Perhaps the State of Pennsylvania has given us an opportunity?.

Perhaps this abusive behavior by the state could rally a legal test suit challenging the applicable issue(s), e.g. illegitimate property taxes, income taxes and even till applied sales taxes. Now we have state sponsored abusive ads on illegitimate abusive taxes.

I am waiting for the Lone Legal Ranger or some enterprising freedom law firm to grab this opportunity. At least three states are ripe for a legal challenge. There are at least 3 state high courts who have already ruled property taxes, as currently applied, are unconstitutional and also one state board ruled the same.

Ex Special IRS agent (gun and badge carrying) Joe Banister, CPA has exposed the federal tax fraud that there is no law requiring a federal income tax either, it is voluntary for the natural born. Out of 100,000 IRS employees only 3 blew the whistle, one has disappeared, one is in prison dying and one convinced the jury the federal tax was voluntary for the natural born. 3 out of 100,000 is .003%. This is the leverage of fear.

The Matrix is self-perpetuating and self-protecting.

There are a number of tax freedom groups fighting various fraudulent tax takings in each state. Some like NTU are not on target to the complete elimination of the system. Some of the tax freedom groups and property rights groups want taxes if you can believe it. Everyone has their own brand of tax promotion that is better than the other. After 5 years of looking, I find no high founding or fundamental laws allowing the taxing of the natural born sovereign and free state Citizens. Nor it there any need for such tax masochism. This is why we revolted and why we documented all those abuses in the Declaration of Independence. It wasn't just about tea tax it was about all taxes.

The municipal corporate networks are corrupt and rich, i.e. filthy rich. No direct taxes or indirect taxes upon the natural born state Citizen's is necessary. Walter Buriel makes this case. The government at all levels are presenting themselves as bankrupt and they are, in the sense they are over spending their massive annual revenues while at the same time taking on huge debt. State of Washington rough June 2009 gross revenue is some \$62 billion. This is more than The Boeing Company's 2009 revenue of \$60.9 billion. The Boeing Company is the largest aerospace and defense corporation in the world. At the same time the State of Washington chased away the Goose that was laying the golden egg but their revenue grows none the less. The municipal corporations are stashing billions away for themselves. The municipal corporate hierarchy model has been extremely successful because it

11/1/2010

combines illegitimate tax taking with illegitimate enterprising in monopoly business, e.g. gambling and liquor. Does the word "mob" pop into your mind.

If you still cannot wrap your mind around this, the state's also have the ability to print and coin their own value based money with a 3/4 vote. You have to ask the rhetorical leading question, why haven't the states done this long ago and given up this debased feudal barbaric taxing system. You add the illegitimate and tyrannical taxes and regulations, usurious interest and lack of allodial title and you are a dead man walking from their property to their corporation. The states are perfectly capable to print and coin value based money ending all direct and indirect taxes on its natural born.

The current form of federal, state, county and city municipal corporations are managed on high like syndicated rackets. Their is a Godfather, have no doubt about this. The global mobs apply the worst of both worlds of the private and public corporations. Large uncontrolled private corporations take over through monopoly, oligopoly via lobbying which sanctions sharking out anything that competes with them. The public municipal corporations not only shark out competition, they extort, threaten, harass, jail, imprison, foreclose, confiscate, legislate, "judicate", administrate, regulate, fine, license, permit, zone, shut down and tax to death all the natural born state Citizens who they swore on oath to protect.

A municipal corporation is neither truly public nor a private, nor is it a true and honest government, let alone a Constitutional Republic. Nor do the municipal employees have any clue of the fraudulent and syndicated racket and the racketeering they are dealing in. We have been thoroughly dumbed down to accept this criminal behavior, one generation at a time.

Please skip to end for those of you seeing this material before.

Repeated material below included for new freedom fighters

There is more than enough legitimate sources of government funding to free the natural born state Citizens via uniform indirect taxes on corporations only, customs duties incoming, the sale and lease of state natural resources and the printing press. Even the states can print their own value based coins and gold/silver redeemable certificates.

This chart shows how the orchestrated wars for profit and power created the temporary now permanent illegitimate taxes

The Debates In The Several State Conventions	State Delegates	Number of	The 10 States Statements Found in
Regarding The Direct Tax (1786-1788)	Recorded	States	Elliot Debate Material
(Commonly Referred To As The Elliot Debates)	Speaking Out	Voting	Defining Position on Direct Tax
No Direct Taxes At All	8	5	Massachusetts + Connecticut + Virginia + North Carolina + Rhode Island
No Direct Taxes unless War Or Certain Extraordinary Emergencies (1)	5	3	Massachusetts + Connecticut + Virginia + New York
No Direct Taxes unless Insufficient Revenue & If State is Delinquent	2	6	Maryland + New York + Virginia + New Hampshire + S.C. Carolina
No Direct Taxes unless Insufficient Revenue	2	3	Maryland + Mass + New York
Direct Taxes only with General Limitations & Reservations	2	2	Pennsylvania + Virginia
Total	19	(2)	
(1) 2 votes of the 5 expressed grave concern even used for war			
(2) Sum not applicable due to colony voting for more than one method			Compiled by J. R. Vanick

This table shows that the vast majority of the colonial "states" did not want the dreaded direct taxes. Why would they, they just fought and died to stop it. Some states still could not learn and still wanted it but with very strict limitations. This was all ignored by the Federalist and the apportioned direct tax was written in probably at the insistence of the central bankers and lawyers all British trained.

