<http://carbon-sense.com/wp-content/uploads/2017/07/finkel-fails.pdf>

Dr Finkel, grandly titled as “Australia’s Chief Scientist”, was paid by tax payers to produce:

“A Review into the Future Security of the National Electricity Market”.

This report has been studied and is rated “FAIL”.

It Fails in Science

It Fails Electricity Consumers

It Fails Australia

But Green Energy Promotors are Delighted.

To view or print the whole newsletter plus images click:

<http://carbon-sense.com/wp-content/uploads/2017/07/finkel-fails.pdf>

Substantiation of this “FAIL” assessment can be found here in this magnificent **Open Letter by Dr Michael Crawford.**

Even Visiting Americans can see the foolish mess Australian politicians have created:

<https://townhall.com/columnists/pauldriessen/2017/07/15/insanity-and-hypocrisy-down-under-n2355240>

Australian Engineer, Bob Brock, puts it clearly: “the solution to Australia’s growing energy crisis is blindingly simple:

1. Defer until 2030 the implementation of the UN Climate Agreement.
2. Cancel all Renewable Emissions Targets (RETs) and Clean Energy Targets (CETs).
3. Cancel all Federal subsidies for Renewable Energy.
4. Advocate 99.98% availability targets for all energy suppliers to ensure reliability of supply.
5. Advocate building only traditional coal-fired power stations in the future for base load.
6. Do not support the use of gas as a base-load fuel as it is more expensive than coal.
7. Do not advocate High Efficiency Low Emission (HELE) power stations unless the economics justify their more expensive construction costs. The extra CO₂ that conventional coal-fired power stations emit is neither dirty nor a pollutant – despite advice from the Green Coalition which dominates the Labor, Liberal and Green Parties.
8. If, in the face of scientific evidence, you still want to believe that CO₂ is a problem, commit to a concurrent long term plan for developing a Nuclear Industry.

If these policies were implemented, we would not need expensive interconnecting transmission lines, or the costly, parasitic Energy Marketing Operator (States would be responsible), or PM Turnbull’s energy recycling scheme, Snowy Mk 2.0.”

The Carbon Sense Coalition

www.carbon-sense.com

Prepared by

Viv Forbes & Helpers

17 July 2017

"Carbon Sense" is an independent newsletter produced for the Carbon Sense Coalition, an Australian based organisation which opposes waste of resources, opposes pollution, opposes the baseless war on carbon fuels and promotes the rational un-subsidised use of all energy resources including wind, solar, nuclear and carbon energy.

Literary, financial or other contributions to help our cause are welcomed.

We get no government grants and unlike many of our opponents, we do not pose as a charity and in fact pay GST and income tax on our operations. We live on subscriptions alone.

For more information visit our web site at www.carbon-sense.com

If you would like to keep Carbon Sense operating, send subscriptions to Carbon Sense Pty Ltd, by post to the address below, or direct deposit to:

Acct No: 553 077 331

BSB: 334-040

Please spread "Carbon Sense" around.

Authorised by: Viv Forbes, Chairman, 1907 Ipswich-Boonah Road, Washpool Qld 4306 Australia. Phone 0754 640 533

To Unsubscribe send a reply with "Unsubscribe" in the subject line.

Please make sure we are an allowed sender ("white listed") or your spam checker will stop us and you may never know. Please let us know when you change your email address or if you have not heard from us in ages.
