Wherever there is water, mountains and cities of any size, the green extreme moves in, funded by their "1000 Big Friends" from back East. You can confirm this here <http://www.sovereignty.net/p/ngo/NGOstatusUN.htm>. There are more than 700 of these UN sponsored groups who are worth over 10 billion with an annual income of over several billion. This money is used to fund shell groups all over America where there is water, mountains and urban areas that is desirable to the easterners to add to their "butterfly" collection.

Seattle Washington is one of over 100 cities that is a Sanctuary City. See list attached. They are not only "sanctuaries" for the illegal immigrants but are sanctuaries for every fascist, socialist and communist that wants to steal your private and public property and lock it up for themselves or tell you how to lock it up.

These cites have been funded and organized into virtual political fortresses whereby they send out activist invading our LOCAL public and private lands, homes, water, animals, vehicles and traditional life style. These radical collectivists infest all levels of government and encourage the rat packing of the cities to centralize their power base. This is all funded by you and me. This is orchestrated by other government and non government groups who enjoin and are complicit in the escalated takings of property across America. All encouraged by the globalists, the UN and the green extremes around the world.

This highly effective strategy has become a tool mostly of the left

but is also now being parroted by the right, anything to get vote. Ron Sims and the 15,000 King County employees work out of the city of Seattle. They have no affiliation to the rural areas other than they steal our private and public property, hand over fist.

King County "Executioner" Ron Sims lives in Seattle, he offices himself on the top floor of one of the skyscrapers in Seattle and has a chauffeured armored limousine and driver who is armed and wears a bullet proof vest we are told. He is coward and a thief and rarely dares to crawl out of his feudal fort in Seattle where its safe. He represents the madness of stealing private and public property consuming the cities now. Counties for the most part are pseudo cities who pretend to be "rural". Counties have become virtual cities especially those around the big cities. The states are municipalities and cities. There is FEW rural areas left now NOT taken by this green city extreme. They have effectively destroyed and consumed our rural country traditional way of life. If they can't slime you, then they will take your land down with parks and bike trails and rezone you all at the same time. THEN THEY WILL SEND OUT COLORED POST CARDS BRAGGING THEY HAVE DONE YOU A GREAT FAVOR BY STEALING YOUR LAND FOR A PARK OR A TRAIL or a rezone.

How does this happen? The Democrats in the rural areas are voting down the party line keeping Ron Sims and his green staff in office. Call it blind political ignorance. King County Council DemoRats or RepubCrats play the same shell game because the vast majority of the county votes surround the cities just outside the city limits and the unincorporated areas. There are only a few hundred thousand people in King County rural areas with some 1.6 million in the entire county. Even if all the rural county people voted alike, it would make no difference. The RepubliCrats did not like one of our own kind living in the Enumclaw, Washington rural area and winning the vote for a King County Council position, so they gerrymandered the district giving our rural district to Bellevue Washington who thereby elected ex Senator Jennifer Dunn's little boy Reagan Dunn. You have to understand the game, it's no different than going to Reno or Vegas or Wall Street. The game is loaded and the odds are in the favor of the house. The house always wins in the long run. The big parties do not care about the rural areas because these lands are being "parked out" and have little to no power or votes because of the way they have set up the board game.

There are about 6.2 million people in the state of Washington with 76% (+/-) of the vote is controlled by green extreme living north and south of Seattle along the I5 corridor. This gerrymandering of "votes", "districts" and "counties" and the control of the funding controls much of the State of Washington. The political parties have set up the districts and counties whereby they control the choke chain around the necks of every individual as well as rural and urban in any community. The people are not free to choose anything but want they are given. Not unlike our closed end educational system.

The counties that don't want to play this loosing game, can't get out. The people in the voting districts who don't want to play a loosing game anymore, can't get out. The states that don't want to play this game can't get out. Puget Sound political power centers in a few counties and districts have loaded the dice and run the gambling house for the entire state. There are about 1.9 or so million registered voters in the State, if I remember and the Secretary of State just found 400,000 illegitimate voters in the voting db. The last governors election was "won" after three "recounts" by the Democratic candidate Christine Gregorie by only 133 votes. The voting error was over 1200 votes but that didn't matter to the judge. Instead of calling for a freeze on elections in those counties with such corrupted election departments and until the fraudulent voting system was fixed, the illegitimate governor was rammed into office and business continued as usual. You can't legitimately "elect" anyone by a vote difference less that the standard error of the voting "machine" in operation at the time, corrupt or uncorrupt.

