

How Private & Public Property is Destroyed

One Hundred Years Ago

One hundred years ago

Cattle & horse thieves were hung

Trespassers were shot on the spot

There was less man made fictional laws, more natural law and rights on the Land

Justice was quick with a rope and a gun

Ranchers & farmers and their hired hands knew what to do

Today green government and NGO rustlers are hanging property owners for fun

Have we forgotten what to do

Now globalist and nationalist groups our ruling OUR Land

Now there is no law or order

Only tyrannical agencies rule by illusion and slight of green greedy hands

Using immoral acts of seizure to take our private and public Lands
