This will give you a visual of how central government via central banks take a perfectly beautiful country and make it worthless because of their greed.

So the political ruling class never empowers you,
but always empowers themselves to keep you powerless!

It's the same thing for the corporate ruling class, the legislative ruling class and the media ruling class. They all say you can't be trusted with responsibility for your own protection. but at the same time, they abdicate their responsibility to protect you.

They refuse to prosecute and put away the bad guys. And so the jailhouse revolving door spins:
take them in, turn them out. And it's open season on the rest of US.

Oil as Economic Warfare:

Appearing for the first three hours of Tuesday's show, business and energy journalist [Jim Norman](#) argued that the United States manipulates the price of oil as a kind of economic weapon against

countries such as Russia and China. In the futures exchange, an unlimited amount of money was used to overwhelm sellers of crude oil, as a way of running up the price, he explained. China is hurt by high oil prices much more than the United States, and has experienced reduced exports, the closing of factories, and massive unreported unemployment, he noted.

The opposite technique, the lowering of oil prices, is currently wrecking the Russian economy, Norman suggested. Russia has little besides its natural resources, and the softening of the crude market could eventually force regime change there, he said. The real reason we went to war with Iraq was because of China, Norman asserted. As sanctions were lifting in 2003, Saddam was going to cut a deal with China so they could acquire ownership of underground oil fields, and the US sought to prevent this, he said.

Quote of the Night:

"In this oil price manipulation scheme the question becomes who in the government does this...Now, there's what's called the President's Working Group on Financial Markets, the so-called Plunge Protection Team, headed by the Sec. of the Treasury, the head of the SEC, Commodities Futures Trading Commission, Federal Reserve...and on an ad hoc basis, it's also got the heads of the NYMEX, the New York Stock Exchange, the AMEX. To my way of thinking, it's this group which is really the economic warfare equivalent of the Joints Chiefs of Staff."

Quake Update:

Appearing in the last hour of the show, geologist [Jim Berkland](#) commented on the recent swarm of quakes at Yellowstone. "We should be concerned but not panicked," as such swarms aren't always meaningful, he said.

Video Fix:

A specialized use of MRI scanning has yielded images of "thought