As Tom DeWeese wrote we need "None of the Above". I would add we need no elections at all.

They are too rigged. The entire government system in America is bankrupted and reflects no principles, no free choice, no natural law, no common law, no individual or state sovereignty. It makes no difference whether you vote or not, the system is self corrupted. Your vote does not make any difference even if you held every government office in the land. Your political party and those who control the money and the media and the myths in America would see to this. How naive can we be, to think that "our party" is going to do the right thing.

King County is the 10th LARGEST county in America with some 1.7 million people and some 15,000 county government employees. This alone should show you the problem. Add this to the 10,000 Seattle government employees and the 25,000 Washington state government employees and the 40,000 state teachers pseudo government employees and all the other cities, counties and direct government employees and the indirect ones and you probably have a total approaching at least 200,000 people in this state.

http://allcountries.org/us Census/531_county_government_employment_and_payroll_largest.html.

Then add all those businesses who live off of this government tit.

The rural eastern half of Washington is forced to fund many Puget Sound budgets and the eastern rural half of King Communist County is forced to fund the western Puget Sound fascist projects.

In short we have lost all of our individual rights and the states have lost their sovereignty using this political party gerrymandering lock down of incestuous like "districting", "countying" and "partying", which create jurisdictional fictions and political fanatical factions, all designed to deceive you into thinking you are somehow being benevolently represented. Or better said, the political parties want you to pretend you are being given a "voice" all the while they are stealing your free choice and your private property. Then they tell its the best they can do and its a "democracy" after all where the "majority" rules. Therein you can see their ignorance and arrogance.

It is exactly what happens when you go to court and get an attorney. There is no difference between the judge and your attorney, i.e. they all work for same boss, the ABA. They rig the rules and the juries to make you think you have no rights whereby you loose and they win before the trial begins. Paul H. can attest to this.

If the political parties wanted us to be free, we would be free today. Believe it or not, it is a fact perhaps stranger than fiction. There would be no "districting" and "counties" because these are political cages that serve no one but political parties and government both of which do not want you to be free. If you were free you would not need these feudal groups and their debased policies. There would be no unconstitutional taxes upon any of the free Citizens. There would be no forced funding upon property owners of any kind. There would be no indirect excise taxes that have to be eaten by business placed directly upon private Citizens at the cash till. There would be no unconstitutional unapportioned property taxes placed on private property owners. There would be no "income taxes" upon free and sovereign state Citizens at the state or federal levels because these are indirect taxes and are also unconstitutionally applied. The high courts have ruled on all of this more than once. But your favorite political party ignores the laws of the land to line their pockets and to hold power. Political parties are like brokers, they don't care so much whether you win or loose because they always win even if they are only in second place. And they certainly don't want you to be free because then they have no function.

Anyone labeling themselves with a particular "political party", tells me they are not representing me, they are representing their party. Once Americans ascend to some level of perception that freedom is NOT another political party, but a spirit of absolute and total free choice, then we will be free. As long as we cling to the feudal idea that some political savior or party is going to rescue us and lead us into a "political heaven", we will continue to grovel in political hell.

The only source of government revenue must be held to indirect taxes, customs, duties, imposts and the sale and lease of state lands. PERIOD. Voluntary donations by all the collectivist, socialist, fascist and communist and eastern environmental extremes would be more than

welcome of course.

People would form their own townships by free choice. The cities and the townships would decide if they wanted to be included in the existing state or not. Individuals who did not want to be part of any city or township or state could secede on their own to be a free and sovereign independent and unrepresented individual not aligned to any government. This is not far from the original intentions of the Federalist who were pro central government. This is not unlike what Lysander Spooner wrote back in the mid 1800's. What has transpired is an Orwellian nightmare created by political, legal, central banking and global elites to steal everything you hold sacred in life. The entire infrastructure of our political, societal and government systems are created to enslave us.

