Subject: Why American State Citizens Cannot be Represented – Discerning Represent vs. Consent

This is the tenth presentation, over some 7 years, linked below.

- This pitch took 67 slides to wrap up the subject in a message which I hope will be at least understandable.
- Many of you will not be able to believe that the proposed solutions can be accomplished.

- However, something politically impossible does not make the process improvement impossible, indeed it begs for the improvement more.
- Truth is stranger than fiction, especially with our representatives and senators who live and work between two opposite worlds, e.g. private and public as well as fiction and reality.
- Representing tens and hundreds of thousands of state and district Citizens is an impossible position to be placed in and I say that with all due respect.
- However, anyone in their “right mind” would never submit to such a dialectic fantasy as to believe they can truly, honestly and accurately represent their fellow Citizens.
- This material is an attempt to present an idea or treatise to streamline and authenticate how a true and honest free Republic can be better represented.
- American free state Citizens cannot continue to be intimidated, bullied and misrepresented without their direct individual consent, most especially with one or two minute testimonies.
- Public federal, state and municipal governments and their serial agencies are so out of touch with the reality of the free state Citizen, it is pathetic and intentional.
- Today’s grossly inaccurate and barbaric political system of America’s so called representative government is no longer acceptable or necessary, i.e. it is laughable.
- America has long had the technology to make a quantum leap into a hyper state of representation, if you will, never before imagined.
- This “Box of Thoughts Connecting the Dots” regarding “Why American State Citizens Cannot be Represented” will hopefully awaken you to “Discerning Represent vs. Consent”.
- Let me know what you think, there is nothing worse than the sound of silence which solves nothing.
