Why Does No One Talk About This? Ever? Why?

by Jeff Praeger on Sunday, October 3, 2010 at 12:32pm

There's one subject that no one discusses. It's like the ultimate taboo. The taboo of taboos! I don't understand why no one discusses this subject because it's relevant, it's key to understanding much larger issues, and it isn't like the elephant in the living room, it's more like the elephant crammed into a small garage, or the wood shed, or a pup tent.

I'm of the opinion that a great many major events are related. Closely.

On September 11th, 2001, for the first and only time in history the US Federal Reserve in NY quietly dispensed with certain securities trading regulations. Not just any regulations but regulations that protect our National Security. Vital securities trading regulations. These regulations were dispensed with for almost 3 weeks because they presented difficulties based on computer related issues as the result of the damage in New York City.

The regulations that were temporarily dispensed with allowed securities to clear anonymously.

That means billions of dollars, 100s of billions of dollars could have been paid out by the US Federal Reserve on both real and fraudulent bonds and no one would be the wiser since we have no records for who traded or cleared their bonds on those few days. No name, no address. Individuals representing larger groups were able to clear bonds worth billions and slip away into the night.

In a highly sophisticated money laundering conspiracy involving whole governments being bought and sold, one that the Federal Reserve may have inadvertently or purposely become involved in, one that began in the 1990s and was a National Security issue from the start, billions and even trillions could have been successfully laundered between 09/11/2001 and 09/30/2001.

If you'd like to read more and investigate the overwhelming financial evidence related to 911, evidence that points a far clearer picture of what happened that day than any other evidence we have currently, evidence that describes exactly who had the means and the motive, you're welcome to use the link at the end of this essay. It provides what's normally termed in legal language as "probable cause" and people get arrested on probable cause every day.

On September 11th, 2001, 39 of 40 Office Of Naval Intelligence investigators were murdered. They were investigating national and global financial frauds of vast magnitudes. The Eldorado Task Force was involved in similar investigations.

(<http://www.ice.gov/pi/cornerstone/taskforce/eldorado.htm>)

On 911 the investigators were killed and many years worth of their evidence was completely destroyed.

ALL of these investigations were halted.

CIA, FBI and everyone else had their tasks redirected to fighting terrorism.

WHY DOESN'T ONE SINGLE 911 TRUTH WEB SITE DISCUSS THIS?

This is the core of the 911 conspiracy. You don't need to prove how they did it. Who cares. You need to prove who and why with motive and opportunity and the 911 truth movement is going about this investigation the wrong way. Why is that?

Jeff Prager Harold, thank you for the link. I haven't read it yet but I did see Cantor-Fitzgerald mentioned on the first page, so it should be right on the money. Thank you.

Jeff Prager Kristi, that's because the 911 truth movements are controlled. There's both truth and fiction in all of their various opinions and they all do one thing very well. They avoid the issues I've raised here.

Chris Zeitgeist @Phoenix, Stop living in FEAR and use their weapon(Facebook) that spies on people and censors and coverups things about 9/11. Use Their own weapon Against them and Expose the Truth, trust me, too many people know already and these people are scared! Why do you think they are trying to shut down the net?! I have around 2000k friends that are all AWAKE and alot of them are Exposing the Truth too..... so do the math... I have been exposing these Zionist Bankers for over 3 years.

Jeff Prager I saw the video you mention Deborah, and the link above in my essay as well as the link in the very first comment above (and then click the link there for the full essay) are two of the best. There is a great deal of information on this subject Deborah. I'll head you in the right direction but a lot of it seems WAY out there. I've followed these Brady Bonds for almost 5 years and 5 years ago the claims seemed outrageous but during the past 5 years a great deal more evidence has been collected. It's always been there but putting it all in one place where it could be viewed collectively took some time. Try using Google and read whatever you can find on:

Deborah Langdon I also recall there was a good article about Morgan Stanley celebrating the day Mexico announced their currency was being downgraded. Apparently they were party to it, and explained how they flooded the market with loans, etc...would be useful to link that with the premeditated attack on the USSR currency.

Deborah Langdon yes, that story of the \$27 Million dollar man does seem to stretch the imagination.

Deborah Langdon Karl Marx was willing to kill off 20% of the population that were dissenters...so we have to make this go mainstream and get our numbers well above that figure, so tyrants will be forced to go to Plan B, which would be better and less bloody.