No piece of parchment, even eloquently written, has any authority over our private lives and our 60 some unalienable rights just to name a few. American government at all levels only represents themselves not the natural born, sovereign and free. They and we are confused. They and we think we are government employees bound by these political chains and districts and political parties and counties and cities and states. These are all legal fiction municipal factions to keep the government employees out of our lives. They and we think, we are all government employees. The government employees think they are free and not bound by their oath of office. The people don't think, therefore they are not free.

This is the treachery of political parties, government and globalist together with all the non government groups who think we need them to educate us, make us more green, more safe, more "homeland", more transported, more social secured, more welfare, more healthcare, "more and better cared for".

If they wanted to protect us and give us a voice, they would give us free choice. Simple to say and simple to do. While we are smart enough to know something is not right, even if it took us 232 years to figure it out, the bad news is, we are all not bright enough to figure out how they pulled this off and how we can take get it all back and then some.

Eastern Washington does not want any part of western Washington. Eastern King County does not want to even be touched by western King County. On and on, it goes, up and down the Puget Sound and all around the state. This is a nightmare political Alzheimer's like plaque which has dumped down the best of us to think we are somehow magically represented by one Senator and two Representative in each of the so called "legislative district". This is another myth created to take our private and public property and all of our 60 some unalienable rights.

Legislative districts and so called counties are more geographic swindling which has created political divisive territorial prisons whereby we are all forced to be enslaved in a bipolar system where we pretend we have a free society with a bipolar vote in two different gambling casinos run by the same mob. One casino is called The House of Republicans and the other is called the House of Democrats. Whether you go to Reno or Vegas or Wall Street, you are still gambling. Nothing is sacred in these "little houses of horror". They will steal your house, your land, your automobile, your animals, your roads, your right of ways, your family, your privacy and

take your life all at the same time. They will call it some mythological cute name like "eminent domain", "critical area", "wetland", "dry land", "direct taxes", "zoning", "Rails To Trails", "wildlife corridors", "endangered species", "environmental protection", "profit", "taxable", "tax free", "fair tax", "flat tax", VAT tax, all the while using their applicable, legislative, judicial and ABA codes.

The answer is free choice. These political party "houses" offer you conditional "free choice", i.e no choice. Their choice is - you play their game or you go to jail. You "pay and play" or you don't play. That is what is going on in America. And we are too dumb to see it. We are too caught up in our own political arrogance whereby we think our party is going to make a difference in our life.

Many of us honestly believe, if our party fills the 535 seats and the 1848 legislative district seats in America, there will be heaven in America, i.e. "Democratic heaven" or Republican heaven". Its one or the other, not both in the political mind. One study I read went about proving that a balance of both parties resulted in "better legislation". Just like most political and many scientific studies don't show you the complete "universe" of choices. i.e. the outcome was loaded because they selected the data they wanted you to see. They never addressed free choice nor any other choices for that matter.

What we have in America is a continuation of the Civil War and the New Deal combined, wrapped up in a make believe package called "democracy". The states are held in captivity. Counties and cities are an illegitimate cancer upon this free nation that exist only because they steal from private property owners. If they contained themselves within strict Constitutional limited indirect taxes then they would be legitimate. However, they are too greedy to do this so they devise unconstitutional, uncommon, unnatural and immoral takings, e.g. "property taxes", "sales taxes", "fees", "codes", "tickets", "licenses", "zoning", "eminent domain, etc.. The true meaning is this is all theft of private property. The states are not free because they have slipped into prostitution with the federal, global and UN pimps.

The irony is, we don't need to vote, we don't need legislative districts, we don't need political parties, we don't need central bankers, we certainly don't need counties or cities or states. What we do need is free choice, all of our 60 some unalienable rights, our liberty, our freedom and our sovereignty as individual and states if we so choose unanimously. What we are "voting" for is two different poisons to take all of which are deadly to our health. The poisons are for the government employees only. This poison was never meant to be offered up to the natural born free and sovereign state Citizens. Those who say they are going to represent us, do not work for us. They work for their municipality government whether it be city, county or state or federal. Their sand box is very small and the sand is colored green from 232 years of them soiling there own box and not cleaning it up. Our sand box has no boundaries, i.e. the natural born, sovereign and free state Citizens live in no sand box.

