

DR. RAND PAUL
U.S. Senator (R-KY)

Tuesday, 7:42 AM

Please Read ASAP
Fauci's Time Is Up
Urgent Reply Requested

Dear Fellow Patriot,

In nationally televised hearings, I used my medical training to expose the ugly truth about Dr. Anthony Fauci.

Now the entire world knows that Fauci Lied!

We know he lied about everything from the usefulness of masks to the contagiousness of the virus.

We know he ignored sound medical advice while deliberately and continuously misleading the American people at each and every turn.

Dr. Fauci even opposed President Trump's travel ban on China, despite knowing full well the virus could jump from human to human!

In fact, it's not a stretch to say that Dr. Fauci's lies were the single biggest reason Joe Biden is now president. I cannot say for certain Dr. Fauci was part of the "deep state" efforts to delay Pfizer's announcement of a vaccine until after the election. But I would not be surprised, given his attacks against President Trump!

My friend, enough is enough. It's time to Fire Fauci.

And it's time to launch a full-scale investigation into Dr. Fauci's handling of the virus and his profiting off the virus -- while he was forcing millions of Americans out of work and into unprecedented hardship through his actions.

Of course, that won't happen unless you and I can create a tidal wave of outrage on Capitol Hill to force Dr. Fauci to pay for what he's done.

And it won't happen without Members of Congress standing up for you, exposing the truth and fighting against the corrupt establishment. I'm doing just that!

Of course, fighting unconstitutional government overreach is the main reason why I ran for Senate in the first place.

And it's why I am writing you today, to ask for your support for my reelection to the U.S. Senate in 2022.

(Over, Please)

I just wish my colleagues on the other side of the aisle had an even-handed approach to this topic. But as you and I both know, hypocrisy reigns supreme in the halls of Congress.

As they say, the truth is out there. The Democrats just don't want to admit it. But here is what we know for sure already:

Fauci knew the virus probably originated from a lab leak in Wuhan; yet ridiculed anyone who attempted to talk about it.

★ Fauci knew school-aged children were not at risk; though he continued to advocate for school closures.

Fauci told colleagues that masks you can buy in a store are useless against the spread of COVID; yet continued to call for mask mandates.

Fauci was strongly against Donald Trump's plan to stop Chinese nationals from coming into the U.S.; even though he knew that COVID was contagious.

And friend, that's just the beginning of it!

There are now more than 2,000 emails showing Fauci chose his own ego and the leftist narrative in his handling of the virus, quite easily resulting in thousands of preventable deaths!

And to top it off, Dr. Fauci is set to make millions off the virus, because while he was shutting down businesses and churches resulting in skyrocketing unemployment, the good doctor was writing a book!

That's right, Fauci is set to make millions on the pain and suffering he helped inflict on of the American people.

~~I say enough is enough!~~

Under the Constitution it is within my power as a U.S. Senator to call for the dismissal Dr. Fauci and I will continue to do so.

It's no wonder the Fauci sycophants want me silenced.

Just a few months ago they sent an envelope with white powder in it to my home to try and terrorize my family, and reporters and celebrities continue to call for violence against me.

These are threats I sadly must take seriously. Since my election to the U.S. Senate, I've been harassed by leftist activists, brutally assaulted, and shot at.

I WAS THERE at the Ballfield when a deranged Bernie Sanders

(Over, Please)

supporter tried desperately to kill House Republican Whip Steve Scalise and seriously wounded several others.

The assault against me was so severe it broke my ribs, punctured my lung and resulted in painful surgery.

So, while I take these threats seriously, I will NOT back down or stop fighting. And to continue my fight for liberty I simply must have your support, now!

Will you please sign your Fire Fauci Petition that I've enclosed?

And when you do can I count on your donation to Rand Paul for Senate today?

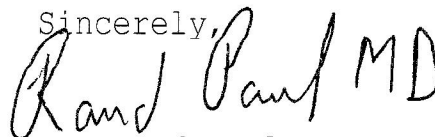

I hope you will consider sending in the maximum legal amount of \$2,900 for an individual or \$5,800 per couple. Or consider \$2,000, \$1,000, \$500, \$100, or \$75. But whatever you can afford, I urge you to send it in today.

My friend, your support is needed now, more than ever.

I believe together you and I can fight back against Dr. Fauci and the big government statistis of both parties and help restore our liberties.

Thank you for all you do for liberty, and I hope, for all you will continue to do not just for me but for our country.

Sincerely,

Dr. Rand Paul

P.S. I am writing you today to ask for your support for my reelection to the U.S. Senate. Because now we know the truth, that Dr. Anthony Fauci has been lying to us all along.

To continue the battle to Fire Fauci I simply must know I have the support of thousands of Americans just like you. The 2022 campaign has already started and I am a top target of the left.

Will you please take a minute to sign your Fire Fauci Directive that I have enclosed for you? And when you do can I count on you to make a donation of \$2,000, \$1,000, \$500, \$250, \$100, or \$50 to Rand Paul for Senate today?

I hope you will even consider sending in the maximum legal amount of \$2,900 for an individual or \$5,800 per couple. But whatever you can afford, whether it's \$2,900 or \$100, please send it in today.

Because while the next election may seem a long way off, my campaign is already in full swing. I simply must know I have the support of thousands of Americans just like you in standing up for individual freedom, personal liberty, and sound medicine.

Will you please take a minute to sign your Fire Fauci Petition that I have enclosed for you? And when you do can I count on you to make a donation to Rand Paul for Senate today?

⇒ I hope you will consider sending in the maximum legal amount of \$2,900 for an individual or \$5,800 per couple. Or consider \$2,000, \$1,000, \$500, \$100, or \$75. ←

But whatever you can afford, I urge you to send it in today.

Because the fight against Dr. Fauci and all those in Big Media who spread lie after lie and in Big Tech who ruthlessly censored alternative medical opinions and views is not over.

In fact, it's just getting started.

It was only a few months ago that Dr. Fauci and Trump-hating media lapdogs called me all sorts of names, including "conspiracy theory nut."

Why? Because I dared to support President Trump's assertion that the Communist Chinese Coronavirus might have been created in and escaped from the lab in Wuhan, China.

But, since that time, I exposed the truth about Dr. Fauci, and a FOIA request resulted in the release of 866 pages of emails between Dr. Fauci and many others proving the lie.

* As a result, the U.S. Senate passed my legislation to defund the dangerous, taxpayer-funded research being done in Wuhan.

Because of our efforts to expose Dr. Fauci, both Big Tech and Big Media were forced to change their entire reporting on the Chinese lab-leak issue.

In fact, ABC's Jonathan Karl admitted that journalists didn't do their jobs and cover the Wuhan Lab leak theory simply because they didn't like Donald Trump. And the Washington Post was forced to correct their reporting on the Wuhan Lab leak.

Even Mark Zuckerberg's Facebook changed its position and has now stopped censoring posts that mention the Wuhan leak.

And President Joe Biden has been forced to order a full investigation.

Sometimes, when the truth gets out, even the left is forced to report it.
