**Dear Auburn Washington Mayor Lewis & Staff:**

**Thank you for your quick response. I appreciate the opportunity to communicate with with you and your staff. This is a rare opportunity.**

**The following information was discovered after 4 years of growing research on American history which is mostly built from many others hard work in the freedom movement who have spent their life digging up why our freedoms have become so completely devastated and corrupted. Ironically, most people cannot believe this, because it is most unbelievable. The truth is stranger than fiction.**

<http://www.moillusions.com/2006/05/young-lady-or-old-hag.html>

**In order to understand what has happen to our freedoms, it is imperative to shift your your perception at least for a short period of time to see the other side of the picture of what you are doing.**

**I was raised in a government family and was taught to love and respect my country and and government. My Father was a U.S. Dept. of Agriculture Forest Ranger and very proud to serve his country in war and peace.**

**Your brief analysis of "safety & financial statistical logic" is why we no longer have a Constitutional Republic.**

**The above optical illusion is about as close of an example I can find to convey a theme theme of taking you and your staff may have difficulty believing?**

**Can you see the two profiles of women, i.e., an old "hag" and a beautiful young women?**

**Why is this relevant to your statistics and email to me below whereby you try to convey your honest attempt to protect me and the "city"?**

**LET ME COUNT THE WAYS in random order.**

- 1. Auburn city is a municipal corporation who can ONLY exercise authority over its its own employees.**
- 2. Natural born state Citizens are free & sovereign with a bundle of God given & Constitutional given unalienable rights, please see attached.**
- 3. My rights include but are not limited too**
  - **the right to travel freely without restrictions, e.g.**
    - **no driver licenses can be legitimately placed upon state Citizens**
    - **driver "licenses" can only be demanded upon corporate fiction business, business, i.e. commercial licenses**
    - **the same for licenses plates, these can only be charged for on commercial commercial vehicles**
    - **no cameras, videos, speed traps, or any other obstruction to traveling is constitutional**
    - **this type of taking is orchestrated for money and power**
      - **by herding the free & sovereign people into fraudulent "adhesion contracts"**
  - **the right to not be trespassed upon**
  - **the right to privacy**
  - **the right to be secure in our private property including our vehicle**

- you have no legitimate authority to "prevent" me from have an accident accident
  - that is my responsibility and right to protect myself
  - you have no right to protect me or any other natural born free sovereign sovereign state Citizen
  - you have the right to protect your city employees but not by taking away away my unalienable rights and
  - not as a pretense to encroach upon my private property, including my vehicles
  - Said another way, you are creating traps to encroach upon my free birthrights (entrapment)
    - the right to be free from invasion
    - the right to not be held in bondage
    - the right to decide the law, i.e. whether it is good or bad
    - the right to disobey any laws, acts, codes, ordinances, penalties, fines, fees, licenses, permits, ad nauseam
      - WHEN they are repugnant to the U.S. Constitution, Declaration of Independence, Common law, Natural laws or God's law.
4. Government bodies, municipal corporations, government employees have no rights, only certain limited privileges,
- by the way, most cities and counties and all states are corporations as well as D.C.
  - you cannot make free State Citizens "safe" from one another
    - i.e. even if you take away all their vehicles, guns, knives, property, clubs, clubs, whatever

- we are born free
  - and by our freedom we defend ourselves and become safe
5. **Government employees cannot legitimately convert these enumerated rights into privileges and then war upon us and our rights**
  6. **Government employees and non government groups cannot create, invent, propagate, ad nauseam**
    - "laws, acts, codes, ordinances, penalties, fines, fees, licenses, permits, regulations" to cloak, shroud, transform or..
    - make subservient our God given and Constitutional birthrights.
  7. **Courts, councils, legislatures, executives cannot legitimately take or encroach anyone's private property including their vehicles.**
    - This goes against all the founding laws of the land and the laws of the laws.
  8. **The American judicial system, CON..gress and the applicable executive offices are beyond corrupt, they are clearly criminal.**
    - It is because of the gerrymandering of CON..ress that our individual and state state sovereignty has been destroyed
  9. **So called "speeding laws", "drunk driving laws", "unsafe driving laws", "licensing "licensing laws", ad nauseam are..**
    - all unconstitutional, unnatural, uncommon and absolutely unnecessary.
    - believe it or not
    - here is a good site to start your enlightenment on freedom
      - <http://www.state-citizen.org/>
      - Click on "File Room" for the massive digital library
  10. **Their has been a massive over reaching, over regulating, over strangling of our sacred rights**

