Scott -

This is a great work, thanks for forwarding, just printing it out now to digest later. I especially like this excerpt and will add to my next "catapult" "The State of Washington Constitution That Never Was".

Since I have shown previously in my other books, through copious government documents, both of the United States and England and History, that the common people never ratified the constitutions of any of the states, much less the United States; people still believe that they created the constitutions and are, therefore, the so-called Sovereigns. This sovereign status is claimed to be that the people can tell government what and when to do anything through their perceived notion that they have representatives and these so-called representatives are their servants. This is a myth that has been told people down through the centuries. This big lie is passed from generation to generation so much so that people of all walks of life now take it as gospel truth. This myth is what has caused much dissention among the vast majority of people and even to cause infighting amongst people called "patriots", "militia" and others of like mind.

Jack

It appears that we are all "enemies of the state" for the benefit of the banking system, based on War Powers. Read here: <http://www.atgpress.com/inform/wep029.htm>

TO: Property Rights Folks, Evergreen Freedom Foundations, Friends

Please find linked below, a new web page documenting how water is taken. This represents 7 years of incoming & outgoing email plus additional material .

Please consider this a preview for your feedback.

<http://www.freedomforallseasons.org/FreedomFromWaterTakings.asp>

Most of this material is from rural property owners fighting to save what is left of their lives, family and property. I have tried to scrub out the email and names of everyone except those of us, who I believe, have made our views more public.

If there is any material or names you wish removed before I make this material more public, please let me know over the next few days.

This material is certainly not complete. However, all of the posted material connects to the same bundle of takings which root themselves to a centralized "Brotherhood of Darkness" which poisons our minds, land, water and laws. Every week I connect to more people and takings who have experienced this directly, indirectly or both.

This material may be unbelievable to some of you. I understand that and have been there before, uncountable times. It's called a learning curve. More unbelievable, is the vast network of ALL agencies of the USA, Inc. and other countries which have systematically taken over our lives using lies and deception.

Even more unbelievable, none of this tyranny nor deception is necessary.

Catherine Austin Fitts states the hard truth below and at the new web page for your preview.

P.S.

Here is a sample of what you will see at -

<http://www.freedomforallseasons.org/FreedomFromWaterTakings.asp>

Catherine Austin Fitts

“The central banking-warfare investment model” is really a control model, through which a small group of people can control the most resources on the most profitable basis. Essentially what happens is: Central banks print money and then the military makes sure that other parties accept it and that the financial system continues to have liquidity. The question many people ask with regards to a fiat currency, which is a paper currency, is: Why would anybody take paper, which has no value? They take the paper, because it’s part of the enforcement and military supervision, if you will, of the network that is printing the money. The system has created a fantastically profitable way of controlling large populations and access to resources very cheaply.

Let’s say for a second that Mr. Global is in charge of “the central banking-warfare investment model”: Mr. Global prints money and then people take that paper and give him in essence what he needs to

buy up and control the **national resources**.

The population is dependent on his paper and then he controls all the real things. Also through the military, he can steal whatever he wants. And organized crime is a very important component as well, because it can be expansive to drop an army and to occupy a place. If he can take over a place and buy that place with the place’s own money, it’s much more efficient, and that’s where the drug business traditionally comes in. It’s basically part of a model for controlling a territory with huge resources in the cheapest way possible."

Catherine Austin Fitts

Catherine Austin Fitts is a graduate from the University of Pennsylvania (BA) and the Wharton School (MBA). At the Chinese University of Hong Kong she studied

Mandarin. She served as a managing director and member of the board of the Wall Street investment bank Dillon, Read & Co, Inc. (now part of UBS). Later, she was Assistant Secretary of Housing and Federal Housing Commissioner at the U.S. Department of Housing and Urban Development (HUD) during the presidency of George Herbert Walker Bush. As such, she was responsible for the operations of the Federal Housing Administration (FHA), the largest mortgage insurance fund of the world.

In the years afterwards, Fitts spoke publicly about the degree of fraud endemic in the federal mortgage operations, trillions missing from government agencies and the connections to drug trafficking and “black budgets.”[2] Moreover, with her mentioned expertise, she was one of the first to warn of an approaching housing bubble. Her prediction that the “strong dollar policy” would lead to a weakened federal credit is currently being proven correct.
