## Background

In 2004 I started to wake up with the help of rural friends to the takings of King Communist County in the No State of WashedOutIngTon.

- <https://www.freedomforallseasons.org/FreedomFromTheStateofWashingtonCONstitutionThatNeverWas.htm>
- The link BELOW was forwarded by a friend showing another step in the Ladder of Taking/Knowing regarding how infested America has become.
- In 2004 with some research I found that American colonial government forming in the 1700's fell in the following three categories of the 3 million some population.
  - 1) Roughly one third of the some 3 million American colonialists preferred to stay under King George III for their comfort and security.
  - 2) The second third preferred to play both sides and profit from both.
  - 3) The final third preferred to be free from the British colonial tyranny.
  - 4) However, roughly two third of one percent were willing to fight and die for this precious freedom, the actual number varies between 20 some thousand and 30 some thousand.
- **In this below link you will hear a prominent individual state in another study refer to 1/3 again, i.e. that only 1/3 would NOT push the button and the remaining 2/3 would do what they were told.**
- **This is the nature of the global beast, i.e. CURRENTLY 2/3 of the American population will do what they are told while the remaining 1/3 will RESIST, i.e. (2) the deep state/globalist know this and we do not.**
- **Now that we know this truth, it is easier to flip this in our favor, i.e. 2/3 will resist for freedom leaving 1/3 to the globalist fate as we awaken to this truth.**
