"Agenda 21", SMART Cities, and flagrant corruption in local government. But now I've ended up focusing on elections because without fixing the elections, we cannot get rid of this utterly compromised, "controlled", ruling class. You started out focusing on elections, and have now tied it to the Agenda 21, pro-over-development financial cartel. **It's all just one big "insiders" clown show.** I am in Idaho, one of the "reddest" states and it is Republicans that are the problem." - Lee Zeldin: "The EPA has now cancelled over \$22 billion worth of contracts -- \$2 billion going to this NGO that Stacey Abrams was tied to. They received only \$100 in 2023 and then the Biden administration gave them \$2 billion -- The director of the Greenhouse Gas Reduction Fund saw his former employer get \$5 billion -- **So \$20 billion went to just eight NGOs.**"

 - **WASHINGTON** – Less than a month in office, U.S. Environmental Protection Agency (EPA) Administrator Lee Zeldin has made progress in uncovering waste and abuse at the agency. This week, he shined a light on \$2 billion of the [\\$20 billion gold bars parked by the Biden-Harris administration](#) at an outside organization to reduce oversight set to be distributed to Stacey Abram’s Power Forward Communities. It was also revealed that major beneficiaries of the Democrats’ Green New Deal include former employers and major donors.

Months after, the United States established the Environmental Protection Agency (EPA). Both are part of the bigger plan of private property removal.”**

- "This is not about voter rights—this is about Democrats stealing elections using federal power. The Biden administration’s refusal to be transparent proves their guilt. If EO 14019 was a legal and neutral initiative, they would have no problem releasing their plans. Instead, they obstructed, lied, and hid the truth. Now, Trump’s Congress is forcing them into the light."