- You may like the thing this is all to make us "safe" but
11.
    - it is based on government revenue, empire building and power over the natural born free and sovereign state Citizens.
    - making one person "safe" from another is merely out of ignorance
    - It robs both people from their rights to protect themselves and
    - determine where the real harm lies
  12. With this sort of simplistic and totally naive "statistical & financial" pandering mind set of making me "safe"..
    - You have effectively and very successfully worked your way into my life,
    - my home, my land, my vehicles, my sovereignty and my freedom,
    - all totally illegitimately
  13. You have violated not only your oath of office but have become a public threat & & criminal
    - even if it was not your intent to steal from me
    - ignorance of the law is no excuse, I am sure you have heard of that line before before
  14. You and your council and all government employees responsibility is NOT TO MAKE ONE PERSON SAFE FROM ANOTHER
  15. YOUR SWORN OATH IS TO PROTECT OUR INDIVIDUAL ENUMERATED ENUMERATED AND UNALIENABLE RIGHTS.
  16. PLEASE SEE THE SHORT LIST OF 60 UNALIENABLE RIGHTS ABOVE

**You and your council have no business, no authority, no jurisdiction to encroach upon upon these God given birthrights**

- **with this trend of tyranny and "weapons of mass destruction" have been created out of legal fiction, e.g.**
- **we have a police state which wars upon our sacred unalienable rights.**

**No court, no legislature, no executive, no special interest group, no profiteering business has been given any authority**

- **let alone the right to play God with my vehicles, land, home, privacy, animals, equipment, inventory of same and**
- **This long list of unalienable rights has evolved long before America was born**
- **You can create a crime before it happens and call it public "safety" or "security" or whatever label you wish to use**

**When these certain bundle of unalienable rights become second place,**

- **America fell from grace into what we have become today, a police state.**
- **There is never enough police to enforce tyranny taking.**
- **There is never enough "laws" when you pompously, ignorantly and arrogantly arrogantly continue to use FORCE**
- **Newton's Third Law of Physics is very apropos, i.e.**
  - **"For every action, there is an equal and opposite reaction"**
  - **It is amazing to me, how Americans have lost sight of FREE CHOICE**
  - **Not only in their home towns, counties, states but around the world**
  - **Ironically all that we have been GIVEN WAS DERIVED FROM FREE**

## CHOICE

- **HAS NOW BEEN SYSTEMACTICALLY REPLACED WITH GOVERNMENT TYRANNY**
- **How utterly karmic is this?**

**The 9th & 10th Amendment in our Bill of Rights is another red flag against red lights. lights.**

- **In the 9th Amendment our Framers recognized other rights that precede the Constitution, rights inherent in Anglo American Common Law and in Natural Law.**
- **In the 10th Amendment they emphasize only a few powers have been delegated to to the union of the several states, all the rest are reserved for the sovereign states and sovereign state Citizens.**

**Cities, counties, state and federal employees have very effectively created a self imposed illusion & nightmare**

- **of entangled regulations to punish an act BEFORE it becomes a crime.**
- **There are more than enough laws on the book to do this already.**
- **This maize of cancer like cells clearly goes against all the laws of the land and and the laws that led to the making of these laws.**
- **The Constitutional law, Common law, Natural law, God's law clearly cover all that we need.**
- **To go beyond centuries and millenniums which created these basic principles principles is to consume the very rights these laws were made to protect.**

- **We are destroying people birthrights to protect them!**
- **The media, educational system, the government, the central bankers are totally criminal**
- **Worse than that, it is "We The People" who have gone into deep hibernation hibernation for 232 years to ..**
  - **allow this grand deception to occur**

**We must reverse this cancer of paranoia, delusion and political insanity that has manifested**

- **We must tear down these walls of unconstitutional, uncommon, unnatural maize of**
- **"codes, acts, laws, fines, licenses, fees, permits, ordinances, taxes, regulations, regulations, legislation, judication, administration.**

**Many of the real sources for your so called "traffic problems", like the image illusion above are not what you think.**

- **The real problem is the agenda behind this rat packing of our once little towns,**
- **parking out our rural areas**
- **turning towns into high density "Stepford towns"**
- **depriving people of their rights to protect themselves, e.g. Washington D.C.**
- **This is a UN Agenda 21 so called**
  1. **"Sustaining Development",**
  2. **"Smart Growth",**

3. "Growth Management Act",
  4. "Critical Area Ordinances",
  5. Wet Lands, ad nauseam.
- This labeling is a semantic swindle of our basic founding laws and birthrights. birthrights.
  - In fact the nature of rat packing little towns into ant colonies drives up crime, crime, exponentially

All of the big cities and an alarming number of smaller rural cities are perpetrating this this deception

- that "social ordering" is "beneficial" while not telling you the real picture of .. of ..
- extortion of our individual and state sovereign rights.

