I am truly sorry to have to send this out - because it is deeply disturbing !

Take a moment - just try to imagine the state of mind, which the persons who planned this were in. The persons in all four actual airliners were apparently taken somewhere and killed, and the persons unlucky enough to be in the buildings were killed. High crimes and treason were committed in broad daylight, premeditated wars were/are waged, the 'Patriot' act removed numerous rights and protections from the American people - all of this while the perpetrators sat back and watched - pleased with their success !!

They made a mistake, however, and that was to assume that their brilliance and all their resources could not be outsmarted - even by a nation of 300 million. They were wrong!
