Several local government administrations have contacted CAFR1 to discuss implementation of the TRF in their local government (City and County). Also a Candidate for governor of one of the largest states in the country may run on the platform of the TRF to eliminate all taxation in that state. CAFR1's talk at the conference will release this important information at that time and why it is now being done.

Sent FYI and be there if you can, and if you can not, if you know people from

Utah or close to it, make sure they know about this event also.

**Walter Burien - CAFR1

Pension funds pay a salary and benefits at retirement. Any local government can be restructured to meet their annual budget needs "Without" taxes. TRF (Tax Retirement Funds) paying for every City, County, State's annual budgetary needs! This now makes the people the true owners with government being the true service provider. Government has already shown that a TRF works by example set through the management of their own combined multi-trillion dollar pension funds! CAFR1 says: Make it law and make it so!
