## Twilight of the Psychopaths

by Dr. Kevin Barrett

"Our society is run by insane people for insane objectives. I think we're being run by maniacs for maniacal ends and I think I'm liable to be put away as insane for expressing that. That's what's insane about it." – John Lennon, before his murder by CIA mind-control subject Mark David Chapman

When Gandhi was asked his opinion of Western civilization he said it would be a good idea. But that oft-cited quote, is misleading, assuming as it does that *civilization* is an unmitigated blessing.

*Civilized* people, we are told, live peacefully and cooperatively with their fellows, sharing the necessary labour in order to obtain the leisure to develop arts and sciences. And while that *would* be a good idea, it is not a good description of what has been going on in the so-called advanced cultures during the past 8,000 years.

Civilization, as we know it, is largely the creation of psychopaths. All civilizations, our own included, have been based on slavery and "warfare." Incidentally, the latter term is a *euphemism* for mass murder.

The prevailing recipe for civilization is simple:

- 1) Use lies and brainwashing to create an army of controlled, systematic mass murderers;
- 2) Use that army to enslave large numbers of people (i.e. seize control of their labour power and its fruits);
- 3) Use that slave labour power to improve the brainwashing process (by using the economic surplus to employ scribes, priests, and PR men). Then go back to step one

and repeat the process.

Psychopaths have played a disproportionate role in the development of civilization, because they are hard-wired to lie, kill, injure, and generally inflict great suffering on other humans without feeling any remorse. The inventor of civilization — the first tribal chieftain who successfully brainwashed an army of controlled mass murderers— was almost certainly a genetic psychopath. Since that momentous discovery, psychopaths have enjoyed a significant advantage over non-psychopaths in the struggle for power in civilizational hierarchies — especially military hierarchies.

Military institutions are tailor-made for psychopathic killers. The 5% or so of human males who feel no remorse about killing their fellow human beings make the best soldiers. And the 95% who do not are the ones who are brainwashed into killing their fellow human beings. In other words, the military is a high-tech institution designed to exploit the psychopaths of our own species.

The true "Revolution in Military Affairs" did not move to high-tech in 2001, but Brigadier General Grossman found that only 15-20% of World War II soldiers also fired their weapons: "Those (80-85%) who did not fire did so because they were willing to risk great danger to rescue comrades (and deliver messages), but they simply would not fire the moment they were faced with repeated waves of banzai charges" (Grossman, p. 4).

Marshall's discovery and subsequent research, proved that in all previous wars, a tiny minority of soldiers — the 5% who are natural-born psychopaths, and perhaps a few temporarily-insane imitators—did almost all the killing. Normal men just went through the motions and, if at all possible, refused to take the life of an enemy soldier, even if that meant giving up their own. The implication: *Wars are ritualized mass murders by psychopaths of non-psychopaths.* (This cannot be good for humanity's genetic endowment!)

Marshall's work, brought a Copernican revolution to military science. In the past, everyone believed that the soldier willing to kill for his country was the (heroic) norm, while one who refused to fight was a (cowardly) aberration. The truth, as it turned out, was that the normative soldier hailed from the psychopathic five percent. The sane majority, would rather die than fight.

The implication, too frightening for even the likes of Marshall and Grossman to fully digest, was that the norms for soldiers' behaviour in battle had been set by psychopaths. That meant that psychopaths were in control of the military as an institution. Worse, it meant that psychopaths were in control of society's perception of military affairs. Evidently, psychopaths exercised an enormous amount of power in seemingly sane,

normal society.

How could that be? In *Political Ponerology*, Andrzej Lobaczewski explains that clinical psychopaths enjoy advantages even in non-violent competitions to climb the ranks of social hierarchies. Because they can lie without remorse (and without the telltale physiological stress that is measured by lie detector tests) psychopaths can always say whatever is necessary to get what they want. In court, for example, psychopaths can tell extreme bald-faced lies in a plausible manner, while their sane opponents are handicapped by an emotional predisposition to remain within hailing distance of the truth. Too often, the judge or jury imagine that the truth must be somewhere in the middle and then issues decisions that benefit the psychopaths too with those charged with decisions concerned to promote in corporate, military and government hierarchies inevitably become top-heavy with

So-called conspiracy theorists, some of whom use that much-abused term, often imagine that secret communists, Bilderbergers, Muslim extremists are controlling history, doing dastardly deeds, and so on. and PR specialists—in short, the whole sick crew of certifiable psychopaths running our so-called civilization. And they are running scared. It was their *terror* of losing control that they projected onto the rest of us by blowing up the Twin Towers and inciting temporary psychopathic terror-rage in the American public.

Why does the pathocracy fear it is losing control? Because it is threatened by the

Behind the scenes, the psychopaths of the pathocracy are fighting to preserve their disproportionate power. And as that power grows ever-more-threatened, the psychopaths grow ever-more-desperate. We are witnessing the apotheosis of the overworld—the criminal syndicate or overlapping set of syndicates that lurks above ordinary society and law just as the underworld lurks below it. In 9/11 and the 9/11 wars, we are seeing the final desperate power-grab or "endgame" (Alex Jones) of brutal, cunning gangs of CIA drug-runners and President-killers; money-laundering international bankers and their hit-men, economic and otherwise; corrupt military contractors and gung-ho generals; corporate predators and their political enablers; brainwashers and mind-rapists euphemistically known as psy-ops experts

spread of knowledge. The greatest fear of any psychopath is of *being found out*. As George H. W. Bush said to journalist Sarah McClendon, December 1992, "If the people knew what we had done, they would chase us down the street and lynch us." Given that Bush is reported to have participated in parties where child prostitutes were sodomized and otherwise abused, among his many other crimes, his statement to McClendon should be taken seriously.