The game of taking was fixed when the Federalist rammed in a central government with only 9 states versus the mandatory unanimous 13 as required by the then Articles of Confederation. At least 5 of the 13 knew what the hell was going on and did not want any part of it. From then on, it was down hill and not the same hill as they were on before. Standby for this story soon. You will recognize the game plan when I lay it out. It is the same ole strategy used today.

Here is the short list of some of the traditions Ron Sims and the legions of green & social cults are stealing from the private property owners.

<http://jimbeers.blogspot.com/tradition>

A short list of the traditions targeted by these groups for extinction would include such things as:

- Private property
- Hunting
- Fishing
- Trapping
- American history (replaced with "politically correct" propaganda)
- Forest management and use

- Range management and use
 - Wildlife management and use
 - Public land management and use
 - Ranching
 - Farming
 - Medical research
 - Animal ownership
 - Animal use
 - Guns
 - Parental rights
 - Marriage
 - Religion
 - What we drive
 - What we eat
 - How we live
 - Where we live
 - Rural living
 - Rural lifestyles
 - Individual freedom to the greatest degree attainable.

STEALING PRIVATE PROPERTY WITH PUBLIC DOLLARS

<http://www.newswithviews.com/DesAme/destroy2.htm>

As Tom DeWeese says "WE ARE NOT A COLONY OF ANTS".

These ant colonies being built are no accident. They are coming out of the minds of the national and global elite. There are over 3000 members in the Trilateral Commission and Council of Foreign Relations alone. These are the cities, counties, states, multinational corporations, central banks, green extreme, social planners. Check it out if you can't believe it -

<http://www.apfn.org/apfn/cfr-members.htm>

We need to wake up everyone. Where is the Liberty Bell when we need it the most? If you want to get out of this political ant colony being built all around you, you must get out of the colony completely. You cannot vote for or deal with any of the "parties" in the ant hill. They all have a deadly virus and are highly contagious. This disease will destroy your ability to see the truth. Their choices are not free choice. Once you vote for any of them, the poison starts working, you cannot see the truth and you will keep voting for the same ole parties over and over again. All the while, the ant hill around you, gets bigger and bigger overlaying you with sticky white plaque to keep you from escaping. Either one of these parties will suffocate you to death in short time and your children and your children's children.

Subject: Let's Protest the 75th Anniversary Celebration of FDR's New Deal, with County Executive Ron Sims

FOR IMMEDIATE RELEASE!

From the: NATIONAL ASSOCIATION OF RURAL LANDOWNERS
October 12, 2008, 4:00 PM

IF YOU DO NOT LIVE IN KING COUNTY, WASHINGTON,
YOU RECEIVED THIS MESSAGE IN ERROR.
PLEASE ACCEPT OUR APOLOGIES AND DELETE IT.

KING COUNTY EXECUTIVE RON SIMS COMES TO THE RURAL AREA OF KING COUNTY FOR A CELEBRATION OF THE 75TH ANNIVERSARY OF FDR'S NEW DEAL

*Please be sure to distribute this Press Release to your King County List.
We need maximum exposure for this event. Yes, we know it is the evening of the last
Presidential Debate, but a powerful message must be sent to Ron Sims of how
the rural landowner feels about Ron's socialist and radical environmental policies, like
the critical areas ordinance and his global warming initiatives.
Even if you can't come to the meeting, please forward this message to others.*

On October 15th, 2008 from 7 - 9 PM
at the Preston Activity Center 8625 310th Ave. S. E., Preston, WA
King County Executive Ron Sims is coming to the rural area of King County
to celebrate the 75th Anniversary of Franklin Delano Roosevelt's NEW DEAL
(see attached flier, as well as a brief history of FDR below)

One might ask, why wasn't this so-called celebration held in the Ho Chi Min Socialist City of Seattle, where it would be more appropriate?

