

Denis Rancort PhD Physics

I just stumbled onto Dr. Denis Rancort interview by Alex Jones today Monday, January 8, 2024 on www.infowars.com.

Denis Rancort struck me as a true and honest man who works day and night trying to get the truth out in this dark world. There is more material here than most can digest so I plan to stream the links thru my laptop to our TV in the evening as we have time.

[Here are my brief notes and links to his key material.](#)

Jack Notes re. Denis Rancort PhD Interview with Alex Jones

- Resume - "On this website you can learn about me, and find my main articles and interviews in science, public policy and social theory. I currently write about medicine, COVID-19, individual health, climate change, geopolitics, civil rights, political theory, sociology ... and I have also written over 100 peer-reviewed-journal articles in technical areas of science and technology. I obtained BSc, MSc and PhD degrees in physics. I held post-doctoral research positions at prestigious institutions in France and The Netherlands, before being a physics professor and lead scientist at the University of Ottawa for 23 years. I am an experienced self-represented litigant at several levels of court and in many administrative tribunals, in both Ontario and Quebec. I have been a volunteer Researcher with the Ontario Civil Liberties Association (ocla.ca) since 2014. I hope you enjoy this website and my updates." - <https://denisrancourt.ca/page.php?id=1&name=home>
- We live currently in a dominance hierarchy much like animals where there must be aggression, i.e. authoritarian. This behavior can become pathological. Excess aggression or dominance ultimately causes animals and people to react. Too much aggression has been observed in animal groups to cause the group to turn on the dominant animal that exceeds a certain limit of aggression or authority.
- Our world cannot continue to run on financial exploitation.
- The courts are bought out and cannot solve our problems.
- The elite have taken too much power.
- We have a government of Kleptocracy - [government by those who seek chiefly status and personal gain at the expense of the governed](#)
- It is all about stakeholders now not the people.
- All the taking is being done by propaganda. The Western world is a real bad place right now.
- The US made Ukraine into what it is currently which forced Russia to take action.
- End of my notes on this interview.

Material written by Denis Rancort PhD or coauthored

- 1) **He is estimating there have been 17 million deaths worldwide by the covid shots** - <https://www.infowars.com/posts/watch-top-physicist-proves-covid-shot-caused-17-million-deaths-worldwide/>