Psychopaths go through life knowing that they are completely different from other people. They quickly learn to hide their lack of empathy, while carefully studying others' emotions so as to mimic normalcy while cold-bloodedly manipulating the normals.

Today, thanks to new information technologies, we are on the brink of unmasking the psychopaths and building a civilization of, by and for the normal human being — a civilization without war, a civilization based on the interests of the normal human being rather than the diabolical few would gravitate to. We have the knowledge necessary to diagnose psychopaths and have the knowledge necessary to remove them out of power. We have the knowledge necessary to control psychopaths especially flourish — militaries, intelligence agencies, and secret societies. We simply need to disseminate this knowledge and *use it*, as widely as possible.

Above all, we need to inform the public about the nature of psychopaths and normal human beings. One way they do this, is by using their emotions foreign to psychopaths but common to normals.

Consider how gangs and secret societies (psychopaths) recruit new members. Some criminal gangs and satanist organizations require an admission commit a murder to "earn their stripes." Some secret society that supplies the CIA with drugs and weapons, professional killers, requires neophytes to lie to the faces of older members while reciting the candidate's name. The neophyte to engage in ritualized behaviour that would be horrendously shameful in normal society, the psychopaths' guild destroys the candidate's normal personality, assuming he had one in the first place, and turns the individual into a co-opted, corrupt, degraded shadow of his former self — a manufactured psychopath or psychopath's apprentice.

This manipulation of shame has the added benefit of making psychopathic organizations effectively invisible to normal society. Despite easily available media reports, American voters in 2004 simply refused to see that the two major-party presidential candidates had lain naked in a coffin masturbating in front of older Bonesmen in order to gain admission to Skull and Bones and thus become members of the criminal underworld. Likewise, many Americans have long refused to see that hawkish elements of the underworld, operating through the CIA, had obviously been the murderers of JFK, MLK, RFK, JFK Jr., Malcolm X, ChÈ, AllendÈ, Wellstone, Lumumba, Aguilera, Diem, and countless other relatively non-psychopathic leaders. They refuse to see the continuing murders of millions of people around the world in what amounts to an American holocaust. They refuse to see the evidence that the psychopaths' guilds running America's most powerful institutions use the most horrific forms of sexualized abuse imaginable to induce multiple-personality-disorder in child victims, then use the resulting mind-control slaves as disposable drug-runners, prostitutes, Manchurian candidates, and even diplomatic envoys. And of course they refuse to see that 9/11 was a transparently obvious inside job, and that their own psychopath-dominated military-intelligence apparatus is behind almost every major terrorist outrage of recent decades.

All of this psychopathic behaviour at the top of the social hierarchy is simply too

shameful for ordinary people to see, so they avert their gaze, just as wives of husbands who are sexually abusing their children sometimes refuse to see what is happening in plain view. If deep, deep denial were a river in Egypt, American citizens' wilful blindness would be more like the Marianas Trench.

But thanks to the power of the internet, people everywhere are waking up. The only obvious non-psychopath among Republican presidential candidates, Ron Paul, also happens to be the only candidate in either party with significant grassroots support.

If "love" is embedded in the Revolution Ron Paul heralds, that is because Dr. Paul — a kindly, soft-spoken physician who has delivered more than 4,000 babies — implicitly recognizes that government is the invention and tool of psychopaths, and therefore must be strictly limited in scope and subjected to a rigorous system of checks and balances, lest the psychopath's tools, fear and hatred, replace love as the glue that binds society together.

The decline in militarism since World War II in literacy and communications technology, and better life, together represent a gathering force of alternately competing-then-cooperating gangs of lies, fear and intimidation since the dawn of s

Since nuclear weapons have made war obsolete, the favourite social control mechanism — ritualized war — is unavailable. And if war was the great human lie, at a war-substitute — the transparently phoney and sheerest farce.

Truly, we are witnessing the twilight of the psychopaths. *They succeed in pulling down the curtain of eternity, but we resist them and survive to see the dawn of a new day.* A great decision in which all of us others, however

#### **About the writer:**

Dr. Kevin Barrett, co-founder of the Muslim-Christian-Jewish Alliance for 9/11 Truth, [LINK](#), has taught English, French, Arabic, American Civilization, Humanities, African Literature, Folklore, and Islam at colleges and universities in the San Francisco Bay area, Paris, and Madison, Wisconsin. Barrett became a 9/11 truth activist in 2004 after reading David Griffin's *The New Pearl Harbor* and conducting follow-up research that convinced him Griffin had accurately summarized evidence indicating 9/11 was an inside job.

In the summer of 2006, Republican state legislators and Fox newscasters demanded that Barrett be fired from his job teaching an introductory Islam class at the University of Wisconsin-Madison, but the University refused to buckle, and Barrett got high marks from his students. He has appeared in several documentary films, lectures widely on 9/11 and hosts three radio programs on three different patriot networks.
