I. Link directly below to view my recent personal photos in a home movie of the chemical spraying over the south half of the Flathead Lake in NE Montana April 15, 2025 one of the most beautiful areas of Montana.

- This is less than a 2 minute movie with music turn up your volume a bit.
- I have contacted the Montana Dept. of Environmental Quality - <https://deq.mt.gov/> and the Kalispell Glacier Park Intl Airport a few years ago and they were both in denial and offered no help.
- The recent reports below show some hope with the President Trump administration especially RFK passion for improving American health may take action to stop this deadly industrial level chemical spraying.
