Subject: The Cup of Free Choice v. The Cup of Government Poison

To: Those Drinking From The Cup of Free Choice
bcc: Those Drinking From The Cup of Government Poison

This graph is a great historical perspective of the stock "market". Our belief systems are so so powerful they can create facts and fiction out of thin air. This market is not a market in in the sense of a free and open market. Once you start to understand how deeply corrupt the monetary system is, as well as the central banking systems and the government systems systems controlling every aspect of our lives, you can start to understand how to free yourself. Assuming you know you are not free.

With this new perspective, you can track how the dark side will try again to blow up the empty balloon of debt, broker more illegitimate wars for more usurious interest for more usurious debt for more usurious taxes to create an illusion that we are a free and profitable nation. Then when these takings fail again, they will bailout the national and international gangsters upon our backs using the same ole propoganda. Our families have have died to keep this illegitimate game going for 232 years here in America and abroad.

The answers are always simple. Let those who fail, fail. What a great lesson failure is. It is the best professor I ever had. Who wants to learn something new, especially outside ones belief system unless you experience direct failure as a result of your personal confidence levels. After a few failures, one get desperate enough to do something drastic and change the way you think and believe. America has been propping up a growing government model of failure for centuries.

Profit = gross revenue - cost of doing business. Free markets require profit for all of us to survive. Without responsible profit, we degenerate into fascism which is where we are today in America and rapidly spreading around the world. While the fix is simple, the irony is in the detail.

Profitable businesses and individuals are soon surrounded, regulated to death and devoured devoured by those sharks who refuse to live on their own. In turn, those businesses, corporations and individuals, who do become successful, too frequently become greedy and and turn to sharking out their own kind as well as their employees, i.e. less benefits and less less competition = more profit. In turn the people and the businesses create a third type of of shark to "protect" themselves or so they think, i.e. "government". Then they create another shark called unions to protect them from the other sharks.

Thus we create the "perfect storm", a cycle of a degenerating feeding frenzy. We feed upon each others greed, fear, envy and weakness. No non government or government government institutional shark is going to save those they feed upon. These institutions have lost the most fundamental principles long ago.

The model we have built over the last 232 years was debased from the get go, believe it or not. The first experiment in "freedom", while giving us a relative quantum leap toward more individual freedom in America was undermined by the intention of the founding "liayers" and part ignorance of the apathic uninvited other 3 million colonists. 34 of the 55 55 Constitutional signers in Philadelphia were lawyers, i.e. "liayers". We have political courts NOT constitutional courts. The Constitution was a product of the state "delegates" "delegates" not the people. This is only the tip of the constitutional takings researchers are are just starting to understand.

After one studies history long enough, the question is not, were "they" successful,

- But just exactly who was successful and at what price have we all paid for this "success".
- One has to train themselves to learn the basic assumptions of freedom to

recognize when you are taken.

- If you do not understand your fundamental unalienable rights, you are duped into fee fee simple title thinking you own your land
 - while you are taxes thru the grave on what you don't own, believing this is legitimate

Government and corporate institutions feed upon the people, needlessly.

- Both institutions have become predatory upon our very lives,
 - our families, our wages, our land, homes, wealth, vehicles, livestock and traditional way of life.
- These two sharks devour their own kind to survive NOT to protect us.
- They are unquestionably cannibalistic.
- The string of taking does not stop there.
- The thread of conscription runs deep into our roots through the Bank of England and and the Bank of Rome and beyond.

How many ways can you divide up the gift of individual and state sovereignty?

- And the answer is,
- in enough ways for the government and non government sharks to make your rights near invisible to you
- and bite size for them
- the government and non government "liyers" have fragged our fundamental laws beyond recognition

The only way we can set ourselves free is for each one of us to become totally independent independent from both groups ASAP.

- We have degenerated from the land of the free into the hand of fascism in less than 232 years.
- America has allowed itself to become enslaved to the tyranny of elite bankers and "liyers"
- These self appointed money and legal changers have robbed us blind and we don't even know it.
- Some may call for a revolution which is more than justified and long over due
- I call for the complete independence and sovereignty of the states from the central government and UN

- I call for complete free choice for the natural born sovereign and free state Citizens
- Let the Federalists central government die of atrophy and old age
- Free people need free places to live and that will happen next
- Free states, towns, townships will be the next revolution that will magnetize a model of unending prosperity for all

The dark side has dealt us an illegitimate hand of poison cards and stacked the deck long ago. e.g.

