Recent updates FYI, maybe some repeat attachments above. Also check out Barry Soetoro Obama 10 point take our guns away plan here <http://www.nraila.org/obama/>

You have to wonder how long this can go on, i.e. the ignoring of our basic laws PLUS the selective memory of prior high court rulings PLUS the stringing of generations of misguided legal fiction.

Perhaps this era of taking will set a new background for more people to better see the dark side of taking from A and giving to B. Just the fact this illegal immigrant got this far is a screaming testimony how corrupted the system is in America. Who needs fundamental laws when legal fiction works for every man and women and child who passes in and out of the country.

Wayne LaPierre of NRA captured the theme of the brokers of taking here,

"So the political ruling class never empowers you but always empowers themselves to keep you powerless! It's the same thing for the corporate ruling class, the legislative ruling class and the media ruling class. They all say you can't be trusted with responsibility for your own protection. But at the same time, they abdicate their responsibility to protect you. they refuse to prosecute and put away the bad guys. And so the jailhouse revolving door spins: Take them in, turn them out. And it's open season season on the rest of us"

This is great speech if you want to glance at it

P.S.

The radio show call into the Kenyan Ambassador indicates Barry Soetoro a.k.a. Obama Obama is born in Kenya. The last article I read indicated Mama Obama could not make make the plane back and had to give birth in Kenya and then she flew back after the birth birth to Hawaii to have the appropriate papers drawn up. This is why he does not want to

to show the Hawaiian "birth certificate" because it will show the real birth in Kenya. Obama was ultimately caught between a rock and a hard place. If he did the right thing and went through the naturalization process to obtain citizenship, he would admit admit he was not natural born. He apparently has had a long desire to become politically prominent in America. If he did nothing and pretended he was natural born, born, he could not run for President. So he choose to do nothing and see how far up the the crooked court system in America would go in ignoring the issue. It was a great bet on his part.

Kenyan Ambassador: Obama's Birthplace in Kenya is "An Attraction...Already Known"

All In The Family

From Free Republic <http://sunlituplands.blogspot.com/2008/11/kenyan-ambassador-obamas-birthplace-in.html>

About twelve minutes into a Detroit radio station's interview with Kenyan ambassador Peter Ogego, he is asked whether or not monuments will be erected in honor of Obama's elevation to the United States presidency.

Ogego responds that a monument will be erected at Obama's birthplace in Kenya,

which is already a site of pilgrimage: “His birthplace is already an attraction...it’s already well known.”

Obama’s Kenyan grandmother has also asserted that he was born in Kenya, not the United States. The Constitution **bars those born outside of US territory from becoming President.**

There are also lawsuits pending — including one by Obama’s former Senate campaign opponent Alan Keyes — challenging Obama to provide proof of citizenship eligibility to take office. Supreme Court Justice Clarence Thomas has put this issue on the docket for the Court to review on December 5th.