The original laws of the land were given to chain down this type of thinking of social control over our individual rights.

- The laws of the laws were evolved to give us ,,
- individual divine rights and
- power and
- free choice
- to become sovereign and free
- or die trying...
- PUBLIC POLICY has been MORPHED INTO "LAWS" BY THE DARK

## SIDE

**You and your council and uncountable city governments, county governments, state governments and federal governments are**

- **upside down and backwards ...with all due respect**
- **mutating these precious God given gifts of unalienable rights into**
- **a diabolical, tyrannical, delusional and paranoid sickness of taking.**

**The profile of cities, counties and states are..**

- **Government has orchestrated an agenda of closet takings against the free and and sovereign state Citizens.**
- **The courts and the executive office in turn circle their wagons to protect the cancer and allow it to grow.**
- **Instead of doing their Constitutional job, sworn by their oath, to eviscerate this evil, especially within public offices**
  - **The three branches, the states, cities, counties, federal and foreign government collude and are complicit in..**
  - **taking anything their greedy sticky little fingers can take FROM "A" AND GIVE IT TO "B"**
  - **THIS IS CALLED STEALING, I.E. THOU SHALT NOT STEAL**
  - **ONE OF THE MOST BASIC AND OLDEST LAWS IN AT LEAST THE CHRISTIAN BOOKS**

**This is all happening because..**

- 1. the separation of powers of the three branches and**
- 2. the states and**
- 3. individual rights**
- 4. HAVE LONG AGO BEEN BREACHED.**

**The death knell has been sounded long ago.**

- **The body of freedom is in the last stage of cancer, OUR FREE SPIRIT IS ON ON ITS DEATH BED.**
- **The cancer of government and those who use and abuse it are consuming themselves and the flesh of our freedom.**

**This is part and parcel of the tyranny which has evolved to a level in our government beyond anyone's imagination.**

- **Our Founding Fathers worst nightmares about central government have more more than come true long long ago.**
- **Government and its sponsors are too busy perpetuating themselves**
- **"Rome is burning while Nero fiddles"**

**100% of government employees and 95% of the people cannot see this picture not unlike the optical illusion of the old lady and the young beautiful lady.**

- **We are all, deaf, dumb and blind to this because those on the dark side refuse refuse to allow the hard truth to be heard.**

- It only take 4 years of your life to figure it out IF your ox has been gored gored
- Otherwise everyone is fat, dumb and happy with a "chicken in every pot" (thanks for that one Rod)
  - The dark side is anyone or group or government who obstructs, clouds, shrouds or otherwise ignores FREE CHOICE
- FREE CHOICE WITHOUT EXTORTION OF ANY KIND WHAT SO EVER

All legislation must be frozen and unwound back to the most basic constituently and common laws.

- We have created a monster of entangling, strangling, deadly green and red cancer that ..
- has suffocated the breath out of our individual free spirit in America.
- All because of a evolving gross paranoia and delusional disorders & political pandering hysteria.

**We no longer have a Constitutional Republic which was the original healthy body given to us when we were born in 1776.**

- **We have a Majority/Minority Democracy, i.e. a "mobacracy".**

**The original young Constitutional Republic body HAD enormous strengths via these certain bundle of unalienable rights.**

- **These birthrights made us free which..**

  - **Do not entangle me with your self serving political pandering paranoia**
  - **Stay in your own little very limited sand box and ..**
    - **try hard to be very kind to your employees and**
    - **not be a bully like other Mayors I know very near me**
    - **Learn to have great respect for the natural born sovereign and free State Citizens**
  - **Please do not confuse me with one of your Auburn City employees**
  - **I AM A NATURAL BORN STATE CITIZEN WHO IS SOVEREIGN AND FREE**

To live free and to be free is to do the opposite of what you, your council and Association of Washington Cities are doing.