Come one, come all and listen to the Top Socialist of King County
Sing the Praise of one of the largest acts of Socialism
Ever perpetrated upon the Citizens of America
By any president, before or since.
That is, up until Calendar Year 2008
when the socialist Federal Government of America,
Led by folks JUST like Ron Sims, and
In response to a crisis his political party created,
Nationalized businesses, banks and the banking institutions
and saddled future generations with as much as
\$2 Trillion dollars in additional debt,
On top of the \$10 Trillion dollars of existing debt they also created.

Don't forget, Fanny Mae was part of FDR's New Deal.
The same Fanny Mae that has taken America into bankruptcy,

promoting the failed socialist policies of the Democrats.

Ron Sims fits the mold of those who now run Congress and there isn't a socialist or radical environmental law that he doesn't like.

Bring your NO CAO signs or other items of protest and let Ron know that we do not celebrate acts of socialism or radical environmentalism in rural King County.

BRIEF HISTORY OF FDR

Following is a very brief history of FDR's drive into socialism to "save us" from the perceived national threat of the Great Depression, that led to the NEW DEAL and ultimately, Fanny Mae. FDR's actions in fact, extended the Great Depression for at least 10 years and it took a world war to bring us out of it.

1933 was the year upon which the first dictator became President of the United States of America, Franklin Delano Roosevelt, affectionately known as FDR. FDR brought us the first of the twin evils of freedom..... SOCIALISM, with a big "C" in the form of the New Deal and Social Security and they were codified into American law, fully sanctioned by the U. S. Congress and the U. S. Supreme Court in direct violation of the Supreme Law of the Land, our Constitution. Up until that time, the U. S. Supreme Court tended to follow the Constitution when adjudicating law and legislation. FDR changed all that and socialism has grown exponentially since 1933. Using the emergency of the Great Depression as his rationale, he declared a national emergency. That emergency has never been cleared from the government law books. FDR issued over 3,600 executive orders and had he served out his fourth term, it probably would have been more than all the Presidents before him combined. He turned the separation of powers doctrine between the three branches of government on its head. The Constitution started dying when this first Dictator of America took office. To prove our point, in a fireside chat to the American people on January 11, 1944, here is what Roosevelt said::

This Republic had its beginning, and grew to its present strength, under the protection of certain unalienable political rights—among them the right of free speech, free press, free worship, trial by jury, freedom from unreasonable searches and seizures. They were our rights to life and liberty. As our Nation has grown in size and stature, however—as our industrial economy expanded—these political rights proved inadequate to assure us equality in the pursuit of happiness. We have come to a clear realization of the fact that true individual freedom cannot exist without economic security and independence. "Necessitous men are not free men." People who are hungry and out of a job are the stuff of which dictatorships are made. In our day these economic truths have become accepted as self-evident. We have accepted, so to speak, a second Bill of Rights under which a new basis of security and prosperity can be established for all... Among these new rights are "The right to a useful and remunerative job in the industries, or shops or farms or mines of the Nation; The right to earn enough to provide adequate food and clothing and recreation; The right of every farmer to raise and sell his products at a return which will give him and his family a decent living; The right of every businessman, large and small, to trade in an atmosphere of freedom from unfair competition and domination by monopolies at home or abroad; The right of every family to a decent home; The right to adequate medical care and the opportunity to achieve and enjoy good health; The right to adequate protection from the economic fears of old age, sickness, accident, and unemployment; The right to a good education."

These pronouncements by a sitting president, should have sent shivers of loathing and disgust down the spines of all freedom-loving Americans at the time and caused the Founding Fathers to spin rapidly in their graves. In fact, at the same time, the Socialist Party candidate for president, Norman Thomas essentially said there was no need for him to run any more, because the Democrat Party had adopted the Socialist Party platform. His actual quote was: ***"The American people will never knowingly adopt socialism. But, under the name of 'liberalism', they will adopt every fragment of the socialist program, until one day America will be a socialist nation, without knowing how it happened."***

This is why we must show Ron Sims that what he is celebrating was a dastardly, socialist act, perpetrated upon the people of America, with a hidden agenda of buying off the people

with taxpayer money, for the sole purpose of entrenching the power of the Democrat Party.

Please join with us in not letting this event go unchallenged.