1. illegitimate usurious concept of interest rates
2. illegitimate tax system
3. worthless, corrupt and unnecessary paper not based on gold or silver
4. growing debt into bankrupting America several times
5. illegitimate laws and regulations that debase fundamental Laws of Nature and Natures Natures God
6. unnecessary wars brokered for power and profit
7. cannibalizing our traditional way of life
8. making us believe that taxes upon the natural born sovereign and free state Citizens are necessary
9. making us believe they can regulate our lives better than we can
10. allowing others to legislate our life style
11. allowing others to take away our private property including our wages, homes, land, vehicles, livestock
12. then telling us this was done to protect us and keep us safe
13. we are not cattle nor ant colonies nor bee hives we are sovereign and untouchable.

The stock market, the monetary system, the banking system, the ABA, the government systems, court systems, election systems, state run indoctrination systems, taxing systems, ad nauseam, are all totally corrupted and unnecessary to operate a free society. The irony is any forced system ultimately kill entire civilizations on the average every 200 years. How many times must we pervert free choice before we learn this simple fact?

Every city, county and state government in America survives by highly illegitimate predatory taking from the natural born, sovereign and free state Citizens.

- This is totally unnecessary in a free society.
- Government taking of any kind is the death knell to our national, state and individual

individual sovereignty.

- **Once you start to see this pattern of forced bully behavior and you run the threads of of taking back far enough, the picture becomes clear.**
- **Force is not only unnecessary, it is highly destructive to a free society**
- **Yet over half the population of America believe this is the only way they can survive.**

Government and its non government leeches take a little dash of facts, a pinch of reality, a gallon of hype and hysteria, 5 gallons of paranoia, 10 gallons of misrepresentations (lies) (lies) and stir it up in a blender called the media to create a slop they pour into a public pig trough for us to drink from.

Each individual must cut all ties with these sharks and make themselves totally independent. Then we must show the next generation not to drink from this poison well. This slop created by these institutional sharks causes a slow horrible death.

We must learn to drink only from the cup of free choice to set ourselves free.

The dirty secret is forced takings are not necessary in free societies.

- **Freedom and power and greatness is built upon giving NOT forced takings of any kind.**
- **Forced taxing upon the natural born sovereign and free state Citizen is a myth and a regressive tax.**
- **Income taxes, property taxes, sales taxes, flat taxes, VAT taxes, "Fair" taxes are all a myth**
- **Absolutely unnecessary and an insult to a society built upon freedom.**
- **Legitimate taxes are only upon legal fiction corporations and municipal corporation and their employees.**

How to restore freedom in America is the question.

- **Do just the opposite of what we have done for the last 232 years**
- **Defund government to save our traditional way of life**
- **Let unprofitable institutions fail**
- **Shut down the unconstitutional and illegitimate IRS**
- **Stop all taxing and usurious interest upon the natural born sovereign and free state Citizens**
- **Kick out the UN and the Rockefeller and globalist base who support it**
- **reestablished a very limited government based on limited revenue sources, i.e.**

- indirect taxes, custom duties, the sale and lease of natural resources
- individual state limited printing of constitutional gold and silver based low fractualized coin and currency redeemable in gold and silver.
- Shut every cereal agency in the federal, state, county and city governments down immediately.

Americans are NOT poor though the fascist and socialist would have you believe it.

- We do NOT need to rob by force from anyone.
- We are more than capable of creating our own wealth if left alone by the marauding government and their codependents
- City, township, state and federal governments have more than enough revenue on indirect sources at only a few percent tax
- All others individual needs must be met in the private sector
- There is no need for illegitimate and legitimate direct taxes or indirect taxes of any kind directly upon the natural born
- Get out of the spot illegitimate spot light and red lights and exercise all of your unalienable rights ASAP

America has a grand illusion of freedom. May God grant us the strength and spirit to free free ourselves and take care of ourselves by ourselves, once again. There is no fundemental laws of this country or Laws of Nature and Nature God's that require natural natural born sovereign free state Citizens to pay a dime to anyone.