- Freedom means taking chances, exposing yourself to new ideas,
  - breaking old defensive paranoid delusional habits, e.g.
    - creating numbers telling you what you want hear
    - obeying the AWC

- obeying the National Association of Cities
  - obeying the UN Agenda 21
  - Following like a dog where the Seattle Office of Sustaining Development tells you to go
  - Pandering to green extreme groups or bike extreme groups tells you you what to do
- Learn to live by your oath and the U.S. Constitution and the Declaration of Independence
- The cities, counties and state government must throw off your blinders, preconceptions & old ways of thinking
- Our once small friendly towns have become dysfunctional tyrannical fortresses..
  - vying to control the surrounding urban and rural land
- The new standard you must adopt to be free is very simple,
  - i.e. FREE CHOICE FOR ALL
  - FREE CHOICE means no extortion of private property owners..
  - including their homes, land, vehicles, wages, etc.
  - Freedom means not converting rightful drivers into your crooked traps
- You and your associations, courts, etc. cannot continue this charade of selective memory of the laws of our land
- The courts and those who rule over the courts have orchestrated these dark takings and many others over two plus centuries
- Eminent Domain was never intended to be used for commercial Monopoly game playing of people's life's and their property
  - The stupid tyrannical decisions by the New London, Connecticut City Council and the U.S. Supreme Court decision is a travesty

- **This is also a testimony of the vile nature of governments, small and big**
  - **The Founding Fathers never ever meant this power to be used this way**
  - **You and your Council cannot play Russian Rolette or Monopoly ..**
  - **with people's businesses and homes to create your Stepford Town.**
  - **Though the Legislature and Courts and Executive will circle their wagons around you..**
  - **This too is all unconstitutional, uncommon, unnatural and ungodly.**
- **Property taxes are unconstitutional and have been so ruled by at least 4 high courts**
  - **Property taxes were never constitutional and still are not legitimate**
  - **Our once proud teachers have collaborated in one of the most diabolical diabolical takings of private property in history**
  - **The NEA and its sister franchised groups are a disgrace to America**
- **The 16th Amendment and so called "Income Taxes" are also unconstitutional unconstitutional**
  - **This has been so ruled by the high courts over and over in history**
  - **Income was meant to be on multi-fiction corporation profit and gain NOT on wages**
  - **Also the 16th Amendment never received the necessary 3/4 vote of the then 48 state**
- **The current sales tax system in this state is unconstitutional**
  - **A sales tax is an excise tax and cannot be levied directly upon State Citizens**
  - **The tax must be absorbed by the multi fiction corporation and priced competitively into the product or service**
  - **Then the natural born sovereign & free state Citizen pays the tax freely**

**IF**

- the product or service is priced competitively and..
    - if the sovereign & free Citizen freely chooses to buy the product product or service
  - The so called "Federal Reserve" is not federal nor is there a reserve
    - It is all unconstitutional also
    - The foreign and national banks have turn our treasures into debt long ago ago
    - Every war has ruined us
    - "The home of the brave and the land of the free" has been enslaved by global powers for profit
      - I say this as an ex conservative hawk who still has not got my arms around all of the takings after 4 years.
      - the wars could not be fought on world levels without massive loans
      - the central bankers obliged and brokers both sides
        - Believe it not - the winner becomes the loser & the loser is more free
        - Can you see the illusion, the shell game, the cheap card tricks?

**Thank you for allowing me to share some 4 years of growing research in these areas. You have just read the tip of iceberg, so to speak, that I have found. And this is only know the tip of the iceberg of the rest of the takings yet to be discovered.**

**Farmers, ranchers, rural property owners like myself, 2nd Amendment groups and tax and tax freedom groups are joining up sharing this information with the world. The darkness of taking is lifting. We wait for the dawn of a new free tomorrow where there there is no tyranny in America.**

**If you would like more information let me know and I will send you and your staff selective supporting research on these key takings. I hope you take this in the spirit of of change to remake this once great nation back into its true and rightful place of a model free society.**

**Subject:** RE: Eyman to red light camera cities: will you follow Wenatchee mayor's lead?

The city of Auburn along with Lakewood was the original supporters of this life saving measure. We went to the state legislature with a particular focus in mind. We wanted to stop deaths and serious injuries caused by people running red lights. In addition we were concerned with the increasing speeds seen around our schools and our children's safety.

