

Montana Grassroots Conservatives Strike Back @ State GOP

Here is a one hour interview between the host of Valley Broadcast Network James White & Commissioner Randy Pinocci (Republican Public Service Commission District 1) who is running for Lt. Governor on the same ticket as Tanner Smith for Governor of Montana against the incumbent Greg Gianforte.

<https://www.youtube.com/watch?v=X06uWnQX0WA>

Tanner chose to run for Governor when serving as District 11 Representative (Lakeside, Montana) and became appalled how the State of Montana was run largely conservative.

Jack Notes in order of the video interview

- 1) Tanner Smith asked Commissioner Randy Pinocci to be Lt. Governor on his ticket to challenge Governor Greg Gianforte.
- 2) Part of the deal struck between Tanner and Randy was Randy wanted to continue pursuing his passion to make Montana an exporter of energy instead of importer forced upon us by the green extreme.
- 3) Randy also wants to help the 69K Montana Vets more and establish an office in Helena for them, after all the tribes have an office.
- 4) He wants better voter integrity and more focus on AG. .
- 5) He wants Montana to reform toward a much more stable and sound money coin and currency than federal debt based and back to gold/silver based coin and currency to curb inflation and general economic honesty.
- 6) Pinocci says the Montana Citizens voters **are prevented to vote** for who they want as Governor Gianforte has worked with Trump to nominate Tim Sheehy for MT State US Senator not Matt Rosendale who Montana Citizens wanted. The GOP wants to control the ticket for their AGENDA which is NOT what Montana conservatives or Patriots want.
- 7) Writing in Matt Rosendale for Montana State US Senator has been discussed however; this was decided against by the State GOP because they think Tim Sheehy has a better chance to beat the incumbent MT US Senator Jon Tester. (Jacks note)
- 8) Gianforte is an out of stater not Montanan and there is another video interview showing the dark side of Gianforte. Rosendale was to run for the MT US Senate seat, Pinocci was to run for Rosendale current seat, MT US Montana Representative for eastern Montana, District 2 (with Zinke in

Montana Grassroots Conservatives Strike Back @ State GOP

western MT Dist 1). Rosendale dropped out immediately to his run for MT US SENATE after President Trump pledged his support for Tim Sheehy. This did not make sense to me at the time but now it does. **The mainstream GOP chooses who they want to run NOT the conservative state Citizens and NOT the Patriots. Other Patriot level conservative candidates have expressed these same problems.**

- 9) Both Tanner Smith and Randy Pinocci are Montana born! The level of collusion & corruption going on in all elections on both sides. Local control is being intentionally blocked allowing national and global control to back fill their agenda.
- 10) He wants more high performance power transmission lines which will be much more efficient and give us a leg up to deliver more power in the future. Montana is in very bad shape energy wise. I notice our local Flathead Electric coop is so desperate they have shut down our full use of power for the last few years by billing excessive costs per KWH like \$2.20. This is 15 times the normal charge of \$0.0683/KWH in the 601 to 2500 KWH range. Then the coop gets a few million dollars grant and instead of pursuing more energy what do they do they concoct a study to research how their power customers use power. This is ridiculous as in I think it was a federal or state grant with hooks to force them to do this. It is very difficult to see a change in the status quo even when it is heating your home or business.
- 11) Randy also brought the CSKT compact disaster which has largely affected the Montana Citizens in Flathead County and Lake County the most. He says the Montana Constitution makes it clear that the water in our state belongs to the people not the tribes or the federal government. This was a Fed-State- Tribal taking and very poor legislation and decision by our legislature. They threaten us with 10,000 law suites and a few RHINOS caved and voted for it.
- 12) Randy Pinocci & Tanner Smith will fight the CSKT Compact if they get elected.
- 13) Randy supports MT AG Austin Knudson.
- 14) Gianforte broke his oath of office when he supported the CSKT Compact.
- 15) VOTE JUNE 4 PRIMARY TO MAKE YOUR VOICE HEARD. IT'S ALL ABOUT FREE CHOICE TO MAKE A CHANGE.

Montana Grassroots Conservatives Strike Back @ State GOP

- 16) He has plans to Gibson Reservoir and add a turbine for over 60 years. They are building new transmission lines now.
- 17) Montanans pays 10X more for out of state energy because they have been forced to drink the green gangrene kool-aid!
- 18) We need more drilling for natural gas and to harden our power grid.
- 19) Randy Pinocci wants to dissolve the VA Centers & have all Montana 68,000 Vets be accepted at any doctor office with a VA office in Helena.
- 20) Montana has serious mental health issues.
- 21) Supreme Court only issues opinion and have now power to backup their decisions.
- 22) They make their own laws. Judges are supposed to follow the laws. Since Montana is a conservative state the Democrats have looked to the judges to stop the legislation they do not like, i.e. which increases making law from the bench.
- 23) Our Montana courts are a tremendous problem. The immediate solution is to get the party affiliation on each judge on the ballot. Gianforte vetoed a lot of bills including this judge party affiliation.
- 24) Montana Gianforte Governor has caused taxes and government to increase. Retired people living on the edge have to move to Mexico or other less tax states. Randy and Tanner will support legislation to impose NO PROPERTY TAXES ON RETIRED CITIZENS HOMESTHEY LIVE IN LIKE SOME OTHER STATES.
- 25) Montana is an energy rich state with an abundance of water, silver, gold, coal which has been/is being shut down by radical environmentalist and radical judges.
- 26) Do what is best for Montana NOT DeCeit Inc.
- 27) Judges are more radical today than long ago.
- 28) Judges are not following the law and ruling from the bench.
- 29) Current government is not doing enough to expose these judges, e.g. "Judge Moses in Billings is out of his mind."
- 30) States are starting to remove judges that make or override laws from the bench or ignore the decision entirely.
- 31) The Tanner/Randy first 100 day Plan would include energy. Western US does not have enough energy and entering controlled brown outs. Gibson Reservoir needs a turbine. Transmission lines going in now.

Montana Grassroots Conservatives Strike Back @ State GOP

- 32) Jacks note: This is right on. The real "alternative" power in America is in harnessing some 550 non-powered dams. This would supply 90% of our national potential capacity alone! [See chart near top on this web page.](#)
- 33) Montana needs to get Colstrip coal plant generators #1 & #2 back on the grid. Randy brought in a special team from U. of Illinois and they said there is carbon capture filters which could bring the emissions down to ZERO. Furthermore the CO2 could be piped to the Bakken Oil fields via PVC pipe to percolate into the oil wells to yield more oil.
- 34) Montana needs to be an energy exporter.
- 35) Montana voting integrity is a problem. The tribes were paid to vote multiple times, e.g. \$45/vote. More ballots were sent out than registered voters in Missoula. A judge threw out the case. Conrad Burns did not lose. Read the book "Arrow To The Heart... The Custer Battlefield Museum vs. The Federal Government by Kortlander." (Great Must Read) "Montana SOS says nothing to see here"
- 36) June 4th - MADE SURE AND VOTE IS VERY IMPORTANT.**
- 37) Montana needs a sound stable money policy with gold and silver based. Federal Reserve is causing excessive inflation. Montana needs to start transitioning back to hard coin and currency base.
- 38) Utah is doing a good job & 12 others states are considering this plan.**
- a. <https://www.forbes.com/sites/greatspeculations/2011/07/28/a-gold-standard-that-makes-sense-in-utah/?sh=830a0fd65043> (excellent article)
- 39) He is very disappointed in those running for Congress. Not a single candidate has stopped to explain their job to limit the budget.
- 40) Value of the Dollar is lowest in history.
