereign CITIZENS and property owners to force them to pay property taxes, income taxes, directly applied indirect sales taxes to supported feudal concepts such as collectivism, socialism or communism supporting group demands who cannot earn a living in the free market, e.g. teachers, is the same urban predatory expropriation debased myth as all the other takings listed above.

The dirty little central banksters & government secret is, we do not need interest rates or taxes...

- Which are Directly levied upon any natural born sovereign and free state CITIZEN
- This is a feudal concept which is highly immoral and usurious
- Jesus throw these thieves out of the temple and scourged them
- Our current tax systems are masochistic and sadistic
- Forced taxing on a free so called Constitutional Republic is a tyrannical taking negative force
 - upon our economy, our states, our property and our rights
- It is clearly against the Laws of Nature and Nature's God
- Any forced tax taking goes against nearly every unalienable birth right we have been given by God
- Forced taxing violates the rights of privacy, no trespass, self incrimination and just about all your 60+ unalienable rights
- Direct taxes, even "Constitutionally" applied was a prorata system to apportion emergency only central government costs that arose above the normal costs funded by indirect and customs, imposts revenue plus the sale and lease of state & territory natural resources.
- Today's thinking, that it is legitimate to take private property
 - by so called eminent domain and direct taxes is a fraudulent abuse of the original concepts.
- The central government may coin money and does not need to pay any interest for a sovereign power given to it by the people
 - In fact the act of extorting forced interest via taxes upon free people for

a worthless fiat federal notes is treasonous

- The act of extorting forced interest via taxes for even acceptable "fractionalized values" is treasonous
- The costs of our national precious metal reserves and the cost of wars cannot be legitimately placed on the backs of the natural born state Citizens.
- Great site worth a glance <http://www.friesian.com/notes.htm>
- Free competitive banks may offer loans for closing costs ONLY and the return of principle ONLY
 - Banksters may not compute present value of the money and charge it back to the borrower as part of the closing costs
 - Our concepts of the cost of money are legalized theft called usury
 - Do an internet search on key words such as usury, excessive interest charging, illegal excessive charging
 - <http://www.alltheinternet.com/taxis/open/alltb?q=illegal%20excessive%20charging%20>

● The sovereign states need to set themselves free

- 100 men and women of the several states should easily decide this is a Win Win venture
 - the Constitution can be amended by a 3/4 vote to allow each state to coin their own precious metal coins and redeemable certificates
 - America needs a healthy competitive free choice of system, especially for its current fraudulent system created by the banksters
 - The weights & standards of the gold and silver backed coins and certificates would be held true by the U.S. Standards Bureau.
- The several states need to declare themselves free and sovereign from the cooperative federalism borg and the UN and the globalist
- Each state needs to quickly cut all adhesion contracts with this primitive and feudal Federalist dinosaur.
- Each state needs to set all of their natural born free and sovereign state Citizens completely free from any forced tax taking
- Each state must stand sovereign & independent as well as its natural

born sovereign and free state CITIZENS

- THIS STRATEGY WILL QUICKLY BE THE DEATH KNELL OF THE COLLECTIVE NATIONAL & GLOBAL BORG

- Most if not all levels of government are municipal corporations,
 - i.e. political subdivisions of the next higher municipal corporation.
 - This means we are shareholders AND natural born sovereign and free state Citizens, viewing this positively
 - The central banksters and central government Draconian shills like to think you are their employees vs. visa versa
 - The central banksters and central government Draconian shills are brokers who "profit" from US by giving us no choice, i.e. stealing
 - i.e. these CONmen steal by force via forced taxation AND usurious compound interest when it is NOT necessary
 - Fractionalized banking with highly undercapitalized real money used to print fiat forced worthless notes combined with....
 - usurious levels of interest rates on pretend monopoly money, i.e. greater than ZERO...
 - THEN LEVIED UPON THE BACKS AND PROPERTY OF THE NATURAL BORN SOVEREIGN & FREE STATE CITIZENS IS..
 - TREASONOUS AND RACKETEERING TO NAME JUST A FEW HIGH CRIMES AGAINST THE PEOPLE

- County government need to be completely abolished
 - They are not only not needed, they are a "legalized" form of racketeering as well
 - City governments need to govern themselves ONLY within their existing limits with indirect taxes ONLY
 - Rural townships need to be formed independent of all, also without any forced tax taking

- The sovereign states may help the cities and rural townships as they can
 - through their newly found powers to coin their own legitimate money
 - through the lease and sale of their own state natural resources
 - through the legitimate LOW interest taxes upon legal fiction corporations
 - through the customs and imposts of their international borders, as applicable
 - NOT FORCED TAX TAKING OF ANY KIND CAN BE PERMITTED UNDER PENALTY OF DEATH

-
- King County can shut down NON ESSENTIAL SERVICES
 - Makes one wonder if they could do it for 10 days why not 30 days or more
 - And give us a refund
 - How about one day a week for 52 days through the year
 - for a savings of 1.5 million per day x 52 for 78 million
 - subtract out the 15 million they need
 - for balance of 63 million and cut our property taxes by 63 million

- with 803,000 housing units in king county
 - <http://quickfacts.census.gov/qfd/states/53/53033.html> it would be maybe \$100 house hold?
- There has got to be politics going on here ... rather than make the tougher decision and make some cuts .. As what need to do .. Like any good manage operation would do ..
Sims is term up next year he .. Just wants get through that .. Leave it for some one else ...