Part of the new state law required us to put up a sign at every intersection with the Photo-safe device. When the legislation passed the City of Auburn put up a sign at every signal controlled intersection in the City of Auburn proudly proclaiming this was a photo safe community.

City Council was adamant that this was for our safety and set the fines at the state minimum.

Since that date we have seen a forty percent reduction of accidents at photo-safe and school zone covered intersections.

Year to date 2008 there have been 7,062 citations issued. The system went live June 30, 2006 and the total citations through the end of the the year was 7,354. Citations for 2007 totaled 12,796.

Year to date 2008 receipts are \$634,670 which includes \$374,990 to the provider company for cost of continuing the service, \$30,250 for for costs of additional court staff, \$23,896 for additional judge(s), \$31,249 for additional legal department and \$6639 for additional officer officer time, \$58,378 for additional administrative work leaving a net to the citizens of Auburn of \$109,268.

That would mean an expected 2008 funds after costs of service would be approximately \$165,000 actually available for use.

Last year the Auburn City Council approved moving all net red light enforcement funds for local traffic calming improvements. Fund balance at that time had not been appropriated for any other use and stood at \$480,379.

In 2007 City Council approved neighborhood traffic calming projects totaling \$131,217. Year to date Council has approved and we have have completed \$106,130 in local traffic calming projects and have two more pedestrian light projects to install before the end of the year year for an additional \$100,000 bringing the 2008 total to \$206,130.

The draft 2009-2010 budget shows about \$200,000 a year per year in local traffic calming projects from Photo-Safe including remaining remaining fund balance.

There are no other sources of funds for local traffic calming in our cities.

**There are no county funds.**

**There are no state funds.**

**There are no federal funds.**

**There are no other sources for neighborhood traffic calming at this time except in emergencies.**

Removal of these funds from the local community will have a direct and immediate effect upon our neighborhoods and our citizens awaiting traffic calming improvements in their neighborhoods.

## **Eyman to red light camera cities: will you follow Wenatchee mayor's lead?**

Saturday's Wenatchee World reported on Mayor Dennis Johnson's reaction to I-985: "Johnson said the city's incentive to install cameras is gone if I-985 passes." The story also reported: "Johnson said Wenatchee's not about to put up the money and manpower to run the system if the state's going to get all the money." Wenatchee World, August 23, 2008, <http://wenatchee-world.com/apps/pbcs.dll/article?AID=/20080823/NEWS04/66384>

The voters deserve to know which cities are doing red light cameras for profit, as Mayor Johnson reveals is the case in Wenatchee, and which cities are doing them for safety.

For a long time, many taxpayers have questioned the government's motivation for this very profitable program. With stories like these, it's not hard to understand why: "Spokane is about to join the growing number of U.S. cities enjoying cash windfalls from catching red-light runners with sophisticated intersection cameras." City will profit from plan to deploy intersection cameras, Spokesman Review, February 23, 2008.

Or this: "The cameras have turned out to be quite the money maker, allowing the city to collect more than a million dollars in fines in the first year from the cameras at four intersections. Mayor Greg Nickels says the program is about safety -- not making money." KOMO 4 NEWS, Jan 4, 2008, Seattle adding more red-light cameras.

Or this: "Red light cameras are popping up everywhere, turning red to 'green.' Auburn brought in \$160,000 in that system's first six months. Lynnwood took in \$300,000 in the first three months." KING 5 News, News, Monday, November 5, 2007, Do red light cameras really make streets safer?

Or this from Aberdeen's Mayor Bill Simpson: "With the initiative looming, Simpson said there is 'no

guarantee' right now that the city would receive the money generated from the red light cameras, so putting the decision on hold made sense." Daily World, Saturday, February 16, 2008.

A successful initiative in Cincinnati, Ohio recently qualified for the ballot and it asks voters to prohibit red light cameras.

We didn't feel banning red light cameras was politically educational enough. We asked ourselves: how can we show voters which cities are putting them up for profit and which for safety? Not by prohibiting them, but by removing the profit motive by dedicating red light camera profits to the "Reduce Traffic Congestion Account" which will fund I-985's common sense policies. By removing the government's profit motive, we knew we would learn which cities are doing them for safety and which for money.

Mayor Johnson has exposed Wenatchee's motivation as profit. It's only fair for voters to hear from the other cities with red light camera profit centers -- elected officials in those cities should answer the question: what is your city's plan should voters approve I-985?

Email me your responses by the end of the week.
