P.S. 2

This is a side note of perspective on this letter to my Property Rights Friends:

1. While this revision to Montana Code Annotated 2019 attached is directed to Montana legislature please consider revising your own state election codes.
2. Then offer your changes of your state election codes up to the appropriate District or applicable committee Representative or Senator.
 - a. It is critical to find and connect with the right person who strongly relates to the reality of the magnitude of debasement of our election laws.
3. For example I found Montana's MCA 2019 attached is so out of date to be an invitation to election fraud.
4. I expect all the other 49 states to be equally if not more so out of date and hollow in the establishing fundamental election criteria.
5. Montanans were asked to send out encouragement to our Representatives to form a Special Election Committee to address election fraud in Montana.
 - a. And this is in a State where the GOP had very successful election results in 2020.
6. I have been pleasantly shocked that there has been such a large positive (86/100) response so I wanted to follow up with this letter and material attached and linked below of which many of you have seen already.
7. Please read the MCA revision attached (Word doc) at least and follow up changing your election laws ASAP to tighten them up to stop what happen in 2020.
8. Also check out P.S. 1 at the end of this letter below my sign off, it may give you hope?

Thanks.

Judicial Watch: Records Show Iowa State Officials Coordinated with Big Tech to Censor Election Posts

Judicial Watch announced today that it received 624 pages of records from the office of the Secretary of State of Iowa, revealing how state officials pressured social media companies (Twitter and Facebook) to censor posts about the 2020 election. Included in these records were emails from Iowa state officials to representatives of Big Tech pressuring these companies to remove Judicial Watch's posts. The emails show how the state agency successfully pressured Facebook to censor Judicial Watch's post about Iowa's management of its voter rolls.

Subject: Election Fraud in Montana and Every State in the Union

The top graphics shows just one example how elections are fixed behind the curtain

- And this is why we must convene a Montana Special Select Committee to expose ALL the ways our elections are manipulated.

America must fix 2020 first to assure all voters this massive fraud will never happen again.

- 1. I support Montana Special Select Committee on Elections as Imperative to assure this State never again is allowed to cast one illegal vote.**
- 2. To this end, please check out my suggested revisions in attached Word document of MCA 2019 - Required Specifications For Voting Systems.**
 - a) And use these changes and additions as a template to bring Montana election laws up to speed ASAP to stop the level of fraud which happen in 2020.
- 3. Finally, I have also documented running research of the significant findings of election fraud since the first of this year 2021.**
 - a) Please review this At-A-Glance material at the least by scanning the titles and graphics in links below.
 - b) Election Fraud in America – A National Disgrace is now 98 pages and grows near daily.
 - c) Also note a summary of findings on Montana County elections on Page 95 by Captain Seth Keshel.
 - d) The voting process must be secured down to every legitimate vote as well as the districting process.
 - e) Corporation's most especially transnational corporations must not be allowed to influence and rig our elections by monopolizing the voting equipment.
 - f) The federal government must be forced to stop funding election equipment which is equivalent to meddling with our elections.

P.S. 1

After I sent this material out yesterday 10-7-021 to the two Montana Special Select Election Committee of some 86 Representatives

- **AND Bcc to all of the Montana House (100) and Senate (50) and 56 some Counties (many emails bounced as were out of date)**
- **I received only one reply, i.e. 1/200 = ½ of 1%.**
- **A rare diamond I will treasure.**

- Mr. Venrick:
-
- Well I've only given your information a cursory glance, there are a number of useful suggestions in the information you provided.
-
- You have no idea how much I appreciate the thoughtfulness and insights of citizens like yourself we're taking appropriate steps to ensure the openness and integrity, so I might even see the purity, of our elections.
-
- Thank you.
