

## **STATEMENT AGAINST THE AMERICAN CONSUMER TAX ACT**

March 27, 2011

“American” Consumer Tax Act (ACT) is a terrible idea. It is effectively a Mafia tax. The Laws of Nature and Natures God, The Declaration of Independence and the intent and success of the American Revolution freed us from **ALL direct and indirect taxes.**

See attached. An American individual pays \$740.282 billion on \$5 trillion of wages or **14.8% vs.**

Corporation Income tax of \$639.839 billion on \$15.5 trillion of revenue or **4.13%.**

**In a true and honest republic the natural born would pay NO TAX.**

Individuals pay over 3 times the tax Corporations pay. Now you want to replace the illegitimate income/wage tax of 14.8% with a national sales or consumer tax. The corporations will see to it that the sales tax is equal to or better than 14.8%.

American corporations pay no tax in reality because they pass through any tax to their consumers. In additions to this hidden tax on goods and service we already pay, you want to tax the consumer AGAIN WITH ANOTHER CONSUMER TAX.

Taxing American natural born is unnecessary because **we already pay all taxes when we purchase products or service** in the pricing of the goods and service. You are advocating a double taxation and that is if you eliminate the income tax, property tax, estate tax and a million other illegitimate taxes.

America has been bought and sold out and is not a country, it is a bankrupted corporation who pretends we are its employees. A true and honest republic protects its natural born Citizens from being raped. The American Consumer Tax act is just a different way of being raped.

You cannot minimize the act of fraud, theft, taxes by changing the entry point of the crime.

You cannot justify a direct crime by creating another crime you consider "indirect". Both are crimes against the free born. Rape is rape. Private and

public corporations including "governments" are created by the sovereign natural born Americans. **We are not indentured nor slaves.**

That all ended after the American Revolution. The dam liewyers, politicians and central banking crooks have duped us.

Why do you wish to be a slave when you are free? Why do you wish to reward heinous monetary and financial mismanagement? Why do you think a honest republic could not exist with NO taxing upon the free born? Why do you believe that changing the entry point of the crime will diminish the crime?

Please look over my shoulder (site link directly below) and learn why all taxes upon the natural born Americans are criminal and absolutely unnecessary. Taxing takes our freedoms, liberty, sovereignty and unalienable away. Taxing is voluntary in a true and honest republic. Taxing natural born state Citizens is not only unnecessary, it is the first sign of a corrupt government.

See item #4 about half way down page.

I have spent 6 years of my life researching this Ponzi scheme called taxing and "constitutional governments" and it is all bull shit. I am NOT the only one saying this.