The "bailouts" and those behind them are the problems NOT the solutions. The highest highest priority solution to save America is to get rid of the usurious taxes and interest rates rates upon the natural born sovereign and free state Citizens. Anything short of that is only a criminal political "fix" in more ways than one.

Enumclaw, Washington

"Freedom is just another word for nothing else to loose"

P.S.

Good Constitutional reading FYI

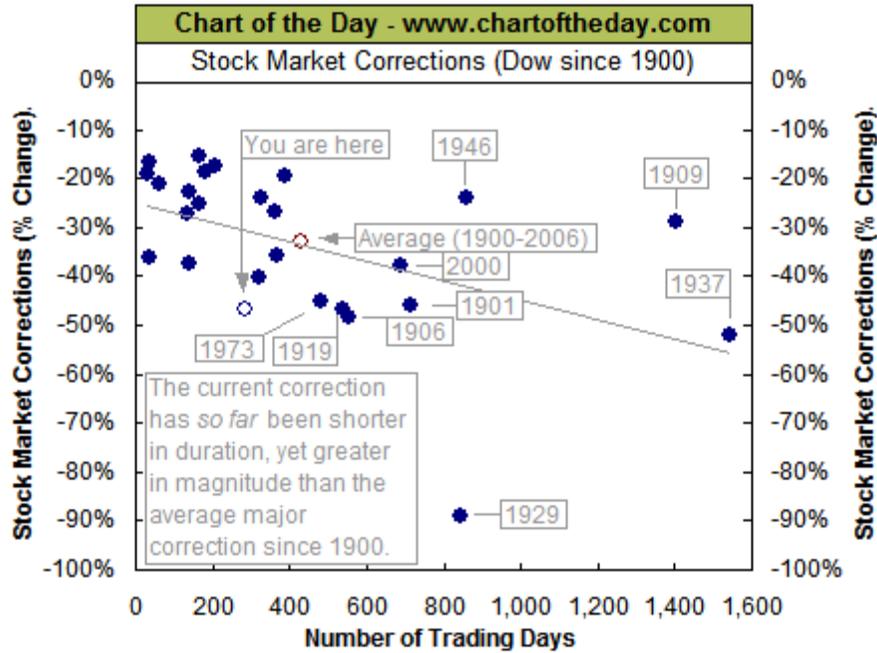

1. The Constitution That Never Was by Ralph Boryszewski (a New York retired cop in his his 90's)

- (book is hard to find out of print used copies only if lucky)

- <http://techrepublic.com.com/5208-12844-0.html?forumID=102&threadID=260620&messageID=2478124>
- He couldn't find a publisher to print it because the publishers were afraid of being sued by the lawyers
 - So he paid for the first printing out of his savings
- <http://www.frontiernet.net/~ralphb1/>

2. Our Constitution The Myth that Binds Us by Eric Black

Chart OF THE DAY		For the charts you haven't seen Click here for Chart of the Day <i>Plus</i>
		
<p>Chart of the Day</p> <p>The stock market continues in its highly volatile ways with the Dow trading down 5.5% on the day. For some perspective on the current correction, today's chart illustrates all major stock market corrections (15% loss or greater) of the last 108 years. Each dot represents a major correction as measured by the Dow. For example, the bear market that began in 1973 lasted 481 trading days and ended after the Dow declined 45%. Since 1900, the Dow has undergone a major correction 26 times or one major correction every 4.2 years. As it stands right now, the current stock market correction (October 2007 peak to most recent low which occurred today) would measure slightly below average in duration but above average in magnitude. In fact, of the 26 major stock market correction since 1900, the current stock market correction currently ranks as the fourth largest in magnitude (only the corrections beginning in 1906, 1929, and 1937 were greater) and is the most severe stock market correction of the post-World War II era.</p> <p>Notes:</p> <p>- Where's the market headed? The answer may surprise you. Find out right now with the exclusive & Barron's recommended charts of Chart of the Day <i>Plus</i>.</p>