This is very important, it took me a long time to connect these dots. More dots of taking are added

Even the so called apportioned direct tax or head tax/poll tax mentioned in the US Constitution is illegitimate because:

- The majority of the delegates and "states" at the time did NOT want it, but it was weaseled worded into the Constitution anyway.
- The then 13 Republics and Commonwealths legislators did NOT vote for the US Constitution nor did the relative few voting eligible men at the time
- Those against a central union of the states were strongly against the Constitution, they were prophetic in hind sight (more debtor class)
- Those for a central union of the states were the more intellectual, merchants, lawyers, large land owners (more creditor class)
- The Federalist fears came true unfortunately
- The Federalist could only successfully pressure 9 of the 13 "states" to go along with the centralization of power the US Constitution
- The US Constitution Art. VII says 9 states shall be sufficient, that is fraudulent.
 - This is the equivalent of holding up an election until you have enough votes dribble in to win over the cut off time of the election.
- The Articles of Confederation required unanimous approval at the time of the conventions not years later.
- In a Constitutional Republic, the charters cannot be binding on the natural born state Citizens who are free and sovereign.
 - The natural born state Citizens are free and sovereign by their birth rights, i.e. unalienable rights
 - These precious rights are given to you by the Laws of Nature and Nature's God ...
 - **NOT** by the government or their fictional corporations
 - The union of the states, states, counties, cities are chartered by oath and honor to protect you and your property
 - They cannot take your property nor regulate it nor tax it, nor charge you usury nor deny you allodial title
- The US Constitution, even if it was totally legitimate, binds only those states who

11/1/2010

- sign, applicable territories and military areas.
- Government charters, unanimously approved by fully represented honest conventions, only bind the applicable government bodies
 - Lysander Spooner filed numerous documents in court to this effect in and around the 1870's.
 - Professor Randy E. Barnett, a Professor of Legal Theory Georgetown University Law has resurrected Lysander Spooner
 - <http://www.lysanderspooner.org/>
 - Professor was raising donations for a fitting tombstone for Lysander Spooner

New Material

Speaking of constitutions, a web site report on the "State of Washington Constitution That Never Was" is coming soon. This work came, in part, as a result of the last 5 years of research on our disappearing property rights including "A Treatise on the Corruption of the (US) Constitutional Conventions in the Several States" and a web site report on the (US) "Constitution That Never Was".

The title "Never Was" threads to Bill Bensen, a researcher and author of "The Law That Never Was", <http://www.thelawthatneverwas.com/new/home.asp>. He went around to all of the 50 states and dug up the original papers regarding each states vote on the 16th Amendment (federal "income" tax"). He found 13 states did not ratify it, 12 states did ratify, 23 voted yea but violated their own state Constitutions and all of them had miscellaneous errors. When the US Constitution is amended the states are only allowed to vote Yea or Nay, they cannot alter the amendment but many did. US Secretary Know at the time railroaded it through well knowing they never had the necessary 3/4 of the then 48 states or 36. They only had 35 Yeas and all of them were illegitimate because of errors. Bill Benson has been barred from the Federal District Court in Chicago, see his site.

So you may see where I am going here. I believe all of the several states, as in all 50, individual constitutions are NOT framed in a true and honest Constitutional Republic as they were charged to do, before they could be admitted into the union of the states. Based on preliminary findings researching the State of Washington constitutions, I believe all state constitutions are illegitimate. Can you believe this?

The self feeding frenzy of the growing network of the beast, a.k.a, city, county, state and union municipal corporations and their non government partners, national and international including the UN our devouring themselves, i.e. our private and public property and the body of the natural born sovereign and free Citizens. Yet this state generates some 60 billion dollars a year of revenue from illegitimate tax extortion and business enterprises PLUS sits on some 132 billion of net worth. Add a couple hundred cities, a few dozens counties and one state via their Consolidated Annual Financial Reports and you have one of the grandest tax, usury, debt and regulatory syndicated racket in the world. Then multiply that by 50 and add the Union of the

11/1/2010

States USA Corp. plus add another 60 some countries and you are controlling the world. Many in the freedom movement who are more than credible in their own right, are connecting the dots at this level.

For those who cannot wrap their mind around this, I completely understand. Very very few people can deal with this. Thus I came to understand why only 2/3 of 1% stood up and left their families and homes to fight along side General Washington while the rest of the 3,000,000 kept their bellies full and waffled between the "security" under the tyrant King George III and/or struggled to free themselves from the taxing tyranny.

History is repeating itself. We will lose more property until some critical mass of less than 1% stand up and fight and win. This small critical mass works both ways. This is how we have lost all our private and public property to date. A very few elite's are controlling the printing presses, taking usurious interest on that illegitimate worthless currency, i.e. debt and taken over the tax taking systems of some 60 countries to fund their war upon the world.

The government and its non government partners are making trillions by selling lies while they tie up all the private and public property in America and 60 other countries and put it in their pockets.

This is where my glass ceiling is today, I hope this helps to connect a few more dots of taking for you.

New posting go up to the site at least weekly, most from other freedom fighters.

Sorry Roni & Ron. My New Years resolution was to replace long email reports for website documentaries. Maybe this is how political "science" was born, i.e. to turn the truth and an oath into a compromise. I leave you with a smile on your face.

Not unlike the deal that the Democrats and Republicans made to not contest each other's illegitimate prior presidential candidates. One is a foreign born illegal alien never naturalized and the other is not a true natural born. None dare call it treason.
